

Lake County Examiner

HAS THE CIRCULATION—PRINTS THE NEWS—REACHES THE PEOPLE

VOL. XXXII

LAKEVIEW, LAKE COUNTY, OREGON, SEPTEMBER 28, 1911.

NO. 39

THE EXAMINER IS THE OFFICIAL PAPER OF LAKE COUNTY

SUGAR HILL GRADE ABOUT COMPLETED

Tom Sagris Will Finish His Big Contract Next Week

Tom Sagris, the contractor on the railroad work at Sugar Hill, spent several days in Lakeview this week. He will complete the grade around Sugar Hill next week and his visit here was for looking up prospective work in connection with the local irrigation project. It is expected that the work at New Pine Creek will also be closed next week, and the entire grade from Davis Creek to Lakeview will then have been completed. The track-laying crew is now at Sugar Hill, and presumably the only delay that it will encounter will be in putting in a few small bridges and culverts. While there is still considerable work to be done, yet those in a position to know assert positively that the rails will be laid to Lakeview not later than November 15.

Scarcity of Hogs

Pork, lard and sausage are going to be scarce in the local markets during the coming winter. At least such seems to be the outlook at present, and butchers are now scouring the country in all directions in search of hogs. Many farmers refuse to sell at any price, giving as a reason that they want to keep them for breeding purposes.

Mills Commence Grinding

The Lakeview Flouring Mills Monday morning commenced grinding the 1911 wheat crop. It had about 75,000 bushels of wheat to commence with, and large quantities have been received daily during the week. It will continue receiving the cereal for several weeks to come, and this promises to be the most successful season the mills have yet experienced.

TO GATHER GREAT NORTHERN EXHIBIT

E. R. Patch Appointed To Get Samples of Our Products

Tilman Reuter, of Madras, who is collecting a Central Oregon exhibit for the Great Northern Railway, has addressed a letter to the Commercial Club, requesting that an exhibit be sent from Goose Lake Valley. He wants samples of grains, grasses and alfalfa, as well as vegetables of various kinds. Presumably he would also accept fruit and any other product of this section. The exhibit will be shown at the various land shows to be held at Denver, Minneapolis, Chicago, New York, and other places and should be of much value.

The Commercial Club has taken the matter up and E. R. Patch appointed to gather the samples.

Millinery Opening

The Parisian Millinery celebrated their Second Grand Fall and Winter Opening Saturday, Sept. 23. As usual the house was crowded all day and evening with scores of enthusiastic millinery buyers. The windows were artistically decorated with the latest creations known to the millinery world, over two hundred and fifty exclusive designs being shown.

The ladies of Lake county should appreciate the efforts this house is making to gratify the individual taste of every lady that comes in their store. It would surprise the outside world if they could be present at one of these openings and see what Lakeview can produce.

Ladies Entertain

On Friday evening, last Mrs. Charles Umbach, Mrs. D. C. Schminck and Mrs. F. P. Cronemiller, entertained at the home of the latter in honor of Carl Umbach, Walter Dutton, and Guy and Lynn Cronemiller. The evening was spent with cards and music. Mrs. Thos. S. Farrell, Miss Laura Snelling and Miss Kathleen O'Neil delighting those present with several vocal and

instrumental selections, after which dainty refreshments were served. Those present were: Mr. and Mrs. James Judec, Mr. and Mrs. Thos. S. Farrell, Miss Hazel O'Neil, Miss Kathleen O'Neil, Miss Louise Storkman, Miss Ethel Bailey, Miss Lena McShane, Miss Marzie Bernard, Miss Kate Dutton, Miss Edna Scott, Miss Amy Heryford, Miss Hazel Heryford, Miss Verda Umbach, Kelton Gunther, George Whorton, Burt Snider, Fritz Williams, Murray Hurd, O. D. Morgan, J. W. Wheeler, Hugo Umbach, Carl Umbach, Walter Dutton and Guy, Lynn and Fred Cronemiller.

