Lakeview, Oregon, Thursday, December 1, 1910

## THOMPSON FOR SPEAKER

The Examiner is firm in the belief that Lake county has a good opportunity to secure the speakership in the next Legislative Assembly, of Oregon. Lake county is the heart of Southeastern Oregon and is second to no county in the state in resources. In area Southeastern Oregon is about one third of the whole state, and in resources offers greater opportunities for the investment of capital than any other part of Oregon.

It is therefore meet and proper that she should be accorded the honor of the election of her representative to the speakership of the House of Representatives.

At the coming session of the Legislature Lake county will have a representative in the lower house, who is in every way qualified to perform the duties of Speaker, in the person of Hon. W. Lair Thompson. He is a successful lawyer, a man of absolute honesty and integrity, and has much experience in the workings of the Oregon Legislature. Because of this experience, because of his natural qualifications for the office and because Lake County should be recognized in the matter Hon. W. Lair Thompson should be Speaker of the House.

Wednesday morning Dr. Hawley H. Crippen paid the penalty for the murder of his wife when he was hung in the court yard of Pentonville jail. He met his end bravely, and did not falter nor break down. He declined the breakfast that was offered him and when the time came for the execution he mounted the gallows and stood firmly while the cap was being adjusted. He had nothing to say about his execution and the trap was sprung promptly at 9 o'clock. The corpse was at once buried beneath the limestone under the flag stone of the prison grounds.

For the fiscal year ended June 30 last the U. S. Department of Agriculture announces that the 25 per cent of National Forests revenue which will go to the States for roads and school purposes amounted to \$506,191.84. This was \$7,642.03 more than last year, or an increase of a little over 15 per cent. The payments are an offset to the loss of income from taxable property sustained through withdrawals of the forest land from entry under the public land laws. Oregon's share is \$339,635.87, an increase of nearly 50 per cent over the previous year.

Elated over their success in the recent elections, success that exceeded their fondest hopes Democratic leaders are now figuring on capturing the United States Senate two years hence. Five seats and probably four now filled by republicans will give them a majority provided they hold what they now have. And a survey of the field indicates that the Democrats may attain their end especially if there be no reversal of sentiment in the next two years. Thirty-one Senators are to be elected two years hence; that is to say the term of 31 senators will expire on March 4 1913. Of this number 19 are republicans and 12 are democrats.

The San Francisco district court of appeals of the first district has sustained the conviction of Abraham Ruef, former political boss of that city, charged with having bribed supervisors, and denied him a new trial. The decision is contained in 46 pages written by presiding Judge Cooper, and affirms the lower court on all points. Ruef had been sentenced to 14 years imprisonment and was at liberty on bail pending action on his appeal. Ruef's attorneys will be allowed 40 days in which to prepare an appeal to the state supreme court.

Brazil had a short lived rebellion last week which was brought to an end by the government allowing amnesty to the mutineers and granting all their requests. The immediate effect is to give the sailors increased pay, shorter hour of service, and less work through the recruiting of addition to the crews, and to abolish corporal punishment in the fleet.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by all good dealers.

## DOINGS IN THE NORTH END

### (Silver Lake Leader)

The first fifteen days of this month 1656 meals were eaten at the Hotel Chrisman. There is no place in Oregon the size of Silver Lake that is its equal for a hotel town.

Thanksgiving morn there was five inches of snow on the ground and still coming down as we go to press.

Chas. Butch and wife returned home from Roseburg last Friday. They report a fine trip and splendid time.

W. D. Robinett and wife were up from Summer Lake Saturday and Sunday visiting with Mr. and Mrs. Kigher.

Every body will be more than pleased to learn that the barber shop is again open with Mr. Balett as the tonorial artist.

L. P. Hale and wife, and L. P. Kippel and wife were up from Summer Lake and spent Thursday night as guests of the Hotel Chrisman.

Floyd Lane, Guy Martin and Bert Wardwell left for Portland several days ago where they intend to spend the winter attending business college.

Work has again begun on the Anna river project, and it is expected that by the first of April the dam will be put in the river and the water turned into the ditches.

### Valley Falls Items

At this writing Friday we have about seven inches of snow and still coming.

U. S. Post Office inspector Whitney paid our office an official visit the past week.

P. M. Meyer spent Thanksgiving in Lakeview.

Sheep are on the move for the desert. Among the bands in the neighborhood are Sanders, Chandler, Kimsey, Moss and Meyers.

Vanderpool of Wagontire stopped over Thursday.

New arrivals in the valley are two sons of Mr. and Mrs. Curtis of this place.

Messrs Utley and Simmons returned from a trip in the mountains recently.

## THINGS WORTH KNOWING

A piece of clean wood in the drinking water of the best of poultry every three or four days will serve as a preventive of lung and throat diseases.

There are a good many pretty unprofitable investments but about the most no account thing is a good for nothing egg. It has no excuse for being on the ground.

Preliminary surveys are being made for an irrigation project in the Big Bend district in the state of Washington which, when completed, will water 500,000 acres of very rich land. The system will require several years to complete and will cost many millions of dollars.

One should never buy from unknown parties so far away from home that he cannot reach them with a club in way of recourse in case the stuff he gets is not satisfactory. Many who bite on the low price bait forget this fact sometimes and can only grind their teeth when disappointed.

Nebraska is going through the usual change from a grain raising to a stock and dairy state, as shown by her output last year of 30,000,000 pounds of butter. This is not a large output of butter as compared with some other states, but it is a very creditable showing and indicates a move in the right direction.

