Subscribers to the Examiner who remove from one locality to another, or change their postoffice address, should remember to drop this office a card so their paper can be addressed to the right postoffice.

Lakeview, Oregon, Thursday, July 20, 1911

## NEW ERA UPON US

The shooting affray at New Pine Creek Sunday should be a warning to the whole of Lake County. It indicates that a new era is upon us and that a more strict compliance of the law regarding the liquor traffic is necessary. While the Examiner has no actual knowledge of conditions existing throughout the county, yet it is generally understood that intoxicating beverages have been dispensed at the state line town ever since local option went into effect.

With the building of the railroad there will be an influx of laborers and others whose sole aim will apparently be to fill up on booze, and when sufficiently "tanked up," they will not hesitate to commit any crime in the calendar. Each community must necessarily decide for itself just what is to be done under the circumstances. If bootlegging, blind pigs, and the like are to exist, it will be because the citizens do not take enough interest in the matter to put a stop to it. In order to excuse themselves, they endeavor to put the blame on the officers of the law, but you will seldom hear of any attempt to arrest the offenders simply because no individual is willing to become the prosecuting witness in such cases.

The people of Paisley sometime since decided to put a stop to conditions which did not meet their approval, and they were not long in doing it. They got the evidence, presented it to the proper officials and the law was promptly enforced. No fault was found with the officials for lack of duty, but they were assisted in every way possible. And if the people throughout the county where the law is being violated would follow that example there would be no bootlegging or blind pigs in existence.

The senate will vote on the Canadian reciprocity bill July 22 on the wool tariff revision bill August 1, congressional reapportionment bill August 3, statehood bill for Arizona and New Mexico on the legislative day of August 7 and will adjourn according to a general understanding quickly thereafter.

In order to make a point one of the "trust busting" magazines makes the bold assertion that cattle-raisers are not receiving any better prices now than they did a few years ago. And no doubt a very large majority of its readers will take the statement for granted. Out here in a stock country we know the statement to be very far from the truth.

John J. McNamara, the labor leader and his brother, James B., will be brought to trial October 11 on the first of the 19 murder indictments found as a result of the explosion which wrecked the Los Angeles Times newspaper building in October of last year. The date was set by Judge Bordwell as a compromise between the contending claims of defense and the prosecution. The defense wanted the case delayed until next December, while the prosecution insisted upon trial not later than August 1.

After secret consideration of charges made by Delegate Wickersham, of Alaska, that Attorney General Wickersham deliberately permitted the statute of limitations to run against agents of the Alaska syndicate who defrauded the Government, through perjury, to the extent of \$50,000, the House committee on judiciary has determined to report favorably a resolution of inquiry offered by Delegate Wickersham. The resolution would call upon the Attorney-General to furnish the House with all documents, affidavits and testimony in his possession relating to an affidavit submitted to him more than a year ago and sworn to by H. J. Douglas, ex-auditor of the Alaska syndicate.

The sale of the Joe Ambrose place on the West Side, as reported in the Examiner last week, shows the wonderful increase in property values in Goose Lake Valley during the past few years. While Mr. Ambrose purchased the place some 12 or 15 years ago paying therefor but the beggarly sum of \$500, yet not until a very few years ago had it increased in value. The land lies above the O. V. L. ditch, but there is sufficient water to be obtained from springs with which to irrigate 30 acres. The new owner, J. H. McDowell, considers that he secured a bargain when he paid \$25 per acre for the land, and he no doubt did. The land under

existing conditions is cheaper at \$4000 than it was twelve years ago at \$600.

The law compelling farmers and others owning irrigating ditches to screen the same in order to prevent fish from entering them is one that should be repealed at the next session of the Legislature. It is practically impossible to enforce the law, and in many instances its enforcement would work a hardship upon the farmer. A large fund is now raised annually for the protection of fish and game, and a portion of that fund could be well expended in screening ditches. It is not justice to compel individuals to bear the expense of preventing fish from leaving the streams, and besides irrigation is of far more benefit to mankind than the limited number of fish that may die because of ditches.

