

Lake County Examiner

MUCH ACTIVITY IN PHONE LINES

LAKEVIEW HAS BEST SYSTEM ON COAST

NEW LINE TO PINE CREEK

Adel Line Also Being Rebuilt and Many Improvements Made

At present there is a great deal of telephone activity in this section. The Lakeview-New Pine Creek Electric Company has just completed in some what less than a year's time the installation of a local telephone system in this town, with a total published list of one hundred and twelve subscribers. These are divided off into one, two and four-party lines and the system is giving excellent satisfaction.

The company is now repairing the Dent telephone line between this place and Adel, a distance of forty miles, and are to erect a switch board at the latter place. When this work is completed they will put in a new line for the Dent people from Adel to Bidwell, a distance of 32 miles, both Adel and Bidwell will then be connected with Lakeview by an up to date line.

On September 15th work was commenced by the local company on the erection of a complete new telephone system between Lakeview and New Pine Creek. This latter work will be in charge of Guy M. Causey, company wire chief. The company has a ten year's auto-lease with the Pacific States Telephone Company, which protects it in this county.

More Room For Boone's

In addition to their former quarters Boone's dry goods store now occupies the room recently vacated by the Frost Kandy Kitchen. For some time past Mr. Boone has been sadly in need of more room, owing to increased business, and hence he is correspondingly elated over being able to secure the additional room.

INNER PROPERTY REMAINS INTACT

REPORTED GALE IS NOT CONFIRMED

Judge Brattain and C. E. Campbell Purchase Interest of J. M. Innes

It is probable that the Charley Innes place at Summer Lake will in the near future be subdivided into small tracts and placed upon sale. The report was current this week that the place had been sold, but upon inquiry it was learned that such was not the case. However, Judge E. M. Brattain and C. E. Campbell have purchased the interests of one of the heirs, James M. Innes, and as a consequence the advertised sale of the property will not take place. The remaining heirs and present owners have decided to hold the property intact for the present and what disposition they will make of it in the future has not been fully decided upon.

Oakland 40 Wins

S. G. Chapman has just been advised that the Oakland "forty" touring car was awarded the gold medal as the finest car exhibited at the Sacramento State Fair in the above thirty five horse power class. Great importance attaches to this award due to the fact that seventy cars, representing practically every make on the market, were on exhibition. According to the message sent Chapman the award was made by the judges not only on exterior appearance but also because of the mechanical accessibility that the car is found to possess. Hankins and Rinehart are sole agents for the above car.

Successful Opening

The Grand Fall opening at The Parloian Millinery last Saturday was a decided success, judging from the numerous hat boxes seen on the street and the beautiful hats worn

by the ladies in the afternoon. The store was brilliantly lighted on Friday evening, showing the gorgeous autumnal beauty reflected in the new millinery, which revealed in a wealth of superb colorings and fascinating styles. The store was filled to its utmost capacity with hats in all styles. The number and variety of styles shown would do credit to any city. The display of beautiful hats emphasizes the fact that the proprietors of this store, thoroughly understand the millinery business which the ladies of Lakeview appreciate.

Farewell Party

Last Saturday evening several of the young lady friends of W. L. Dutton and G. D. and L. P. Cronmiller tendered them a farewell party at the residence of the latter parents. Games were indulged in during the evening, after which refreshments were served. The boys left Monday evening for Corvallis to resume their studies at O. A. U.

Among those present were: Misses Mollie Gibbins, Louise Storkman, Cuba Amick, Alice Lindsay, Emily Ayres, Emily Clark and L. P. Snelling, and Kelt Gunther, Fritz Williams, Walter Dutton, Harvey Cannon, Jim Judge and Guy and Lynn Cronmiller.

After Winter's Meat

V. L. Snelling and L. P. Conn Monday started out on a deer hunt and on their return their friends will no doubt feast on venison, providing of course that the big bucks are not over on the next ridge.

HANDSOME FRUIT BEING DISPLAYED

UNEXCELLED IN FLAVOR AND QUALITY

Summer Lake and Goose Lake Vie With Each Other in Fruits

While all sections of the state are boasting of their fruit crops, yet it is safe to say that so far as size, coloring, flavor and general all around quality is concerned Lake County and Goose Lake Valley has them all skinned to a fare-you-well. Any one doubting the truth of this statement should take a look at the display in C. O. Misener's window, as well as at numerous other offices and business houses in town. The display includes apples, peaches, pears, plums, etc., and is from different sections of the county including the Foster and McCormack ranches at Summer Lake, Snelling, and Clint Vernon and Lou McCully places below town, as well as the New Pine Creek district, Geo. Conn's place at Paisley and the famous Briles orchard at Davis Creek.

For size Clint Vernon heads the list with pound and a quarter apples. But what attracts the most attention is the richness, coloring uniform good shape and size of all the fruits. The bright sunny days have caused the apples and peaches to assume that attractive bright red coloring so greatly admired, while the pears and plums cannot be equalled in appearance by any grown elsewhere. Reports from all sections where fruit is grown are to the effect that the crop is unusually heavy although the quality is about normal. Much fruit is now being brought to town and the good housewife keeps herself busy in "putting it up" for winter use.