The hired man employed on the place should not only be able to do the work assigned him creditably, but should be clean of mind and mouth if he is not to be a source of contamination to the young folks in the home, who are really of much more importance than any of the fine stock raised on the premises.

We know of more than one instance where the man of the house has been too poor to subscribe for a journal for his wife costing 2 cents a week when he does not bat an eyelid at handing from \$1 to \$2 a week over the counter for chewing and smoking tobacco. This is a mighty one sided proposition, if there ever was one.

Many folks reach middle life or past without seeming to realize the very

simple fact that the laying by or a sum for a rainy day or for future business operations depends on having receipts exceed expenditures by a modest margin each year. Circumstances may arise which make it impossible to carry out such a plan un-terruptedly, but it will prove helpful if such a purpose is kept always in mind.

It need hardly be said that the orchards in the favored valleys of the west, which have been known to yield a net revenue of as high as \$1,500 per acre in a single season, are not also used as hog lots and calf pastures. While one hears of dual purpose cows and dual purpose hens, there is no such thing in the famous apple sections referred to as a dual purpose fruit ranch. It is to this fact largely that the success achieved is due.

In addition to agricultural resources which are shown in the production of 90,000,000 bushels of wheat in 1909, the state of North Dakota is rated by those who have investigated the matter to contain 31,240 square miles of lignite coal, a carboniferous deposit that is geologically about halfway in process of formation between peat and soft coal. This enormous deposit of fuel, which is bound to prove a potent factor in the industrial development of the state, is worth 90 cents a ton at the mine and is put in the bin of the consumer at \$2.75 per ton.

When a home seeker has not positive knowledge beforehand of the character of the soil in the new country in which he plans to locate he will do well to postpone closing any deal on a piece of land until such time as he can bore down from four to six feet and find out what lies beneath. Not infrequently have land purchases been made in winter when the ground was frozen hard and covered with snow, which on the coming of warmer weather developed into bogs or stretches of sand and hardpan. Caution in this respect will often avert costly as well as bitter experience.

There is no factor vitally affecting the perpetuity of America as a nation that begins to compare in importance with that having to do with conserving the home life of the nation—through checking the pestilence of divorce, purifying and remodeling the home and changing it from the roasting place it so often is to an altar where the fires of home life and love burn with a pure and steady light. We need to develop the conservation policy with reference to the husbanding of our material resources as a nation, but even more are we in need of the beneficent influence of better homes.

The heavy snows and severe weather quite prevalent throughout the northern states and keeping stock from the usual range in stalk fields and meadows are calling attention very forcibly to some method of utilizing the stalk roughage of the farm in such way as will put the handling of it beyond interruption by deep snows or other unfavorable weather conditions. The method that will do this more satisfactorily than any other is the silo. The installation of which on a farm will double the feeding value of every acre of corn. As land prices advance and soil fertility becomes depleted the silo will be viewed as a necessity on every farm in the corn belt where feeding operations are carried on to an extent worth mentioning.

Putting Him Wise.

Young Doctor—Just think, six of my patients recovered this week!  
Old Doctor—It's your own fault, my dear boy. You spend too much time at the club.

Out of Court.  
"Good morning," said the lawyer as the lady entered his office. "I suppose you want to know how your divorce suit is getting along?"

"No; I want to call it off," responded the visitor. "I couldn't use a divorce just now."

"But you have such a clear case!"  
"No matter. Nothing doing. The man I had intended to marry failed to get his divorce and the woman my husband wants to marry has just got hers. I don't propose to be left in the air. See?"

Thus the court was saved the trouble of impounding more testimony.—Philadelphia Ledger.

If you are suffering from biliousness, constipation, indigestion, chronic headache, invest one cent in a postal card, send to Chamberlain's Medicine Company, Des Moines, Iowa, with your name and address plainly on the back and they will send you a free sample of Chamberlain's Stomach and Liver Tablets, sold by all good dealers.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This liniment is the best and most remarkable preparation in use. Sold by all good dealers.

## An Enjoyable Dance

The Thanksgiving dance at the Opera House on Thursday night was a very nice affair and was much enjoyed by all in attendance. About one hundred couples participated in the dancing, while the additional spectators brought the total number to close to three hundred. The music was extra good and Mr. Dunbar is to be congratulated on his choice of pieces. Many visitors were in attendance from New Pine Creek and Davis Creek, and all expressed themselves as well pleased with the treatment received here.

## Notice to Stockmen

Notice to whom it may concern: At a meeting held at Paisley by M. T. McKeelzie and numerous attendees by local stockmen the undersigned was appointed secretary to notify the cattle and horse owners who use the Summer Lake, Sprague river, Slean, and Little Chewaucan cattle and horse range on the Fremont National Forest that a meeting will be held at Paisley Dec. 5, 1910, at 10 A. M. for the purpose of organizing a livestock association. All cattle and horse men please take notice.

H. A. BRATTAIN, Secretary.

## NOTICE OF FINAL ACCOUNT

Notice is hereby given that the undersigned, Thos. H. Sherlock, executor of the last will and testament of C. L. Mitchell-Innes, deceased, has filed in the County Court in the County of Lake, State of Oregon, his final account of the administration of the affairs of said estate and that said court has fixed Saturday the 31st day of December, 1910, at the hour of 10 o'clock A. M., of said day as the time, and the County Court room in the County Court house in Lakeview, Oregon, as the place for hearing objections to said final account and for settlement thereof. Therefore, all persons interested in said estate or having objections to said final account are required to appear at said time and place or to file the same in said court in writing on or before said date.

Dated this 26th day of November, A. D. 1910.

THOS. H. SHERLOCK,  
Executor of the last will and testament of C. L. Mitchell-Innes, deceased.
