ENGINEERS GIVE ESTIMATE

Plans Submitted by Chief Engineer Oliver Appeared Quite Reasonable

Since it now practically seemed that the railroad terminal in Lakeview will be extended to take Lakeview's needs fully set forth, the engineers gave their estimate, which is the amount of land really necessary for the proposed railroad terminal. The work will be done in a manner to avoid any danger of collapse, and the road will be strengthened so that it can be used by the railroad. The work will be done as soon as possible, and the railroad will be ready for use in a few weeks.

The committee of the Catholic church have a decided interest in the work of the Auto club. Mr. Sullivan has already given a few dollars to the cause, and the council of war has made a few donations.
