It was rumored that the Bookkeeper July 22, 1911. for Tom Sagris Construction Company

was killed Saturday morning but the report has no foundation. Some Greeks got into a quarrel with the time keeper over their wages. Four sheriffs came up from Alturas but found everything

alright and returned without any mur-

derers. Mrs. Robt. L. Weir returned from Lakeview after visiting friends for several days. She met her husband bere, he having been in Alturas as a witness on the Sapper vs. Cory damage suit.

L. E. Seager was looking after his interests here Saturday. .

W. F. Fisher has gone below to consult with doctors,

#### New Type of Bridge

Work on one of the largest single uplift bridges ever to be contructed has been started by the Southern Pacifie Company in San Pedro harbor, California. The length of the bridge is 187 and one half feet. The bridge will carry a double track and will be operated by electricity. capable of lifting the ponderous mass of steel in fifty

seconds, affording a clear channel of 185 feet for the passage of boat

The new bridge is what is known as the Strauss trunnion type, differing from the Bascule bridge of the Salt Lake Railroad, also at San Pedro, in that the latter is lifted on a rocker. while the Southern Pacific bridge will be lifted by a tall pin or hinge. A latch operated by a motor will hold the bridge in place when it is down.

This new bridge will replace the present Southern Pacific and Pacific Electric tretste bridges.