There is no reason why Lake county should not be represented at the big New York land show to be held next November. Should we happen to receive the \$1000 cup for the best 100 pounds of wheat, our reputation would be made. And it is certainly within the range of possibility for us to secure the much coveted prize. There is also a prize of \$500 in gold for the best 25 boxes of apples, as well as a \$500 cup for the best barley.

All sections of the country will be in competition with each other for the benefit and honor which the winning of these prizes will bring to the state and the section of the successful contestant. The man winning any of these prizes will secure national honor, while the territory in which he lives will become famed for that product. A little care in growing a good crop, a little extra work, and you stand as good as show as the next one.

## TRANSFER OF LAKE COUNTY PROPERTY

Reported by the Lakeview Abstract and Title Company

The following transfers were recorded in Lake County for the week ending July 13, 1911:

Neil Jensen to Lewis McCulley, Beginning at a point in the N line of lot 2, 275 ft. E. from the NW corner of lot 122, in the S. Add. to Lakeview, thence extending through S Add 198 ft thence E to a point in the E boundary line of lot 3, equidistant from the NE corner & S corner of lot 3, thence N to NE corner of lot 2, thence W 225 ft to place of beginning, \$10.  
U. S. to Edith Beall, Lot 6, 11 & 12, Sec. 2, lot 9, Sec. 3, 26-13.  
H. R. Rhone to Carl Anderson, W 1/4 NW 1/4, Sec. 7, 36-28.  
W. H. Ellison to W. B. Hammond, Lot 145, Blk. 240 O. V. L. Add to Lakeview, SW 1/4 NW 1/4, Sec. 23, 39-20, \$475.  
U. S. to G. W. Allen N 1/4 NW 1/4 SW 1/4 NE 1/4, Sec. 32, 36-19.  
There were 37 O. V. L. deeds recorded.

## Valley Falls Items

The temperature in this valley the past week has been above the normal. The Jennings-Meyer Realty Co., started hay crews on the old 70 ranch last Monday.

E. L. H. Meyer of this place, was last week appointed Justice of the Peace for this district by the County Court.

It is reported on good authority that Mr. Eades has struck a light flow of artesian water on the desert west of Wagonville at 100 feet. We trust and believe, as was the case in the Summer Lake region that with a little more depth stronger flows will be encountered.

Mr. Emery, of Smith & Emery, Chemical Engineers, of San Francisco, accompanied by Messrs. Lomax and Gaston, made a trip to Alkali Lake Saturday. We of course do not know their plans but we trust that their visit will soon start the development of what is undoubtedly the largest and most valuable soda and borax deposits in the West.

## Season Open At Odell

The fishing season at Lake Odell and Crescent, was formerly opened last week, when automobile parties from Portland, Seattle, Bend, Klamath Falls and Silver Lake arrived. Big

catches were reported by all those participating. The accommodations in the way of hotel and boats are better than ever this season, under the management of Alf Aldrich and Ora Pindexter. Deer are reported plentiful in the Cascades surrounding the lake and when the season opens, August 1, a large influx of sportsmen is assured. At the ranch of H. P. Hoey, a dancing pavillion and bath house are soon to be erected.

## Additional Briefs

F. H. Oliver, of Adel, Sunday registered at the Hotel Lakeview.

The Fair Grounds are now for sale, the property having been placed with H. W. Drenkel's agency a few days since. Col. F. P. Light and Geo. D. Harrow are the principal owners. The tract consists of 82 acres and the price is \$22,000. The property adjoins the city limits on the west, and is the only acreage property remaining south of the Slash which is available for town lots.

We have all been complaining with intense heat during the past few weeks. On reading the out of town newspapers, however, we cannot but be convinced that the heat locally has been very moderate compared with that in the larger cities, where scores of deaths have been recorded to date. Better bear it and grin, neighbor, for we've got the advantage over a majority of them that the writer is familiar with.

In our estimation the rain which struck this section on Monday afternoon was about as hard a one while it lasted as was ever witnessed in these parts. Coming at this particular time it was rather hard on the hay crop, but otherwise should cause the range to become much better in every way. As compared with last seasons rainfall, which amounted to a total of about one-half inch during the entire season, we have certainly no reason to complain this year.

