If not paid in advance, \$2.50 the year

## Notice to Subscribers

Subscribers to the Examiner who remove from one locality to another, or change their postoffice address, should remember to drop this office a card so their paper can be addressed to the right postoffice.

Lakeview, Oregon, Thursday, February 23, 1911

It is now believed that President Taft will call a special session of Congress in order to get action on the Canadian reciprocity bill.

President Taft has the acceptance of John Hays Hammond, whom he appointed special ambassador to the coronation of King George of England. The last special ambassador to Great Britain was Theodore Roosevelt, who attended the funeral of King Edward VII.

Somehow or other States having big Democratic majorities do not seem to be hankering after the so-called Oregon system. Perhaps their turn will come later on, providing the Democratic party becomes powerful enough to permit of a minority swinging the donkey by the tail.

There are 14,618,761 Roman Catholics in the United States, according to the 1911 Wiltzian official Catholic directory, which is now in press. The figure given does not include Catholics in the Philippines, Porto Rico or Hawaiian Islands, for if these were added the number of Roman Catholics under the Stars and Stripes would be nearly 23,000,000.

Governor West is being urged to appoint C. F. Stone, a leading attorney of Klamath Falls, a member of the Oregon State Fish and Game Commission. Mr. Stone is an ardent sportsman and well qualified for the position, and his appointment would be a well merited recognition of this part of the state. The Examiner heartily endorses Mr. Stone for the position.

There will be no legislation at this session of congress providing for the opening of the Klamath Indian reservation to settlement, as Secretary Ballinger has made an adverse report, holding that the reservation can better be opened under the existing general law. Mr. Ballinger reports that there are no agricultural lands on the Klamath reservation, other than those heretofore allotted, hence an opening of the usual kind would serve no purpose. He believes it advisable to hold the timber lands for the Indians, sell the mature timber now standing and apply the receipts to irrigation and drainage of allotted lands. When this is done, he advises that allottees sell all but 40 acres of their claims to the white settlers, in this way opening a major portion of the agricultural lands to settlement. This will require no further legislation by congress, and it is expected this plan will be pushed.

The railroads are planning to give Oregon a lot of new citizens this spring. Preparations are being made by the Harriman and Hill lines to dump just about twice as many homeseekers into this state as they did last spring. Commercial organizations of Portland and Oregon are making ready to welcome more than 20,000 colonists and homeseekers during the colonist-rate period from March 15 to April 15. Conservative estimates of the number of homeseekers that came into Oregon last spring were 15,000. E. C. Giltner, secretary of the Portland Chamber of Commerce, and W. L. Crissey, chief of the inquiry bureau of the Portland Commercial club, say they believed at least twice as many people looking for homes in Oregon than came in last year, would swarm in this spring.

Representative Hawley has informed President Taft that he could not vote for the pending bill to ratify the Canadian reciprocity agreement. The president sent for Hawley to learn his attitude on the measure. Hawley told the president that, if the agreement had been broadened and had included all the schedules of the Payne-Aldrich law, he probably could have seen his way clear to support it, but, as he understands the agreement, it will prove of slight benefit to Oregon and other western and northern states, though of vast benefit to Canada. He regards this agreement as discriminatory against the far west and particularly against several of the leading industries of Oregon and believes his constituents hold a like view, therefore he will oppose it. The president said he was sorry Hawley could not see his way clear to support the pending bill, but made no attempt whatever to coerce him into changing his attitude. In fact, he frankly said that, if Hawley felt

his people were against the agreement he could not expect him to vote for it.

## O. A. C. LECTURES OF GREAT VALUE

### Farmers, Dairymen and Orchardists Receive Much Benefit

Oregon Agricultural College, Corvallis, Ore., Feb. 17.—The immense enrollment at the Farmers' Week at O. A. C. has taxed the capacity of the class rooms, auditors at some of the lectures being forced to stand outside the doors because of the crowd.

The immense practical value of these lectures is responsible in part for the popular interest in them. For orchardmen there was specific instruction on choosing, maintenance and care of orchards, handling the fruit crop, growing cane fruits, prevention and cure of disease and insect pests, top working an old orchard and budding and grafting in a young one, and apple packing. Special aid was given those from the arid regions who wished to grow fruits, for these interested in grape culture in Oregon, and those having strawberry beds to care for.

