FOREST FIRES ARE NOT NUMEROUS

Portland, Aug. 14.—Reports from all sections of the State received at the offices of the Forest Service, Oregon Forest Fire Association and State Forester, show a most gratifying condition so far as forest fires are concerned. The period of cloudy weather accompanied by showers in the mountains which followed the hot spell has made it possible to successfully cope with all of the fires which started late in July. The promptness with which fires have been discovered and steps taken to suppress them, reflects great credit upon the work of the Federal Government, State and private interests.

The period of greatest danger, however, still remains. Loss of green timber has so far this summer been comparatively small, the fires, with few exceptions being confined to slashings and old burns. There is, however, ample opportunity to reverse this good record unless the utmost care is exercised.

Fires not thoroughly extinguished and which have caused no trouble during the cloudy weather will become a decided menace with the advent of a few hot days. These must be carefully watched to prevent their breaking out again.

Campers in great numbers are now in the mountains. They will prove a source of protection if the fire laws are strictly observed but a decided menace if thoughtless and careless.

Fire protection in the state has been stimulated by Counties taking upon themselves some responsibility in the matter. Clatsop, Columbia, Lane and Hood River Counties have each, at their own expense put on a man to assist the State Forester in his work. Federal assistance through the Week Laws is now assured and with a cooperative public and extreme vigilance on the part of patrolmen Oregon has an excellent opportunity to establish a record unsurpassed in former years.

POPE ADDS TWO MORE FEAST DAYS

By the recent encyclical issued by Pope Pius X. two more feast days have been added to the "days of obligation" already observed by the Catholics of the United States. They are the feasts of St. Peter and St. Paul, June 29, and of Epiphany, January 6.

While the number of feast days is increased in this country, in other countries it will greatly diminish the number of days in which the faithful are ordered to cease work and attend mass. In his encyclical the Pope announces that he has issued the decree in order to unify the number of feast days throughout the world and in response to many petitions, which have pointed out the hardship worked by numerous feasts upon the working classes in several countries, many of which observe 25 feast days in addition to the Sundays through the year. The encyclical reads, in part:

"The ecclesiastical precept of hearing holy mass and of abstaining from servile work remains in force only for the following days: All and every Sunday, the feast of the nativity (Christmas), of the circumcision (New Year's Day), of the Epiphany (January 6), and of the Ascension of Our Lord Jesus Christ (Thursday, 40 days after Easter), of the Immaculate Conception (December 8), and of the Assumption of Blessed Mary Mother of God (August 15), of the Holy Apostles Peter and Paul (June 29), and finally of All Saints." November (1).

LAKEVIEW BARN MAY HAVE TO GO

No matter what the ordinances of any Oregon town may say on the subject, or whether they say anything at all, under a decision of the Oregon supreme court, rendered in June on an Oregon City case, people who construct even fine buildings in residence districts and attempt to conduct livery stables in them, will have their trouble for their pains and lose money on their investment, if the people of the neighborhood object and assert their rights. The gist of the matter is put in this language by the Oregon supreme court. "Because in olden times both man and beast were housed under the same roof, is no reason why at the present time a stable should be used in the residence district of a city, where it becomes a nuisance to adjacent houses. Old things have passed away to a certain extent and many changes have taken place in the customs and manners of civilized life." It was a nice, slightly building in Oregon City, as shown by the testimony, but it was used as a barn and was a nuisance, and its owners were enjoined from using it any more, and the decision of the lower court was sustained.

PRISONERS GIVEN CASTE AT TABLE

Salem, Aug. 21.—A graduated dining system for convicts at the penitentiary will be put into operation by August 1, according to Governor West. There will be three tables. On table No. 1 at which every man in prison has the privilege of obtaining a place, catsup, pepper, milk, and butter and other articles of regular "set up" will be more numerous; food will be served in home-like style and conversation may be carried on freely. Good prison record and cleanliness will be the chief requirements for the first table men. Length of term will not interfere with a man's obtaining a place at this table. A "lifer" may sit beside a six month's term if his conduct is good enough. A term at the first table is requisite to parole.

The second table will be termed "indifferent." Here will be seated the more or less careless, those who are neither good or bad. This table will be better furnished, and better supplied than the lowest table.

The third and last table will be for "bad actors." The men will take food served to them on tin plates. Present prison fare will be what they will get—simple, plain food with no extras. They will not be allowed to talk while eating. It is believed the system will prove a great incentive to self control and pave the way for men to work themselves out of prison by building character.

ST. PAUL ALLOTS BIG SPACE TO US

Oregon will show from 150,000 to 200,000 people a big exhibit of her products at the land show in St. Paul December 12 to 23.

Governor West has received word from the officers of the Northwestern Development League that the business interests of St. Paul, Minneapolis and Duluth have agreed to a deal whereby this state will be furnished exhibit space without cost at the land show. The show to be given under the auspices of the league is the only one in the country which is not a private enterprise and will be managed in such a way as to furnish space for official exhibits.

At a cost of ten thousand dollars the business interests of the three Minnesota cities have brought from the league 3,500 square feet of preferred space at the show. Each of the seven states will have a space of fifty feet long and ten feet wide for their official exhibit.

The governor has been asked to confer with officers of the league in this state and secure the interest of those necessary to put in an exhibit which will be a credit to the state. Under this plan no one community or city will have an advantage over others in the state. Any city, county or land company desiring to make an independent exhibit on reasonable terms, but it is the desire of the league officers for this state that the best possible exhibit be made in the name of the state as it is from such an exhibit that results are to be obtained.

The seven states which are to be thus represented are Washington, Oregon, Idaho, Montana, North and South Dakota and Minnesota.

No other states will have exhibits and Canadian exhibits will be barred, the whole idea of the show being "an exposition by the seven states for the benefit of the seven states alone."

Oregon officers of the League are C. C. Chaoman, of Portland, and William Hanley of Burns. Inquiries about the Oregon exhibit should be addressed to them while information about the show and space therein should be addressed to Will Campbell St. Paul, Minn.

Big Day's Run

Weston, Ore, Aug. 14.—The largest day's "run" ever made in this district by a threshing outfit with two headers was achieved Saturday by Sam Banister's crew with a 33-36 separator. They threshed 1742 sacks, smashing all local records for fast moving and "setting." They completed this process and started the machine in exactly 6 1/2 minutes. The heaviest yield of barley ever grown in the Nec Perce country is also claimed by the ranch on which the above was done, averaging 90 bushels to the acre.

Nasal Catarrh quickly yields to treatment by the agreeable, aromatic Ely's Cream Balm. It is received through the nostrils and cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size. Test it and you are sure to continue the treatment till relieved.

Announcement.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.