Messrs. Ingram and Hutchason, agents of the Mutual Life Insurance company who have been soliciting business locally for the past few weeks, have returned to Roseburg and Medford respectively, where they are permanently located. Both state that their visit to this section was a successful one and that many policies were written up. Mr. Ingram is a former resident of Lakeview, having been associated with the Forest Service, and has many friends among the local stockmen.

## A GROTESQUE BIRD.

Remarkable Assortment of Colors of the Brazilian Toucan.

The very peculiar looking Brazilian bird, the toucan, has a body about as big as that of a good sized parrot, but its beak is very different and easily its dominant feature, though this bird is by no means lacking in bright and striking colors. The toucan's beak is half as long as its body, and it is broad and thin and set on edge vertically, shaped something like a blunted scythe, with the slightly curving, rounded edge on top and ending with a hook point turned downward—a remarkable beak in size and shape—and this beak is tinted with a remarkable assortment of colors, purple and red and green and yellow, while around the base of the beak runs a line of black.

The eyes of the toucan are surrounded by circles of a bright light blue, and on its breast, regularly outlined, is a broad and deep expanse of bright yellow in size and shape in proportion to the bird about the same as the generous expanse of shirt front shown by a man in evening dress with his waistcoat cut low and well rounded out at the bottom, this show of yellow being edged with a red line. The toucan's body for the bulk of it is black or a very deep blue black, but around at the base of the tail run two bands of color, one red and one white.

It is not a song bird. It is sold as a pet, not for children, but to adults, and it is more often fancied by men than by women. It takes \$25 to \$50 to buy a toucan.—New York Sun.

## Johnny Roche's Tower.

Standing on the banks of the river Ayberg, between Mallow and Fermoy, County Cork, Ireland, is a remarkable edifice known as "Johnny Roche's Tower." The whole tower was built by the labor of one man, who subsequently resided in it. This individual, who received no education whatever, also erected a mill, constructing the water wheel after a special design of his own. Long before the introduction of the bicycle he went about the country in a wheeled vehicle of his own construction, propelled by foot power. His last feat was to build his tomb in the middle of the river bed. John Roche died, but was not interred in the strange burying place which he selected for himself, his less original relatives deeming such a mode of sepulture unchristian.—London Strand Magazine.

## Faithful Woman.

I tell you that women, as a rule, are more faithful than men—ten times more faithful. I never saw a man pursue his wife into the very ditch and dust of degradation and take her in his arms. I never saw a man stand at the shore where she was wrecked, waiting for the waves to bring back her corpse to his arms, but I have seen a woman with her white arms lift a man from the mire of degradation and hold him to her bosom as if he were an angel.—Ingersoll.

## NEW GAME WARDEN IS AN EXPERT

No man knows the animal life and bird life of the Pacific coast country so well as William J. Finley, newly appointed State Game Warden. For twelve years he has devoted his time almost exclusively to this work, resulting in the publication of books, magazine and newspaper articles that are recognized as authority upon the subject. His work of research has included the Willamette Valley, the Cascade Mountains, the country tributary to the Columbia, Lewis, Clackamas and McKenzie river valleys, the Klamath Country, Oregon Coast, Tillamook County, Shoshone California, Arizona, and Washington.

"It will be one of the policies of the present administration to continue," said Mr. Finley, "the work of protection with vigor and an efficient force of deputy wardens." Another and equally as important feature will be the propagation of the game. The national government is doing valuable work in restocking the streams of the state with salmon, while the propagation of trout is left largely to the state. The establishment of trout hatcheries will be one of our first efforts. Along this line, it is well to state that one change in the work will be to keep and feed trout until they are 2 1/2 inches long and able to protect themselves, instead of releasing them when they are an inch in length. As far as the funds collected from anglers licenses will permit, this work of hatching trout will be prosecuted.

"In the line of game, we intend to introduce 250 pair of Chinese Pheasants direct from China, for the new blood. This will be done while the two years closed season is in force. In addition to protecting those we already have, we will propagate new birds. We are already in negotiation with parties to furnish 100 pair of Reeves Pheasants to be released on reservations it will be established from time to time."

