### A Prospective Hotel

Lakeview is to have a new hotel if the plans of Jack Parker and Dr. Miller of Seattle Wash., who were visitors in town the early part of the week materialize. Mr. Parker was formerly connected with one of the large hostels at Minneapolis, Minn., and he is now engaged in that line in Seattle. Dr. Miller is associated with him in some of his ventures and the two gentlemen were very favorably impressed with the outlook here, saying that they believed that from the prospects of the town it has a better future than any section of the state that they had visited. After looking at some of the desirable sites they departed after making business arrangements with one of the local real estate men to handle the site for them. If they decide to invest there is no doubt that it will be on a scale commensurate with the importance of Lakeview as a distributing point for many years to the large territory adjacent.
