statements, and added:

"In all my experience I have never seen a country awaken from its lethargy as has Northeastern California and Southern Oregon, as a direct result of railroad extension. The country possesses wonderful agricultural possibilities, which when fully developed, will furnish a greatly increased tonnage for our line. The people are now alive to this condition; they are enthusiastic as to future, and are cordially co-operating with us in everything that tends to upbuild the country. There will be approximately 40,000 additional acres planted in grain in the Goose Lake Valley as the result of the installation of an immense irrigation system north of Lakeview. There are hundreds of acres of apple trees being planted together with berries and small fruits. In Goose Lake Valley there are 50,000 acres of apple and fruit land susceptible of the highest development. There is as much more in Surprise Valley, and at no distant date there should be an output of forty or fifty thousand carloads of apples from this section, to say nothing of canteloupes, melons and vegetables the country will produce.

"To care for this extra tonnage, we placed orders for one hundred additional freight cars, and have also ordered refrigerator cars to properly handle the fruit, berries, melons and dairy products. This latter will be no small item in itself, for there is every natural advantage for successful dairying, such as good grass and feed, grain, pure water and plenty of outside range.

"That the possibilities of this country are being realized is evidenced by the number of people looking for locations. We have been spending thousands of dollars in our immigration and publicity work, and the results are most gratifying, notwithstanding the fact that the campaign was inaugurated just at the seeding season in the middle west. Last week seven homestead locations were filed on the Madeline plains east of Ravendale, and eleven the week before. Word reaches us that there are over one hundred people from one section alone going north to secure homesteads as soon as they can leave their planting.

"The trip to the north has definitely settled our plans to push construction as rapidly as possible. By July 15 service will be inaugurated to Davis Creek, twenty-five miles north of Alturas, where a good town will be built. This town will have immediately surrounding it from fifty to sixty thousand acres of fine fruit, grain and grass land, and sufficient hill range to supply pasturage for the farmer's stock. Harming accident, we should be in Lakeview by November 1. At Lakeview we have secured terminal facilities, consisting of right-of-way, depot grounds

and a tract for stock yards, valued at approximately \$100,000. Construction work on terminals will proceed apace with the building of the line.

"Lakeview is destined to become an important commercial center for Northern California and Southern and Central Oregon. There exists a splendid spirit of co-operation, push and energy that is refreshing and inspiring. A newcomer is made welcome and cannot help but absorb the enthusiasm that is prevalent and not only feels like staying but taking off his coat and getting to work at once.

"I may add that our new equipment will be turned out of our own shops right here in Reno, and the benefits to be derived by the city are not insignificant."

Additional Benefits

Plenty of hay and grain at South Lakeview Feed Yard. W. G. Fuller.

The wood season has opened up, and \$7.50 per cord appears to be the ruling price.

Dan Jones, the well known sheepman, yesterday came in from the Dog Lake country for supplies.

J. C. Shellhammer, the Crooked Creek rancher and stockman, was in on business during the week.

Mrs. Florence Payne was one of the many Silver Lake people who visited with us during the past few days.

Mrs. W. Z. Moss and Mrs. Eph Miller, a few days since returned from California where they spent the winter.

The matter of the incorporation of Chewaucan is still under consideration, and final action is likely to be again postponed.

Among the witnesses here from Klamath are Mrs. S. S. Henley, J. T. Henley, F. P. Van Meter and Leo S. Robinson.

Gus Schroder, who is well known hereabouts, was among the Silver Lake delegation who put in an appearance here during the week.

M. A. Finney, of Medford, Frank Galbrut, of Olean and N. J. Chapman of Klamath Falls, yesterday registered at the Hotel Lakeview.

Mrs. H. Bailey, niece of Mr. and Mrs. E. J. Stone, who has been visiting in Lakeview for several weeks, Monday morning left for Salt Lake City.

Many amusing incidents are scheduled to occur at the new N.-C.-O. depot tomorrow evening. For further particulars see the advertising columns.

District Attorney Kuykendall and Guy Merrill reached Lakeview yesterday noon from Klamath. They came over by auto and had more than their usual amount of trouble, delaying them about 18 hours.

J. Frank Adams, a leading citizen of Klamath county, is here as a witness in the Carroll case. Mr. Adams is well known as a successful stockman and rancher, and is noted for enterprising spirit when it comes to doing things.

J. W. Nixon has purchased the Mud

FINE STALLIONS NOW IN LAKEVIEW

J. Frank Adams Shows Fine Horses Raised By Himself

J. Frank Adams, of Merrill, has for years been engaged in the raising of fine horses, and to show the people of Lake just what may be had in that line almost at our very door he has brought to Lakeview four stallions that will stand comparison in any class. There are three full blood Percherons, two grays and one bay, and one bay Belgian and Percheron. All are handsome animals, and while not in good condition, they will weigh from 1800 to 2000 pounds each.

All of the stallions are farm-raised and have never been pushed or cared for in a way to bring fancy prices. They are of very kindly dispositions, are used in general farm work on the ranch and can be turned out with a herd without fear of injury either to themselves or the rest of the herd.