Alturas Is All Right

Alturas Plaindealer: The many promises regarding the injury to the town of Alturas by reason of the railroad going on, have come to naught. Business men here inform us that they are getting business now that they did not get before. Customers from sections that never traded in Alturas can now take the train in the morning, come to Alturas, do their trading and return home the same day, and at an expense not greater than would be necessary to feed their team, to say nothing of the saving of time. The extension of the road will, and is, helping Alturas instead of injuring the town.

The members of the Lakeview Commercial Club, which was recently organized, are circulating a petition about town soliciting new members for their organization. The membership fee is \$1.00.

CANDIDATES FOR OFFICIAL HONORS

Paisley Holds Mass Meeting and Nominates Candidates

Chewaucan Press: Officers for the proposed corporation of Paisley were nominated at a mass meeting held in the School House Friday evening. It was a thoroughly representative gathering and in the main quite harmonious. The chair was filled by L. R. Jones and L. A. Moss was secretary with J. J. Moore as his assistant. On motion it was decided to nominate only one ticket and nominations for mayor were called for. C. E. Campbell received the unanimous vote for this office. In like manner A. A. Farrow was nominated for recorder, and George S. Park for treasurer. There was a contest for the nomination for marshal, between C. H. Holbrook and W. Taylor, the former winning by a narrow margin. For aldermen there were twelve nominations and, as only six were to be elected, the interest was intense. After counting the ballots it was found the following had received the highest votes and consequently the nomination: B. F. Cannon, R. B. Jackson, V. Conn, M. C. Currier, P. J. Brattain, V. O. Morgan, G. S. Parks and H. C. Conway acted as clerks of election. So this is the people's ticket. The Press does not see where it could be improved to any extent, and the people can be generally relied upon to choose well when it is left to them.

DELICIOUS FRUIT FROM SUMMER LAKE

Mrs. W. A. Currier Presents Examiner With Box of Fine Peaches

Any one holding any doubts as to Lake County being unable to produce peaches should have seen the box of fine luscious fruit presented the Examiner this week by Mrs. W. A. Currier, of Summer Lake. The peaches were not only of fine flavor, but of large size and good color as well. They were grown on the well known Currier ranch, and the crop in that section is fully up to the average.

It should not be understood by this that the whole of Lake county is adapted to peach-growing, for of course such is not the case. But there are certain sections that can and do raise the fruit to perfection, and Summer Lake is perhaps the most favored section along that line of all.

RT. REV. BISHOP CHARLES J. O'REILLY HOLDS SERVICES IN LAKEVIEW SUNDAY

Word has just been received here by Father Schmitt to the effect that Bishop O'Reilly, of the Catholic church, would be here Sunday next instead of October 15, the date originally set. The 8 o'clock services Sunday morning will be given at the church residence by Father Schmitt, and the 10 o'clock services will be rendered by the Bishop in the Opera House. The sacrament of confirmation may also be given by him directly after the services, although this matter is as yet undecided. It is not thought that the new church will be dedicated by the Bishop on his visit Sunday, as the building is not near enough to completion.

DAVIS CREEK IN EYES OF EXPERT

Factors in Big Turlock Development Visit Goose Lake

Reno Journal: C. R. Seager, the deus ex machina or something like that, in the Davis Creek Orchards and Development Co., was in town last night and reports that the Journal's publicity and the excursion into his country have brought that section into the spot light.

The excursion was not only a pleasurable affair but one of the best business moves for the promoters and the excursionists noted in recent years. Already the attention of several experts has been drawn to the country and, with the favorable reports that will follow it is practically certain that large capitalists will get into the orchard country before long.

Last week A. J. Eddy, a man of keen observation and experience, went into Davis Creek and Pine Creek in Goose Lake Valley to look the ground over. He did not do it for himself, but represented undisclosed interests. It is noteworthy that Eddy was a prominent factor in the Turlock development. Eddy completed his inspection and sent in a good report to his principals and promises to go back there again.

