**\$3.50**

## BIGE ARCHIE IS HELD FOR MURDER

### Indian Accused of Killing Wife Now Languishes Behind the Bars

The preliminary examination of Bige Archie, the Indian charged with killing his wife at Plush on the night of August 26, took place yesterday before Justice Bailey, who held him without bail to appear before the next grand jury.

Deputy District Attorney Venator conducted the prosecution, while H. P. Welch represented the defendant. The testimony introduced by the prosecution was purely circumstantial, but it left no doubt on the minds of the hearers as to the guilt of the accused. While no one saw the crime committed, yet it seems impossible that the deed could have been committed by any one but Bige.

From the testimony it appears that the Indians were indulging in a drunken orgie and that Bige finally became so obstreperous that several of his dusky brethren took it upon themselves to tie him down with a rope. In the meantime his wife is supposed to have been a short distance from camp in company with several white boys. It would appear that along about midnight Bige succeeded in releasing himself and immediately proceeded to hunt up his wife. Upon his approach the white men are said to have fled, and shortly thereafter the air was rent with screams from Nanny, but none dared to brave Bige's wrath and go to her assistance.

The following morning her dead body was found terribly bruised and mutilated, the crime having apparently been committed by hurling rocks at her, as numerous rocks with blood upon them were found near the body.

Following the Indian custom all of her belongings were burned, included among which was a bloody shirt which is said to have been worn by Bige the night previous. A portion of the rope with which Bige was bound was found near the corpse, while tracks leading therefrom to Bige's camp were also traced.

In the morning Bige was missing, but the next Tuesday he gave himself up the agent at Fort Bidwell and was subsequently turned over to Sheriff Snider.

No testimony was offered by the defense, but Bige strenuously denies having committed the crime.

Nanny was a member of the Pitt River tribe, and a number of those Indians are taking an active interest in the case, being anxious to secure the conviction of Bige, whom they consider guilty. On the other hand Bige is a Piute, and his tribesmen are just as anxious to secure his release.

A number of Indians were called as witnesses among them being Burton Pete, Billy Burns, Tommy Townsend, Perry Parker, Maggie Townsend, Geo. Brown, Henry Sam and Doctor Jack, but none of them seemed inclined to tell all they knew.

### Additional Briefs

The duck hunting season commences immediately after midnight tonight, so get busy, boys, and have your shot guns in first class shape for the occasion. The ducks are reported quite plentiful this year.

The Starlight Club, an organization of local young men, Saturday night,

## PAISLEY PROJECT A GO

Continued from first page

That the Northwest Townsite company means business in its negotiations with the desert land board for taking over the Paisley project is the opinion expressed by State Engineer Lewis, following the meeting of the board, at which George M. Bailey, representative of the company, appeared before the board.

A resolution, introduced by Governor West was adopted to proceed to bring about the revocation of the contract of the Portland Irrigation Company unless that company forthwith filed a full relinquishment of its holdings as provided by the order of the board at a meeting in July, as a condition of an extension of time until January 1 for making arrangements for financing the project. Later C. H. Ball came in with the relinquishment, which he had been holding back. The relinquishment being filed, the company will now be allowed until the first of the year to make good. This will probably be done by the Portland Irrigation Company selling to the Northwest Townsite Company.

The substance of Bailey's proposition is that the liens on the land be increased from \$35 to \$50 per acre. It is claimed that this is not at all unreasonable, as on most of the government projects the government required liens of this amount and more. It is also claimed that one reason for the failure of so many reclamation companies is that the liens have been too low and that this is coming to be recognized.

The Paisley project embraces about 12,000 acres and is considered one of the most feasible and the most promising of all the Carey act projects. Members of the desert land board who have been shown the private plans of the new company declare them to be good and to promise great things for that section if the company makes its deal with the board.

### Will Sell for \$1250

cash or trade for ranch or stock, my 1-4 interest or \$2500 equity in good Planing, Shingle and Saw Mill, 10 miles from Alturas, Cal. Good market--sell more than mill can produce at 10,000 feet per day at \$17.00 per 1000 at mill. Capacity of shingle mill 20,000 per day. All in good running order. Invite an investigation of property.

Wm. R. Harris,

ft. P. O. Box 231, Alturas, Cal.

gave a very nice dance at the Roller Skating Rink, about twenty-two couples being present for the occasion. Mr. Morgan, as floor manager, was a big success and made things pleasant for everybody.

A. Leonard, blacksmith, hunter, etc., last week returned from a several day's hunting trip in the vicinity of Gearhart Mountain, and brought back with him a fine large buck. The antlers are now on exhibition at the Woodcock & Leonard shop, and are certainly worth seeing.

Charles Weyburn, of the Forest Service, Saturday, left for Oakland, California, where he is to act as a witness in a damage suit involving \$50,000. The suit to recover was brought by a boy, who while riding a bicycle, accidentally ran into a team and large truck belonging to the Dodge-Sweeney Company, of Oakland with the result that he was quite seriously injured.

# BARGAINS!

## If Taken At Once

### TERMS

Mr. Rancher:--

Are you coming to town to spend the winter and give your family the benefit of the schools here? You want a place to live when here. Why not get the best at a price that demands your attention. The homes owned and now occupied by our families, in the best portion of this beautiful town, are for sale at a bargain price on account of the fact that we are transferring our interests to Davis Creek where we are heavily interested.

Close to the new High School. Streets graded. Side walks. City water. Electric lights. Houses equipped with all modern conveniences. Good barns. Fine location for a home in every sense of the word.

These houses were not built to sell two years ago when they were completed, but are the result of what we thought a fine home should be for our own use, and such we intended them to be until our plans have changed. We are not selling them at a profit but to use the money in other ways that are important to us. Our plans are your gain in every sense of the word. If you care to give your family the same advantages that we have enjoyed this is a rare opportunity for you. The real value of this property has enhanced considerably since we improved it and the coming of the railroad is raising prices higher every day. You will never have such an OPPORTUNITY as this again. Now is the time to buy and your chance is lessened with every hour you delay getting these rare bargains.

For prices and terms see SEAGERS, Owners.

**SEAGER BROS., Lakeview, Ore.**

Mr. and Mrs. A. W. Orton will leave for Portland this week, expecting to be absent nearly a month. They will make the trip by auto.

A party consisting of Misses Mildred and Katie Rehart and Lola Barry and Charles Barry have returned to town after spending several days on a camping trip to the Chewaucan country.

E. E. Free, of the Bureau of Soil Industry, last week returned after an auto trip which lasted about a week and during which time he visited Abert Lake, Summer Lake and Christmas Lake sections in search of potash and other mineral substances. The results of his collections will not be definitely known for sometime.
