For you, if you are at all interested in Automobiles, write for our literature. No matter what machine you may have a preference for, it will pay you to investigate the "BUICK."

We don't claim it's the only good car—there are others—but we do claim that there are more "BUICKS" in Southern Oregon, and that they have given better satisfaction than any other—both as private machines and on regular stage runs.

We extend a cordial invitation to visit our new Garage, one block from the Post Office on the Main Street, Klamath Falls, where our cars are on exhibition.

## NEW POSITIONS IN FOREST SERVICE

**Grazing Examiners Must Be at Least Twenty Years of Age**

Washington, Feb. 13.—A new government position is disclosed by the announcement by the U. S. Civil Service Commission of an examination which is to be held February 23 and 24 to find three grazing examiners for the Forest Service. The positions will pay a salary of \$1,200 a year at entrance.

The announcement specifies that the applicants must be men, at least twenty years old, and possessed of at least one season's experience in handling range stock, together with at least one year of technical training in specified botanical studies.

The establishment of this position is in line with the objects which the Department of Agriculture has always had in view in its management of grazing on the National Forests. It is not merely seeking to prevent cattle and sheep from doing damage to forest growth and watershed conditions, as they graze on the herbage which is yearly produced in the open forests, parks, and high mountain meadows within the National Forests. Range fed stock are a matter of decided importance to the American people in these days of rising prices for food products and diminishing supplies, in proportion to population, of livestock; and therefore Secretary Wilson intends that every acre of National Forest range shall be made to produce as much forage as it is capable of doing, consistently with the carrying out of the other purposes for which the National Forests are maintained.

**LIFE SAVED AT DEATH'S DOOR.**  
"I never felt so near my grave," writes W. R. Patterson, of Wellington, Tex., as when a frightful cough and lung trouble pulled me down to 100 pounds. In spite of doctor's treatment for two years. My father, mother and two sisters died of consumption, and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 187 pounds and have been well and strong for years." Quick, safe, sure, it's the best remedy on earth for coughs, colds, lagrippe, asthma, croup, and all throat and lung troubles. 50c and \$1.00. Trial bottle free. Guaranteed by A. L. Thornton.

**BANKING IN ENGLAND**  
Started by London Goldsmiths in the Seventeenth Century.

The business of banking was not introduced into England until the seventeenth century, when it began to be undertaken by goldsmiths in London, who appear to have borrowed it from Holland. It was attacked, as innovations commonly are. Mr. Gilbert in his "History and Principles of Banking" quotes from a pamphlet published in 1676, entitled "The Mystery of the New Fashioned Goldsmiths or Bankers Discovered," a passage that may be reproduced:  
"Much about the same time—the time of the civil commotion—the goldsmiths (or new fashioned bankers) began to receive the rents of gentlemen's estates remitted to town and to allow them and others who put cash into their hands some interest for it if it remained but a single month in their hands or even a lesser time. There was a great allurement to put money into their hands, which would bear interest till the day they wanted it, and they could also draw it out by £100 or £50, etc., at a time as they wanted it with infinitely less trouble than if they had lent it out on either real or personal security. The consequence was that it quickly brought a great quantity of cash into their hands, so that the chief or greatest of them was now enabled to supply Cromwell with money in advance on the revenues as his occasion required upon great advantages to themselves."

**Slightly Mixed.**  
He wasn't good at conundrums, but when his turn came to ask one at a little social party he thought he could remember a good one he had heard. It was the old riddle:  
"Why is a woman like the ivy?"  
The answer, of course, is the gallant explanation:  
"Because the more you're ruined the closer she sticks."  
But he got it mixed and asked:  
"Why is the ivy like a woman?"  
None of the ladies present could give an appropriate reply, so he himself ventured this malapropos solution:  
"Because the closer it clings the more you're ruined."
