$100 Reward Will Be Paid for Any Statement That Is Not a Concrete Fact

We are on the main North and South located and surveyed Home System survey.

This survey is the final location, all easements, curvatures, etc., being actually located, estimates being given actually to a map, maps are filed in the U.S. Land Office and cannot be disputed.

This is the first POINT SELECTED BY THE ABOVE RAILROAD FOR THE TOWN TO ACCOM- MODATE THE CHEWAUNA AND CONNECTING VALLEYS ABOUT 75,000 ACRES.

Follow to see the exact wording which appears on the above railroad's final profile at this point. THIS IS THE CHEWAUNA VALLEY, CONTAINING ABOUT 75,000 ACRES OF GOOD AGRICULTURAL LAND. A GOOD SIZE TOWN, AS MARKETING AND MARKET- ING CENTER OF THIS VALLEY WILL DE- VELOP HERE.

The survey passes through only about three miles of the valley. We have the center mile and the ONLY GRADE.

Good towns on both sides, ALL THROUGH THE VALLEY, ARE PRACTICALLY MAXIMUM GRADES, PITCHING ABOUT THIRTY-SEVEN FEET OF GENERAL TENTH. THE HIGHEST GRADE ON THE LINE IS EIGHT-TENTHS. Of the lots sold to date, 88 have been sold to that many connected with the department of above System. Some of which hold high positions.

We have the parent and cohest of water at NINE feet.

This is the LOWEST VALLEY in Lake County, and therefore the best.

The townsite was laid out by experienced en- gineers in this line of work and can be improved upon.

This sale will continue but a very short time and may be withdrawn at any time.

80 per cent of all the proceeds of this sale will be put into the improvements for the townsite, such as trees, pumping plant and grading.

$90 BUSINESS LOT, RIGHT DOWN IN CLOSE, WHERE THE MAIN 100 FOOT STREETS CROSS. $5 each month, no inter- est. NOW IS THE TIME TO SECURE CHOICE SELECTIONS.

Good townsite investors are about the best investments on earth. So be sure that you in- vest in a legitimate proposition, one that has not only a good reason and evidence for its existence, but one that is not based on one with a railroad.

If you believe as we do that the railroad is a very short way when we'll point out what a lot will be worth on its ad\nd. Farm property sometimes doubles and triples. Good town lots often increase ten fold or more. Beware of fake town sites. From now on they will spring up like mushrooms. Be select and reasonable in all your purchases.

Handsome profits are going to be realized in this country when the railroad arrives. Why not be one? After it starts it will be too late.

$5 PER MONTH, NO INTEREST, CHOICE SELECTIONS, $5 DOES IT.

Twenty-five miles from Lakeview, twenty-five miles from Paisley, five miles from Bend, twenty miles from the Eastern and West survey, a thriving little town, just a little below the Snowy River, fine, climate, fine water, large bodies of fine timber close by, vast winter range adjoining on the North, unsurpassed scenery, fishing, hunting and trapping. BEAT OUR COUNTRY IF YOU CAN.

WE ARE LESS THAN TWO YEARS OLD. HAVE MAIN STAGE THROUGH HERE; TOL. POST OFFICE; WEATHER STATION; FIVE PAYING BUSINESS LINES...TWO MORE TO BE ERECTED THIS SUMMER AND AR- RANGEMENTS TO DRILL FOR ARTESIAN WATER IS COMPLETED WITH QUADS, EDES, THE DRILLER TO SINK A WELL.

This valley surpasses in fruit, wheat, oats, barley, corn, hay, alfalfa, and wheat crop.

FOR A SMALL INVESTMENT WHERE IS ITS EQUAL?

Remember this sale is limited and this odd will run but a short time. Send for photographic plots.

Laketruck, Oregon. Thursday, June 8, 1911

In the political press, President Taft is an exasperating genius, but this is the last time. Public sentiment is turning the tide, and even Wilson has things all his own way. Five more weeks, we can hope, and we shall be glad to be rid of him.

Roosevelt and Oregon. Two places that will have postal savings banks. This idea is sure to take root in this state having proved highly successful in the several German states. The Progressive Congress has designated these cities as democra- tics, where it is likely speculation will play itself out some time.

An interesting journey from Broom through the Enid River Valley to Republic and from there to the town of the Boulder Country. This road, which is still under construction, is off the road to bring this about during the autumn and winter. The country through this land would make a remarkably rich country, if it were once properly ac- cessed in its wealth.

That the best fire of 1911 was an outstanding fire that started in the southern part of the State, that the first general losses were caused by this fire, but that the land was saved by the Scientific method of fighting fires, instituted by the Western Forestry & Conservation Association, and the fire in this country would have been a serious fire had not the Scientific method of fighting fires through its scientific instruction and apparatus been used.

Several officials of all the states are arranging for stricter enforcement of the laws in this country in the future and consider there is nothing to be gained by inactivity. The Washington legislature has passed a bill to make more stringent for the last legislative session, which is the law on this subject.