Last night D. F. Lane and H. A. Dunn of San Francisco identified, with large operations in Turlock, came to Reno and today will go into the Goose Lake Valley region to see Davis Creek. It is understood that these men are looked to as authority on the promise of lands, by the Southern Pacific company, and it is an open secret that the railroad was interested in the Turlock development. They have just looked over the Southern Idaho belt and down in Suenaville and their trip to Davis Creek after that seems to indicate that they have not yet found what they want.

The chances for favorable report and for greater publicity for the Goose Lake country are his, according to Seager. He reports the apple crop nearly ready for harvest and will make an exhibit in Reno before long.

N.-C.-O. READY FOR OREGON BUSINESS

Articles of Incorporation Filed With Secretary of State

The following dispatch to the Oregonian will prove of interest to the people of this section, although the "news" that the Western Pacific has not only taken over the line between Alturas and Reno but has widened it to a broad gauge will be surprising. It is really astonishing the amount of ignorance that a newspaper can occasionally condense into a few lines. The dispatch and comments thereon follow: "Salem, Sept. 22.—Signifying its intentions of transacting business in this state, the Nevada-California-Oregon Railway filed with the Secretary of State a copy of its articles of incorporation and also a declaration setting forth the names of its officers, and its attorneys upon whom legal service may be had.

"From an amendment to the original articles of incorporation the inference may be drawn that the company contemplates railroad building in Central Oregon. The original articles called for the construction of a line from Reno to Goose Lake, on the boundary line between this state and California. The amendment calls for construction of this line as well as for the building of a line from Goose Lake through the counties of Lake, Crook, and Wasco, the terminal to be at a point near The Dalles. The amendment was made in November of last year.

"The capitalization is given as \$2,200,000, and the principal officers are: C. Comyn, president, New York; T. F. Duniway, vice-president; W. J. Barry, general counsel; W. A. Duniway, superintendent, all of Reno, and A. D. Moran, of New York, treasurer. W. Lair Thompson, of Lakeview, is named as attorney upon whom legal service may be had.

"It is the belief of local railroad men that the proposed road is backed by the Western Pacific, a Gould line. The Western Pacific some time ago

look over a narrow gauge line extending from Reno to Alturas, a small town about 85 miles south of Lakeview. This road has been widened to a standard gauge and the heavy work is in progress between Alturas and Lakeview.

"This gives strength to the belief that the Nevada-California-Oregon Railway is a subsidiary company of the Western Pacific. It is probable that Lakeview will be the present terminus of the line."

Buying Rights of Way

The Southern Pacific permitted the rights of way for the Modoc Southern to expire by limitation. The conditions on which the rights of way were granted the road that work should begin on or before September 1st.

Immediately after the expiration of the time for beginning work, an agent of the Company went over the route and bought and paid for the rights of way. Just why work was not begun is somewhat of a mystery, but the subsequent action indicates that the building of the Klamath-Fernly road has not been abandoned. It is surmised by some that labor conditions and disturbances has had something to do with the delay, but that is merely conjecture.

Supervisor Brown and Forest Assistant Jacobson, of the Forest Service, Friday, left for the Crater Forest, where they are to make a study of the big timber sales now under progress in that locality.

BIG FOUR'S MILL NEARLY FINISHED

Hoag District Looms Up and Attracts Much Attention

The outlook for the mines in the Hoag district is very bright and many of the owners are confident that a great mining camp will soon be established there. At a recent meeting of the stockholders of the Big Four it was ordered that work be pushed on the mill and it will be running within 30 days.

The Consolidated has recently opened up a large body of fine ore, and much development work is now going on throughout the district. Several prominent mining men have recently visited the district, and all seemed to be most favorably impressed with the outlook.