Under the new law, the governor is empowered to proclaim all grounds surrounding state institutions as game reserves. This has already been done, giving the State Game Warden a splendid opportunity to carry out his ideas. Private grounds may also be used under contract with the warden and Mr. Finley is already considering several sites for this purpose. It may be stated, therefore, that the policy of the new regime will be largely centered around the propagation of new game and the establishment of ample reservations for their use. Mr. Finley is intensely interested in working out his theories and has said, time and time again, that all of his work will come to naught without the conscientious co-operation of the people of the state, with special reference to those who live in the rural districts.

## Paisley Press Items

W. Y. Miller is hauling lumber for the new barn of V. O. Morgan.

Steve Down left on Saturday for Summer Lake, where he will assist in the erection of C. C. Harris' new residence.

If the outside world knew how the Chewaucan and tributary rivers swarm with the most magnificent trout, they would be coming in by the hundreds.

Mr. and Mrs. L. A. Moss returned home Saturday from Southern California where they went to attend Mrs. Moss' father, who was very ill. He has fully recovered.

Alfred Moss has purchased eighty acres of land on Sumner Lake from W. K. McCormack. He intends to erect a house immediately and go in for intensive farming.

V. O. Morgan will in a very short time, commence the erection of a mammoth barn and stable. It will be 85 feet long, 40 feet wide, and 40 feet high, to the ridge of the roof.

R. C. Foster, of Summer Lake was in town Sunday and Monday. He brought in some magnificent samples of rye, barley and wheat for exhibition purposes. The rye is over six feet tall.

Mr. Geo. Conn informs the writer, that as he walked through his alfalfa, all wet with the dew and waving like the swells of the ocean, the other morning he became seasick. Anybody else got alfalfa like that?

It is now almost a certainty that a bank will be established here, for a large part of the capital has already been subscribed. The site for the bank building has not yet been chosen, but it is understood that several properties are under consideration.

The chicken house on Ed Lamb's ranch was broken into Monday night and twenty-five chickens stolen. All that the thieves left were five chickens and one rooster. Mr. Lamb discovered the loss and at once reported it to the authorities. So far as we know, no trace of the sneak thieves has been found.

Fred Bias' whistle, as he passes the printing office four times a day, is louder than ever. And has he not good reason to be joyful? For he it is known that again he is a happy father, this time of bouncing baby girl who entered into this life last Friday afternoon. Fred says she is very little, but, oh my! We offer our congratulations.

Mrs. V. Conn and her two daughters arrived at their home in Paisley Wednesday morning. They came by auto from Lakeview. Miss Vera has been attending college at the De Pauw university, Greencastle, Ind., and Miss Velma, the Illinois Woman's College at Jacksonville, Ill. Mrs. Conn has been visiting in Logansport, Ind., for some time.

## TOO LATE TO CLASSIFY

Plain and fancy sewing wanted, Childrens clothes a specialty. Mrs. W. R. Clack, Canyon St.

Will buy a limited number of O. V. L. addition lots. Address J. Chas. Smith, Lakeview, Ore. Aug. 10.

FOR SALE—Ladies' saddle horse, enquire Keene & Barnes cigar store, if

## NOTICE FOR PUBLICATION

(Not Coal Land)

Department of the Interior, U. S. Land Office at Lakeview, Oregon, July 17, 1911.

Notice is hereby given that Nando M. Graves, whose post office address is Lakeview, Oregon, did, on the 8th day of August, 1910, file in this office sworn statement and application, No. 03027, to purchase the NW 1/4 NW 1/4, Sec. 34, Township 39 N., Range 17 E., Willamette Meridian, and the timber thereon under the provisions of the act of June 3, 1878, and acts amendatory, known as the "Timber and Stone Law," at such value as might be fixed by appraisal, and that, pursuant to such application, the land and timber thereon have been estimated and valued by applicant at a total of \$100, the timber estimated at 160,000 board feet at \$5 per M, and the land \$20; that said applicant will offer final proof in support of her application and sworn statement on the 14th day of September, 1911, before Register and Receiver, U. S. Land Office at Lakeview, Ore.

Any person is at liberty to protest this purchase before entry, or initiate a contest at any time before patent issues, by filing a corroborated affidavit in this office, alleging facts which would defeat the entry.

ARTHUR W. ORTON, Register.