Band Reorganized

The fact that the Lakeview Band has been reorganized and will give a concert Sunday afternoon, weather permitting, is the very pleasing information given out by the organization. O. L. Dunbar is now manager, while Vic Maxwell officiates as secretary and E. J. Stone handles the cash. There are 12 members of the band and they propose giving a dance in the very near future.

Services at M. E. Church

Until the Methodist Church is assigned its new minister and his arrival Dr. Bigelow has been asked to occupy the pulpit. He will speak next Sunday. Subject, morning: "Prayer and Its Meaning." In the evening the subject will be: "The excuses that men make for not coming to church."

Men's canvas gloves, leather palm, 25 cts at Boone's.

GET YOUR HAMMER OUT

Political Knockers Can Now Get Busy For Election

REPUBLICANS HAVE NOW 226 MAJORITY

County Seat Removal Called Out Registration 1908 Almost Equal to That of This Year—Standing of Parties Practically Same

The primary election will be held Saturday and copies of the ballots will be found elsewhere in this issue.

As stated in the Examiner last week, the registration of voters closed on the 15th inst. with a total of 906 names on the register. Of this number 687 registered as Republicans, 67 as Democrats, 38 as socialists, 5 as prohibitionists, 4 as independent and 5 refused to give their political affiliation. While the registration shows only an increase of 54 over that of 1908 yet that is not a fair indication of the increase of the voting population of the county. Two years ago the question of moving the county seat was under consideration and that fact caused the interested parties to have every voter register that was possible.

According to the registration, the growth of the voting population of the county as between north and south ends, providing Paisley is included in the former, has been about the same, although what was Silver Lake precinct in 1908 and now includes Fort Rock and Lake, shows the greatest increase. In 1908 Silver Lake had a registration of 170 while this year the total of the three precincts is 284.

The per cent of increase in the old

party registration is practically the same, although the socialists have increased from 10 in 1908 to 38 this year. The republicans have a majority over all of 295, which under condition of 10 years ago would insure the election of every republican nominee.

In 1908 there were 2 Prohibitionists registered as against 5 this year, 2 Independents as against 4, and 3 who refused to give their political affiliations as against 5. In 1908 there were 3 Populists in the county, but they apparently consider it a lost cause this year.

The registration for the two years follows:

	1910	1908
	Rep.	Dem.
So. Lakeview...	116	38
Summer Lake...	14	19
Paisley...	37	21
Crooked Creek...	19	5
North Warner...	46	17
South Warner...	18	11
No. Lakeview...	85	38
Silver Lake...	56	48
Drews Valley...	5	1
Goose Lake...	19	10
Cogswell Creek...	36	21
Thomas Creek...	13	3
Lake...	68	17
Fort Rock...	57	18

As a means of comparison the vote of two years ago is herewith published and is as follows:

1908 ELECTION RETURNS:

	Rep.	Dem.	Pro.	Ind.	Ref.
So. Lakeview	116	38	7	91	36
Summer Lake	14	19	1	18	24
Paisley	37	21	8	31	1
Crooked Creek	19	5	1	16	7
North Warner	46	17	1	29	14
South Warner	18	11	1	18	16
No. Lakeview	85	38	5	74	38
Silver Lake	56	48	4	106	58
Drews Valley	5	1	1	10	7
Goose Lake	19	10	2	29	13
Cogswell Creek	36	21	4	50	38
Thomas Creek	13	3	1	35	5
Lake	68	17	6	81	41
Fort Rock	57	18	8	75	36
Total	1006	377	67	1006	527

Killing in Klamath

Another killing occurred at Klamath Falls Tuesday night of last week. Joe Powell was the victim, his assailant being Tom Anderson. The men had quarreled earlier in the evening and afterwards Anderson went and armed himself and then hunted Powell and killed him. But little is known of either man.

Mead Turns Farmer

E. H. Mead, the manager of the Margaret lies Co. informs us that he has definitely determined to abandon the theatrical profession and settle down in Modoc county. Considering the character of Mr. Mead's profession which carried him over all parts of the country this is no small

compliment to Modoc county. He says this is the best country he has visited and he proposes to camp for good. Mr. Mead is a bright enterprising gentleman and the fact that he has succeeded in the theatrical business is evidence of his capacity for any pursuit. We therefore welcome him among our list of citizens for we feel assured he will make a good one.—Alturas Plasterdealer.

Change in Formanship

S. C. Graves, who has had general charge of the Examiner during the past five months resigned his position last week, having purchased a cigar store at Klamath Falls. During his stay in Lakeview Mr. Graves not only served the Examiner well but he made numerous friends among the business men, all of whom regret his departure.

Mr. Graves is succeeded in the Examiner office by J. G. Campbell, recently of Dallas, Texas who is an experienced printer and who will have general charge of the business, receipting for money as well as giving prices on job work and advertising.

