Commencing Sunday next, Klamath Falls is to have two daily passenger trains between that place and Weed. The new train will leave Klamath Falls at 5:30 p. m., permitting passengers to reach San Francisco at noon the following day. Returning trains will reach Klamath Falls about noon.

S. C. Graves, formerly of the Examiner but now a well known business man of Klamath Falls, frequently reminds his many friends here by means of postal cards that he still has a warm feeling for Lakeview. The last to be received were "Circus day in Klamath Falls," showing the parade, elephants, zebras, etc.

Mr. and Mrs. Lee Beall this week left for Cental Point, having been called by the sad death of the former's brother, Ben. Mr. Beall had planned a business trip to his old home at the time, and the announcement of his brother's death was therefore much of a shock to him. Both he and his family have the sympathy of all in their sad affliction.

A. L. Thornton Monday morning left for Roseburg in response to telegram announcing the serious illness of his mother. She spent several weeks in Lakeview last summer and during her

stay made many friends, all of whom sincerely hope that she will soon regain her health. Mrs. Thornton and the children accompanied Mr. Thornton to Roseburg.

August G. Doring, recently of New York, has taken over the City Bakery in the Watson building and is now fitting it up for a first-class bakery and lunch room. Mr. Doring has held high position in the Waldorf-Astoria and Fleishman's bakery in New York City and is an expert in his line. He expects to open up for business next week.

Supervisor Brown, of the Forest Service, Tuesday went out to the Rogers' ranger station in Camas and found that the telephone line between that place and Lakeview was down in many places, due to the fact that many of the insulators had been shot off. The line is now being repaired and a reward is offered for the arrest and conviction of any person who in any way willfully destroys or injures the said government telephone property.

KEEPING TAP ON THE CROPS

The Way the Agricultural Department Gets Its Information.

The details of the comprehensive system employed by the department of agriculture in gathering the crop information from all over the country are interesting. There are 30,000 county correspondents scattered all over the Union, whose duty it is to go carefully over the territory and submit each month concrete information as to the condition of all kinds of crops. In addition to this branch, 3,000 "county correspondents" send in separate reports from those of the township men. A state agent makes a further report direct from his agents, and an organization in direct communication with the department, comprising seventeen traveling "field agents," go about the country and make separate reports for groups of states. Special cotton correspondents are also employed to furnish accurate information concerning the cotton yield. Five different reports are sent to Washington each month by five different sets of correspondents. This safeguards the government crop reports for accuracy in local crop reports and keeps the great crop account

and cost estimates for the millions of American farmers. These records are sent to the agricultural department. Officials of the bureau of statistics and a board go over all the five reports from five distinct groups of correspondents, and from all the figures a crop report estimate is distributed to 70,000 post-offices throughout the country every month.—National Magazine