Ladies Aid Entertained

The Ladies Aid met with Mrs. Woodcock last Wednesday, Sept. 20th, and spent a very pleasant afternoon. Those present were Mrs. Bigelow, Mrs. Foster, Mrs. Miller, Mrs. Russell, Mrs. Taylor, Mrs. Cronemiller, Mrs. Burgess, Mrs. Dyer, Mrs. Anstead, Mrs. Barnes, Mrs. Malone, Mrs. Patch, Mrs. Corey, Mrs. Moss, Mrs. Combs, Mrs. Cloud, Mrs. Nolte, Mrs. Fetsch, Mrs. Chandler, Mrs. Esh Miller, Mrs. Morgan, Mrs. T. E. Bernard, Mrs. Harris, Mrs. Woodcock and Mr. F. M. Miller, Mrs. Bailey, Secy.

G. P. ROSS TO LEAD STANFORD BAND

Lakeview Boy Takes Leading Part in Musical Circles

The following dispatch to the San Francisco Chronicle shows that Lake County boys head the procession:

Two hands to furnish music at each football game to be played on the Stanford grounds this season is the plan which will be carried into effect by the executive committee of the local student organization. R. R. Beal, leader of the band and senior in the university, has divided the players into two sections of thirty men each. The first section to be under the leadership of B. A. Stephenson, while the second is to be directed by G. P. Ross.

The two sections will practice at different times in order that one section can always be available for the bleachers, and at each game one of the

COMMERCIAL CLUB READY FOR ACTION

Local Boosters Will Have Ample Room in Which To Make Good

The Lakeview Commercial Club met Monday night and completed the election of officers by selecting Elmer C. Ahlstrom as Vice-President, H. P. Welch, H. W. Morgan and J. W. Hunter as Trustees. Many things of interest were gone over by the members who are working enthusiastically to accomplish the work for which the organization was formed, among them being the adoption of a set of by-laws that will cover the workings of the organization and give to it much elasticity in the promotion of the chief aims and objects for which it stands. A committee on publicity was appointed to study the matter and report their findings at the next meeting which will be held the second Monday in October. An exhibit is to be collected under the supervision of E. R. Patch for the Great Northern Exhibit to the various land shows that are to be held in different parts of the East during the next couple of months. The workings of the organization will be open at all times to the inspection of the members and it is felt that every resident of the county has a part in the success of the work that is bound to be accomplished by them. Several names of men on the West Side were proposed to the trustees for membership, notably those of L. A. Carricker, J. A. Carey, the Anderson Brothers, and others while the East Side is represented so far by Jonas Norm.

Overhauling Residence The Vernon residence on Dewey street, recently purchased by Dan Gosdill is now being generally overhauled. The carpenters and painters have been busy on the structure during the past week, and it is now beginning to assume a much improved appearance.

NEW PINE CREEK'S BIG GRAIN CROP

Wheat Goes 35 Bushels to the Acre and Barley Thirty-six

The New Pine Creek flouring mills this week commenced the season's run. There is no doubt but that there will be plenty of flour to fill all demands for the current year. A large amount of wheat has been raised this year in that section, but at present farmers are not inclined to accept the prices offered although a few sales are reported.

New Pine Creek is a place where things do certainly grow, and some excellent grain yields this year are reported. One especially good wheat crop was harvested by E. Keller, the farmer and miller of the state line town. From 50 acres he threshed 1750 bushels of fine wheat, being an average of 35 bushels to the acre. He also harvested 5100 bushels of barley from 140 acres, or a little in excess of 36 bushels to the acre. The latter yield is perhaps not out of the ordinary, but 35 bushels of wheat to the acre is certainly going some.

Mr. Keller stated to an Examiner representative that many strangers are now coming in and numerous inquiries are being made as to lands. There is an active demand for houses to rent and the future has a very bright outlook.

Invitations Received

The Examiner nowadays is receiving invitations to have a representative present at more or less important functions, among them being the meeting of the Development League at Burns, Railroad Day at Bend, booster meetings at various places, etc., etc. It really makes one wish that he could not only accept each and every one, but that he also could return the compliment and invite the other fellows to come to Lakeview and help boost.

Sections will play the songs which the rotars sing. For the concerts and for the big intercollegiate game the sections will combine into one sixty piece band.