Mr. Adams has sold a number of stallions, among the recent purchasers being the Edson-Foulke Company, of Gazelle, Cal., and Kilgore Bros., of Klamath. The horses were brought here at this time not so much for sale but to show the people just what can be had in the way of draught horses right at home. While the breeding of the animals is all that could be desired, yet no fancy prices are asked, and Mr. Adams is anxious to have every one call and take a look at the horses, regardless of whether or not they desire to purchase.

The horses will be at the Mammoth Stables for a week, where they are in charge of courteous attendants who take pleasure in showing them.

Creek station, and will take charge next week. He will not only be prepared to take care of the travel but conduct it as a summer resort where one can thoroughly enjoy a vacation.

Memorial Day is to be observed in Lakeview this year, and a meeting will be held at the M. E. Church, Saturday afternoon at 2 o'clock to make arrangements for the same. A general invitation is extended, and all G. A. R. men and Spanish War Veterans are especially requested to be present.

Mr. and Mrs. C. D. Arthur arrived home Monday from San Francisco, where they spent the winter. Mrs. Arthur has almost entirely recovered from her recent severe illness and is now enjoying excellent health. They received a warm greeting from their many friends on their return.

A very nice tobacco and cigar case has been installed at the Post Office store and is attracting quite a little attention. It has an attachment at the rear of the case which will allow the clerk to draw back the front glass lid, thus giving the customer an opportunity to select and pick out any cigar he wishes.

Owing to the entertainment to be given tomorrow evening at the Opera House by the Methodist Ladies' Aid Society, the Good Times Club will not hold their regular dance. On the night of May 19th, however, a joint dance will be given at the Civic Improvement Hall by the Good Times and Keemo Clubs combined, and a good time is assured all who attend.

The Lassen Mail is in receipt of information from a well known attorney in San Francisco and who has large interests in Lassen county that there is no doubt but that construction work will be commenced very shortly on the Fernley-Lassen railroad. He stated that he had a conversation with Geo. F. Richardson, master of transporta-

LITTLE DOING IN ANY WOOL MARKET

Buyers and Sellers Unable To Get Together On Prices

Portland, May 1.—The new clip wool is beginning to move in the West but in a very slow way. There has been but very little trading yet in Oregon, but in other Western states, a few million pounds have been taken by the Eastern buyers. There is no snap to the market, because of the low prices current, and in this state, neither the buyers nor the sellers seem anxious to take hold.

The following is a revised list of the dates fixed for the sealed bid sales in Eastern Oregon this year:

Pendleton, May 23 and June 9.
Pilot Rock, May 26 and June 10.
Echo, May 23.
Heppner, June 1 and June 22.
Shanico, June 6 and June 27.
Madras, June 24 and July 14.
Vale, June 13.
Ontario, June 14.
Baker City, June 16.
Enterprise and Wallowa County, June 30 and July 11.

A feature of the new market this year will be the new routing of shipments to the East. A considerable portion of the Oregon clip will go by water. Already, about 80,000 pounds of early shorn Eastern Washington wool have been forwarded to Boston by the water route.

It is reported that about 3,000,000 lbs. of new wool have already been contracted in Utah and perhaps as much in Nevada, ranging all the way from 11 to 14 cents, although the bulk of the wool taken has been at about 13 cents. Estimates as to what this wool would cost landed in Boston vary, ranging from 46 to 50 cents for the Nevada wools and 43 to 46 cents for the Utah wools. California wools are in many cases being consigned, shearing having been pretty well finished in the Southern section of the state. Parts of Wyoming are now shearing. In Texas, shearing began the first of this month.

coverage of the Southern Pacific system, who informed him that the road was an assured fact and that the order for construction work could be looked for shortly.

Bieber Gazette: Three gentlemen, supposed to be timber land buyers, were in Bieber yesterday for a few minutes, in an automobile. They made arrangements with D. Anderson, proprietor of the Gem livery stable, for the hire of a team and wagon for thirty days, to be used in looking over the railroad survey made through this valley last year. The three land buyers—or whoever they might be, went on south, but will be back this week. Some significance is attached to their visit here which will probably materialize in a short time.

Chautauqua Circle

The Chautauqua Reading Circle will meet with Miss Hazel Horn, Monday evening, May 1.

Program:—
Roll Call, Current events.
"Emotions and their Education"—Oppenheim, Mrs. Seager.
"Reasoning, the Guide"—Oppenheim, Miss Snelling.
English Cathedral, "York"—The Chautauquan, Miss Mabel Snelling.

Never hesitate about giving Chamberlain's Cough Remedy to children. It contains no opium or other narcotics and can be given with implicit confidence. As a quick cure for coughs and colds to which the children are susceptible, it is unsurpassed. Sold by all good dealers.

MILLINERY! MILLINERY! MILLINERY!

Prove to yourself that we place better millinery values with you than any other house. In our hats are style, quiet elegance, individuality and simplicity. The workmanship is the best. Compare the quality of our hats with others. We have a large line now ready for your inspection. Good, practical hats that will merit your attention. Our business is our pleasure—so keep us busy.
