## CAST THAT NOTE

Relative to the opposition of ex-Speaker Cannon to the Canadian reciprocity treaty, The Oregonian says: "The opposing attitude of Mr. Cannon on the reciprocity measure is thoroughly consistent. The entire career of the Danville statesman has been marked by a religious adherence to the cause of high tariff. It was this attitude of Mr. Cannon and other high priests of the tariff tabernacle that was responsible for the smashing defeat of the Republicans last November. Heedless of the repeated warnings that had been sounded, these stand-patters successfully resisted the attempts of the progressive Republicans to revise the tariff. As a result they will now see revision with a vengeance by a party that would not be in power today had it not been for them. The reciprocity measure may not be perfect, but it is so far ahead of anything that Mr. Cannon and his friends has ever offered that it is very popular.

"And the same line of reasoning is applicable to the situation right here at home, with The Oregonian in the title role. By its continued fight on the 'Oregon System' and Senators Bourne and Chamberlain, which has been aided by a number of the lesser lights of Oregon journalism, the state of Oregon is now practically dominated by her Democratic Governor. In the words of the Oregonian, 'Heedless of repeated warnings that had been sounded,' war was made upon the insurgents or progressive Republicans, with the result that their nominee for Governor went down to defeat. The editor of the Examiner has never found it necessary to use an adjective in defining his party affiliation, not even in the palmy days of the late Senator Mitchell and Joe Simon, and neither does he find it necessary at this time. But he fully realizes the new order of things politically, and fully believes that the Republican party must adjust itself to the new order of things or else suffer defeat.

President Taft has refused to pardon Franklin P. Mays, the former United States district attorney for Portland, Oregon, who was convicted in 1907 on the charge of conspiracy to defraud the government of public lands. Mays will have to serve his four months in prison and pay a fine of \$10,000.

The House Census Committee has reported a bill reapportioning the house to a membership of 433. No state loses a member. Each of the following states gain one: Alabama, Colorado, Florida, Georgia, Idaho, Louisiana, Michigan, Minnesota, Montana, North and South Dakota, Ohio, Oregon, Rhode Island, Utah and West Virginia. California and Oklahoma gain three. Illinois, Massachusetts, New Jersey, Texas and Washington gain two. New York gains six and Pennsylvania four.

President Taft's Canadian reciprocity agreement, which is supported by all but a handful of democrats and opposed by a majority of the republicans, has passed the house of representatives by a vote of 265 to 89, and with nearly 200 democrats in control of the house, their action was endorsed by many republicans. The bill was adopted with no amendment, and in the almost identical form in which it passed the house in the last session. The bill seeks to put into effect the formal agreement reached between President Taft and members of the Canadian cabinet for the reduction of tariff rates on many articles and free trade in many others, across the Canadian border. Added to it by democratic leaders is a section which "authorizes and requests" the president to make further efforts to secure still freer trade relations with Canada in the form of additional reciprocal relations.

Astoria Centennial dates are August 10 to Sept. 9 to celebrate the first settlement of the Northwest by the white man. April 12, 1811, the Tonquin, a trading ship owned by John Jacob Astor, sailed into the mouth of what is now the Columbia river, and proceeded up ten miles to a cove where the crew landed, and established a camp to facilitate trading with the Indians. This camp became known as Astoria. It grew from a trading expedition, sent out from New York by John Jacob Astor. It is to celebrate this event that the Astoria Centennial was projected. The state of Oregon has appropriated \$50,000 to aid in the

expense of this celebration. Clatsop County made a tax levy which raised \$25,000. The merchants of Astoria raised \$50,000 more. Colonel John Jacob Astor of New York donated \$10,000, and other private contributions bring the available funds up to \$150,000 at this time.

# LABOR LEADERS UNDER ARREST

## Implicated in Los Angeles Times Dynamiting Case

Indianapolis, Ind., April 22. After months of investigation, directed by William J. Burns, a private detective, John J. McNamara, international secretary of the Bridge and Structural Iron Workers of America, the headquarters of which are in Indianapolis, was arrested here today charged with complicity in the dynamiting of the Los Angeles Times building October 1, 1910, and the plant of the Llewellyn Iron Works at Los Angeles.

Four hours after McNamara was arrested detectives found two quarts of nitroglycerine and seventeen sticks of dynamite in a barn three-quarters of a mile west of Indianapolis. The barn, the detectives say, was rented by McNamara from T. H. Jones, the owner.

It was after the most serious explosions that which wrecked the Los Angeles Times building, costing the lives of twenty-one persons, that the indictments were returned on which were arrested J. J. McNamara and in Detroit, J. Bryce, alleged to be James McNamara, brother of J. J. McNamara and Ortie E. Mangile.

Requisition papers from the governor of California having been signed by Governor Marshall before the arrest, McNamara was taken to police headquarters by detectives, where he was immediately arranged before Judge Collins in police court.

The requisition was granted and 20 minutes after McNamara had been arrested in the association headquarters in the American Central Life building, where a meeting of the executive board was adjourned, he was taken from the city by four detectives in an automobile. Their destination was not known. It is supposed it was the plan of the officers to get McNamara out of the state before his friends had a chance to fight the requisition.

Chicago, April 23. Captain Stephen Wood, chief of the Chicago detective bureau, said tonight that a full confession had been obtained from one of the men arrested in Detroit, in connection with the dynamiting of the Los Angeles Times building.

According to Captain Wood, it describes in detail the dynamiting of buildings, railroad trains and factories where conflicts between union and non-union labor existed. The loss of many lives and the destruction of property valued at almost \$2,000,000 is said to be detailed.

## A GOOD POSITION

Can be had by ambitious young men and ladies in the field of "Wireless" or Railroad telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute of Portland, Ore., operates six official institutes in America, under the supervision of R. K. and Wireless officials and places all graduates into positions. It will pay you to write them for full details.