Dairymen and farmers having stock to care for were shown how to solve their problems, from the daily care of the family cow and the judging of beef cattle to the construction of dairy barns and hog houses, veterinary science, the care of horses, tests for tuberculosis, choice of pasture and the care and judging of sheep.

Much valuable assistance was given those interested in truck gardens, grain crops, and the improvement of the soil of their farms. The domestic science department also offered a large number of eminently practical and helpful lecture courses on the solution of some problems, including plain and fancy sewing and dressmaking, millinery, cooking and sewing meals and light refreshments, furnishing and decorating the home, laundering, the care of children, exterminating insects and sanitation.

On Wednesday morning, at 11 o'clock, a pretty wedding ceremony took place at Adel, which united in marriage Miss Melissa Cooper and Carl Caldwell, both well known young people of that place. John Morris, Justice of the Peace from Plush, officiated. Both Mr. and Mrs. Caldwell have many friends here, who wish them the best of success and happiness.

Word has been received from Bill Hammersley, the Government hunter, to the effect that he has reported for duty to Supervisor Harris, of the Willowa Forest, and would start for the front in several days in quest of the poison infected coyotes of that region. We have no doubt about Bill making good in his new place, and his many friends here wish him much success.

On Saturday evening a very pleasant party was given at the home of Mr. and Mrs. John Metzger, of Water street, in honor of their daughter, Shirley. Among those present were Marie Rehar, Laura Wright, Ethel Eccleston, Lloyd Henderson, Clarence Green, William Harvey, Harold Churston and Mervin Vernon. Lunch was served to the guests and games were played until a late hour.

Yesterday was probably the best day, so far as weather conditions are concerned, for the rabbit drive. Probably two hundred people turned out for the occasion, and as a result of the day's work about four hundred and fifty rabbits were killed. The West Side rabbit colony must be getting smaller as a result of the recent drives, which is a source of satisfaction to the trappers of that vicinity.

The ladies of the Catholic church, who during the past week have been soliciting articles for the fair to be given by them during the coming Spring or Summer, report much success everywhere, and appreciate the kindness which has been shown them by practically everyone visited. The ladies would very much like to receive by the first of April all non-perishable articles which have been promised them.

The agency at Klamath Falls was ended Monday night when the Council granted liquor licenses to the Livermore Hotel, E. H. DuFault, Kent Ballard, Tony Castel and Z. J. Powell. The licenses just issued will not go into effect until the first day of March. In all there were fourteen applications filed with the city council for permits to sell liquors. The unsuccessful applicants are E. R. Reams, Ballis & Reed, J. V. Houston, R. E. Hunsaker, Stahlman Brothers, Campbell & Low, G. T. Shaw and W. Baldwin.

Jack McAuliffe on Saturday last purchased a very fine shepherd dog from one of the Berner Construction Company employes. The dog is a very large one and is certainly a dandy.

Word has been received from Dave McAuliffe, who is now feeding his sheep hay in the vicinity of Bly, to the effect that the weather in that section was rather cold just now, but as yet there had been no loss of sheep.

The assessment rolls are as yet not complete, many O. V. L. contracts having been omitted therefrom. Sheriff Snyder will make the assessments as rapidly as possible and when this

is done the owners will be promptly notified.

Jim Graves, who has been visiting in Portland for the past six weeks, on Sunday returned to Lakeview and is renewing old acquaintances here. Jim reports an extra fine time while absent and met many Lakeview people in his travels.

A buzzard was seen on Wednesday by several rabbit hunters in the vicinity of the Hammersley ranch. Weather prophets state that this is a sure sign that the cold snap will break up soon, and we all hope that their prophecy will come true.

Mrs. Farnum Harris, accompanied by her daughter Virgie, on Sunday returned after a several weeks' visit to Berkeley. While below, Miss Virgie was treated at a San Francisco hospital for a growth on her neck, and came back much improved and in the best of spirits.

