

## The Biggest Retail Business in This County Could Be Created By Advertising Exclusively in The Lake County Examiner

No Business of any moment could be built up in this County WITHOUT THE PATRONAGE OF THE READERS OF THE LAKE COUNTY EXAMINER.

ANY BUSINESS which persistently seeks and secures, the patronage of THE READERS OF THIS NEWSPAPER can be made BIG ENOUGH TO SATISFY ANY BUSINESS AMBITION.

If there is any wisdom in CONCENTRATION, then there is wisdom in a one-newspaper campaign of publicity. Such a campaign is AIMED AT SOMETHING DEFINITE--it has direction, objective. There are no wasted expenditures--no experiments, no advertising to prove your "friendliness" to some cause, or faction, or interest.

The patronage of this newspaper's readers can "make" any store--any enterprise--in this county. THE LACK OF IT CAN QUICKLY UNMAKE ANY STORE OR ENTERPRISE IN THE COUNTY.

And, more and more, this newspaper's readers are coming into the self-interest habit and practice of buying things that are advertised in this newspaper. For they are realizing--more of them every day--that the firms that advertise in this newspaper are rendering them a REAL SERVICE. And they APPRECIATE it.

**A YIELD OF 67 BUSHELS OF WHEAT PER ACRE**  
at the Nebraska Station at North Platte, Nebraska, is causing everybody that hears of it to TURN AROUND and ask HOW? A 50-bushel yield is not unusual, and there is no reason in the world why you cannot learn HOW. Practically all these bumper crops have been produced with only a few inches of rain during the growing season, so you will never "hear a drouth" when you know HOW.  
U. S. Government, Department of Commerce and Labor Bulletin, Dec. 11, 1909, says: "Campbell's epoch making efforts in behalf of dry farming in connection with the introduction of Durum wheat, promise to turn the semi arid regions, covering millions of square miles, into one of the most prosperous sections in the world."  
Mr. Campbell operates a line of Demonstration Farms from Texas to Canada and publishes his methods and results in the Scientific Farmer. Watch 1910!  
No matter where you farm--in Virginia, Minnesota, Texas, Washington or Alder, with irrigation or without, you cannot afford to live without knowing HOW. The vital principles are clearly explained and followed in CAMPBELL'S SCIENTIFIC FARMER (the only publication on tillage). A monthly, \$1.00 a year. Clubbed with our paper at the single price of our paper, even on renewals.
