 Incorporated.
 A Complete Record
 We have made an entire transcript of all Records in Lake
 County which in any way affect Real Property in the county.
 We have a complete Record of every Mortgage and transfer
 ever made in Lake County, and ever Deed given.
Errors Found in Titles
 In transcribing the records we have found numerous mort-
 gages recorded in the Deed record and indexed; and many
 deeds are recorded in the Mortgage record and other books.
 Hundreds of mortgages and deeds are not indexed at all, and
 most difficult to trace up from the records.
We have notations of all these Errors.
 Others cannot find them. We have put hundreds of dollars
 hunting up these errors, and we can fully guarantee our work.

**Malthoid
 Roofing**

We want builders to see us about roofing.
 We want to demonstrate why it is to your
 advantage to roof your building with
 Malthoid Roofing—
 and we will do this to
 your complete satisfaction.

We will show you beyond any question
 that Malthoid is the very
 highest type of roofing perfection and
 made so well that it will last as long
 as the building it covers.
 We will show you that Malthoid is a better
 roofing than shingles—
 is more satisfactory than iron—
 is cheaper than tin—
 in fact, we can prove that there is no
 other roofing known to the building
 trades that is as good—
 as durable—
 as long lasting—
 as water proof—
 as fire resisting and as cheap as
 Malthoid Roofing.

It has got every other brand of
 ready roofing marking time while it is
 progressing—
 there is more of it sold
 on the Pacific Coast than all other
 brands combined and it speaks well for
 the intelligence of builders that this
 is so.

The makers of Malthoid Roofing know
 their business for they have been at
 it for twenty-six years and they not
 only make this roofing to sell but
 they make it to last and to please
 the people who buy it.

They would rather have the good will
 of the builder than his money—and
 they get both by the way they make
 Malthoid Roofing.

If you have roof troubles of any
 kind or of any description—no
 matter what kind of a roof you have
 on your building, see us at once
 and we will help you out of your
 difficulty.

THE MAN AND THE METHOD.

Among many interesting and instruc-
 tive features of the late national hor-
 ticultural congress at Council Bluffs,
 Ia., perhaps none has received greater
 commendation and publicity than the
 apple exhibit of a Mr. Mincer of Ham-
 burg, Ia., a little town located in Fremont,
 the southwest county of the state. It
 seems that Mr. Mincer has for several
 years past had charge of a twenty acre
 orchard, which for some time previous
 had been badly neglected. On taking
 charge he began spraying and gave the
 orchard in other respects the best care
 he could. Last year he attended the hor-
 ticultural show at Council Bluffs and
 exhibited a few apples, but they were not
 up to the standard of the western fruit.
 However, he kept his eyes open, took
 notes and pumped the western ranch-
 men as to just how they produced their
 fine fruit. He found that it was by
 giving intensive, painstaking care to a
 few acres which made improved
 methods possible. He acted on this
 suggestion and devoted most of his
 attention last season to seven acres.
 When he appeared at the fruit show
 last November he had an exhibit which
 was considered by both visitors and
 judges to be one of the very finest in
 the hall. He had gained size and color,
 while in the packing of his exhib-
 it he had been assisted by a young
 lady who had had experience in Idaho
 packing houses. The net result of his
 efforts was that he was awarded a
 number of the most valuable prizes
 and trophies which were put up. On
 the business side he not only received
 a high price for the choice apples left
 after his show stock was selected, but

was offered \$3 a box straight for his
 exhibit fruit. This instance not only
 points to the immense educational val-
 ue of these national fruit exhibits in
 providing a stimulus for better efforts,
 but shows what is even more impor-
 tant—that after all is said and done
 it is more the man and his method
 than it is climate and soil that are
 the chief determining factors in the
 attainment of success in the fruit busi-
 ness. This man's achievement should
 be a source of encouragement to fruit
 growers in all sections.

FAMILY AND MARKET ORCHARDS

For the apple orchard which is to
 produce fruit for family use only it
 does very well to set several varieties
 which will answer the several pur-
 poses for which the fruit is used and
 will cover as long a season of con-
 sumption as possible. But if the ap-
 ples are to be grown for the market it
 is by all means best to restrict the
 varieties set to one or two kinds
 which are known to be prolific and
 hardy and will fetch a good price at
 the season when one must market
 them. A buyer would always prefer
 to handle a carload of fruit of uniform
 quality and one variety than a con-
 glomerate, mixed up assortment, even
 if the several varieties ripened at the
 same time, which is rarely the case.
 We are well aware of the fact that if
 left to himself many a nurseryman
 will load his patrons up with just as
 many varieties—good, bad and indiffer-
 ent—as he will take, but he ignores
 the conditions which make the largest
 success possible when he does so.

Cows' Milk For Foals.

Cows' milk is often used with advan-
 tage in feeding foals, says Orange Judd
 Farmer. Foals suffering from distem-
 per cannot always take solid food sat-
 isfactorily and may be nurtured on
 cows' milk. The foal may be taught
 to drink by pouring it upon the grain
 feed. The young thing eats the moist-
 ened feed, and by tipping the pail it
 soon learns to drink the separated milk.
