A FIERCE NIGHT ALARM

Is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin of Manchester, O., R. R. No. 2, for their four children were greatly subject to croup. Sometimes in severe attacks," he wrote, "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you. Asthma, Hay Fever, LaGrippe, Whooping Cough, Hemorrhages fly before it. 50c and \$1.00. Trial bottle free Sold by A. L. Thornton.

EXPERT INVESTS IN FRUIT LANDS

Former Resident of Wenatchee Buys In Goose Lake Valley

Viewed in the light of what the future holds for lands in the fruit belt of Goose Lake valley, a sale of very much importance took place this week. The purchaser was no less a person than O. C. McMannus, who for many years has been a resident of the famous Wenatchee apple country and who for three years served as general manager of the Wenatchee Fruit Growers' Association. The sale was made by E. R. Patch, of the Lakeside Orchard Tracts, the property being located near Willow Ranch, Mr. McMannus taking a 10-acre tract at a big price in excess of \$100 per acre.

Mr. McMannus has traveled extensively through the fruit districts, and that he invested in Goose Lake valley lands proves conclusively that he is more than pleased with the conditions here and is confident that there is a great future in store for the lands in the fruit belt of Goose Lake valley.

What the Market Offers in Spring Millinery

Spring Millinery will soon burst into bloom. It gladdens our heart to gaze over the beautiful new creations, so bright with color and the promise of Spring. All kinds and conditions of straws are being employed in the construction of hats. Javes, Tagels, Hamps, Milans, Legborns and Chips. It is above all things a season of oddities, there being the greatest variety of sizes and shapes. Never has there been greater latitude than at present, when almost every size and shape is bidding for favor. There is a tendency in the small collapsible or brimless hats to be rather high in crown and trimming, many of them being made entirely of flowers, and yet the smartest large hats are notably flat.

In regard to trimmings, Indian colorings have usurped everything else, it will be a season of high color effects; Paris still favors Black and White effects; Bright Blue, Blue in fact in all shades, as well as purple, and all the Rose colorings. Corsi in both the brightest and soft shades are used in combination with Blues and Black, Bright Yellows, shading into Old Gold and Sand color or especially good in Blacked Milans, Javes and Lorneghs.

A review of materials offered would be far from complete if Laces were excluded. The popularity of Laces has beyond a doubt come to stay, all sorts of elaborate methods of employing Laces with flowers are being used. We are prepared to demonstrate all the beautiful new creations at our Grand Opening, which date will be announced in the next issue of this paper.

Watch for our announcement.

THE PARISIAN MILLINERY

Main St. West of Court House

Fine Two-Year-Old

G. C. Pratt is the proud possessor of a black Percheron colt that tips the scales at an even 1800 pounds. And he is certainly entitled to be proud of the animal, for he will not be three years old until June 22. The sire of the colt is the Leo Thomas horse, while the dam is a mare that Mr. Pratt has owned for some time and has always produced large-sized colts. Mr. Pratt is having the colt broken to work, and expects to drive him single in a few weeks, inasmuch as he is perfectly gentle and of a sandy disposition.

The city officials have been kept busy during the past week in cleaning out the flames about town preparatory to the rush of water from Bullard's canyon, which is expected almost any day now.

A GOOD POSITION
Can be had by ambitious young men and ladies in the field of "Wireless" or Railroad telegraphy. Since the 8 hour law became effective, and since the Wireless companies are establishing stations through out the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Ore., operates six official institutes in America, under the supervision of R. H. and Wireless officials and places all graduates into positions. It will pay you to write them for full details.