Army Maneuver Field

An effort is being made to have a 3,000 acre tract of the Klamath Indian reservation set aside for a joint maneuver ground by the U. S. Army and National Guard. Generals Mans and Finzer and Colonel James Jackson are now examining the tract. It lies north east and south of old Fort Klamath, and it is said there is no section of the country in the west as suitable for the purpose.

RAILROADS MAY HELP SHEEPMEN

PRACTICAL PLAN TO OPEN FORESTS

Much Range in Washington Can Be Utilized By Proper Management

H. K. O'Brien, assistant district forester, who visited the Fremont Forest during the past summer, has worked out a plan which if followed by sheep men will greatly relieve the Oregon ranges. He has just returned from a two month's inspection trip over the Chelan and Okanogan national forests in northern Washington. Mr. O'Brien found that enough pasture is going to waste there every summer to afford grazing for more than 200,000 sheep.

It is his purpose to induce Oregon wool growers to ship their flocks to these high ranges for the summer breeding period. If a special transit rate can be obtained from the railroads whereby stockmen could start the wool bearers for the eastern markets at the beginning of the summer months, with the privilege of stopping over for 90 days at the shipping points nearest the forest reserves of Northern Washington the sheep growing business in Oregon will be revolutionized.

The ranges of Oregon are already crowded far beyond their capacity, not more than 50 per cent of the sheep grown here being able to find grass in the summer season. The indications are that there will be a great surplus of range stock for the next season and the new pastures being exploited by the government should prove a great help for growers.

Presbyterians to Organize

Rev. Selden C. Adams, who represents the Home Missionary work in the Presbytery of Southern Oregon, preached in the Baptist Church last Sunday evening. Twenty-one persons of Lakeview have signed a petition to the Southern Oregon Presbytery, for the organization of a Presbyterian church in this city. Already a Ladies Aid society has been formed and meets every week. A Presbyterian church will in all probability be organized within the next few months.

Witnessed Harrell's Execution

P. M. Corey and W. A. Barker returned the first of the week from Salem, where they witnessed the execution of Ike Harrell and Walter Newell. It was a gruesome sight, as the rope almost severed Harrell's head when he dropped. He made no statement whatever previous to his execution, and apparently remained stolid and indifferent to the end.

NEW WAREHOUSE NOW UNDER WAY

TO BE LOCATED WEST WEST OF HIGH SCHOOL

CAPACITY 1,000,000 LBS.

Will Be Up-to-Date, Permitting Each Sack of Wool to be Examined

Work has this week commenced on the big warehouse for the Lakeview Wool Storage Co. The building is located directly west of the High School grounds, and will be 73x100 feet in size. It will have a capacity of 1,000,000 pounds and will be built along modern lines. The building will be so arranged that every sack of wool that is stored can be inspected by the intending purchaser, and buyers will then be able to make an intelligent offer.

The system hitherto in vogue has been more or less of a guessing proposition on the part of some buyers, inasmuch as a hurried examination of the wool clips would be made. An estimate of the cost of getting the wool to the railroad would be approximated, and of the loss if any to be incurred, and under such circumstances it could hardly be expected that the buyer would give all the wool was worth and run all chances besides.

By storing the wool here in Lakeview it is expected that expert graders will be sent in by the different wool buyers, and that a better price will be realized than if the wool was scattered all over the county. Heretofore numerous houses could not send their experts here because of the time required to examine the various clips.

Should the growers avail themselves of the opportunity afforded by the storage plant, as they no doubt will, much better prices will be realized next year than would otherwise be the case.

BENSON WILL BE PERFECTLY WELL

PHYSICIAN PREDICTS HIS RECOVERY

Governor's Condition 100 Per Cent. Better—Home After Primaries

San Francisco, Sept. 15.—Governor Frank W. Benson, of Oregon, when seen today in the office of his physician, George Culver, said to a representative of the Oregonian that he expects to leave for his home shortly after the primaries. In the meantime he will visit relatives in San Jose. Governor Benson has improved rapidly, but it is on the advice of his physician that he decided he could not go to Oregon for the primaries.

The Governor has also secured from Dr. Culver the following signed statement as to his condition and his improvement. The report, which covers his case in detail, is as follows: "I have seen Governor Benson in my office today and dressed his wound. The local condition is steady and rapidly improving and his physical condition is practically 100 per cent better than it was one week ago, which means a great deal, as he has been making steady progress for the last two months.

"Our only reason for keeping the Governor here is to get him in such shape that he will be physically equal to any amount of strain that may be put upon him when he goes back to his work.

"The many efforts in reference to his eye being in danger are false, as his eyes are perfect and as clear undoubtedly as they have been for years. The fact is Governor Benson is getting well and is getting well rapidly, and he is going to be a perfectly well man, fully capable of holding the most difficult position.

George D. Culver.

Negligee Shirts that look good 75 cts. at Boone's.