H. M. Cannon a few days since returned from his trip through Nevada and California. An account of his trip during the storm near Gerlach appeared in the Examiner some time since. Mr. Cannon states that it was a terrible experience and he is thankful to have lived to tell the tale.

Robert J. Muck, familiarly known in Lakeview as "Shorty," died at Alturas last week, aged about 48 years. He was a well known character here about two years ago, during the past year or so having resided at Plush. He had many friends in this section who greatly deplore his death.

Jack Partin, a well known stockman of Summer Lake, was a visitor in town on Sunday and while here delighted a large audience in the vicinity of the Mammoth Stables with some of his backslapping stunts. He was aided in conquering one of the bronchos by Al Stone, who showed that he had some experience in this line of business before.

Oil paintings of Frank W. Benson and of Jay Bowerman, recent governor and acting governor, are to be hung on the capitol walls for the benefit of future generations. The senate passed a house concurrent resolution calling for Benson and Bowerman to be done in oil, six votes being cast in the negative. Bowerman himself was one of those voting no.

On Wednesday morning, at 11 o'clock, a pretty wedding ceremony took place at Adel, which united in marriage Miss Melissa Cooper and Carl Caldwell, both well known young people of that place. John Morris, Justice of the Peace from Plush, officiated. Both Mr. and Mrs. Caldwell have many friends here, who wish them the best of success and happiness.

Word has been received from Bill Hammersley, the Government hunter, to the effect that he has reported for duty to Supervisor Harris, of the Willowa Forest, and would start for the front in several days in quest of the poison infected coyotes of that region. We have no doubt about Bill making good in his new place, and his many friends here wish him much success.

## SUMMER LAKE AT DAWN OF NEW ERA

### Artesian Water Will Cause Great Development

## KLIPPEL, MAN BEHIND GUN

### Efforts of Prominent Rancher Result in Much Benefit to Lake County

A wonderful change promises to take place in the Summer Lake section in the very near future. This will be owing to the fact that L. P. Klippel, a prominent rancher, had enterprise and nerve enough to spend several thousands of dollars in an effort to obtain artesian waters. Readers of the Examiner are aware that success crowned his efforts, and that he now has two flowing wells at different elevations on his ranch. The particular section of country referred to and in which Mr. Klippel resides is perhaps three and a half miles wide and 12 miles long, considerable of which is as yet vacant Government land. For years stockmen have known that it was "earlier" than almost any other section, that is, it was to be had in that particular section earlier in the spring than elsewhere. But owing to a lack of water, the feed did not last long and in the early summer the country presented a barren appearance.

With artesian water this will, as a matter of course, be changed. As an indication of the new era now approaching, more than 1700 acres of land in that immediate vicinity were filed on at the local U. S. land office last Monday. All of the filings were for lands near the lines between townships 29 and 30 in ranges 17 and 18. The parties securing filings were Wm. S. and Ora C. Hale, L. H. Irving and G. J. Harly, of Madras, J. H. Barber, of Seattle, and B. T. Atkins, of Roseburg. All took the land under the desert act.

Summer Lake became famous because of its wonderfully rich farms and fine fruits along the west side of the lake where numerous springs and small streams afford an ample water supply for all purposes. The land now being brought under cultivation is located to the east and north of the lake, and promises to equal in productiveness that on the west side.

Mr. Klippel will endeavor to secure the better class of farmers to locate in his section, and inasmuch as he is one of the leading ranchers and stockmen of the county there is no danger in securing his services to show you the land.

## TOO LATE TO CLASSIFY

FOR SALE—The W 1/2 of Sec. 34, T. 35 S., Range 19 E., W. M., near Lakeview, Or. Call on or address Chas. F. Elgin, City Recorder, Salem, Ore. 2-23-4-8

## ADVERTISED AT LAST

Why are you out of light? Do you consider it is all the plant's fault? If your house is properly wired and you are using the best lamps you can mutually help to lift the load.

THERE was a merchant in our town Who was so wondrous wise He saw his business running down, Yet would not advertise.

SAID he: "I cannot see the sense When trade is at its worst Of multiplying my expense. I'll wait till trade comes first."

AT last this merchant, ill advised, Had naught to do but fail, And then the sheriff advertised A bankrupt auction sale.
