PEANUTS DO WELL IN LAKE COUNTY

Toothsome Goober Raised Successfully in Summer Lake Section

Virginia—Old Virginia—"The Old Dominion State." "Mother of Presidents." land of brave men and handsome women, long haired statesmen and much weather. Take your tall bonnet off. Doff it to the coming era that is prophesied in Lake County when you are vanished and placed in the "Also Ran" class. It's all due to the fact that some residents of Summer Lake Valley have grown some peanuts that are better flavored it is said than the choicest tuber that your land and climate have produced. In times past we have knelt at thy feet when it came to peanuts, whether raw, roasted or in butter. But this a new era and Lake County is going to produce a President of the United States because peanuts are to be grown here. There is no doubt about it. Fred Foster and W. M. Marsters of Summer Lake have demonstrated by growing them on their ranches. Peanuts and Presidents grow together and the reason that many other states have not entered the race was that they were unable to produce the goods, but that is a thing of the past now that Summer Lake and Lake County are on the Political map. In addition to the peanuts Mr. Marsters has produced some ground almonds that are said to be well flavored and suitable for domestic or political use.

Off for the Pen

Sheriff Warner B. Snider and Dan P. Malloy with George Hankins at the wheel, left Monday with the two prisoners sentenced to serve terms in the State Penitentiary at Salem. The men committed were Hugh Reynolds, who got from two to five years for burglary, and Alex Anderson, who drew a three year term for two to twenty years for forgery. The latter being the result of using his dead father's name on a check and to which charge he pleaded guilty when brought before the Court.

"WETS" WIN BY LARGE MAJORITY

Fort Rock Only Precinct In Which Drys Get a Majority

Northern Lake County went "wet" by a large majority with the exception of the Fort Rock precinct in Christmas Lake or Pleasant Valley which decided by one vote to remain "dry." The surprise of the campaign was the large majorities that rolled up in the "wet" column, especially in precincts that were looked upon as being closer, though conceded "wet" by a small vote. The figures given below are compiled from the official count made by County Clerk F. W. Payne, Wm. Wallace and G. H. Aluridge, members of the County Board of Canvassers. The total vote was "wet" 179, "dry" 84, or a majority for the wets of 95 votes of 265 cast at the special election.

Paisley, 28 for prohibition and 80 against.

Summer Lake, 5 for, 15 against.

Silver Lake, 22 for, 53 against.

Lake, 7 for, 19 against.

Fort Rock, 22 for, 21 against.

The saloon men of the various precincts will now have the opportunity to comply with the law and upon their behavior remains to be seen whether they are to continue to sell liquor under the protection of the law or whether another reign of law breaking is in evidence.

It pays to advertise—There is no doubt about it—and Wm. Pfarrang will tell you that its the truth and we tell it as a fact as he spent thirty cents, advertised once, for a part of his harness that was lost and got it back. There is another lesson to be learned by this also and that is that the man who found the harness was honest. That's why it pays to advertise in the Examiner as its readers are honest. But no matter how honest they may be none of them are mind readers, consequently you have to tell them what you have so they can be "Ad" readers. A mind reader is a fine personality, but its a lot more popular to be an Examiner Reader.—Snookshake.

SILVER LAKE VALLEY PRODUCES CROPS

Some Record Breaking Yields Show Effect of Cultivation

A turnip 42 inches in circumference and enough of the product on half an acre of land to produce \$200 cash—real money—spondulix-mazuma—chink—cash the where with-the necessary—the long green—the stuff—and the actual coin of the realm, is what B. F. Oatman who has a homestead nine miles north of Silver Lake has done and there are other crops on the same land that has made this particular garden the talk of the entire country for many miles around the Crook and Northern Lake areas. Alfalfa and vegetables such as rutabagas, beets, carrots, cabbage, and many others have yielded proportionately well and there was not a single drop of water on the entire garden more than Nature in Her bountifulness produced. Mr. Oatman is going to sow a large area to alfalfa as he believes that it will be a big money maker from the standpoint of forage and also for its seed bearing qualities, which he believes will open a new field to the settlers of his part of the county. When asked what he thought of that part of the state needing irrigation as a project is under way, he stated that while water is a fine thing to have at anytime that a man needs it, still he is not going to lie awake nights thinking the matter over or wondering when the plant will be completed but will go right along and grow the things that pay the best and let the man that wants to worry do it. He says that irrigation wont make much difference to the man that means business either way except that irrigated land will sell for more money and easier regardless of how much more it will produce. Is it any wonder that Northern Lake County is coming ahead with giant strides?

"PETE" FOLLETT EREE

Continued from first page

jurors called for additional instructions from Judge Henry L. Benson, after which they deliberated all night, sending word to the Judge and attorneys that they had reached a verdict about seven o'clock in the morning, and half an hour later the prisoner listened to the words that made him a free citizen and enabled him to return to his home and those that were awaiting him. Follett left for New Pine Creek a few hours after the verdict was rendered accompanied by his brother Ed and his aged father Captain Follett, a veteran of the civil war, who was the happiest man in the entire county over the verdict.

Chautauqua Circle

The Chautauqua Circle will meet at the home of Miss Snelling Monday evening, Nov. 20. Program: Roll call, current events, "Sports," "Review," Robinson, chapters 15 and 16, Miss Gertrude Vernon, "The American Purpose Novel," The Chautauquan, Mrs. L. Vandervoort, "The Steam Engine and its Influence," The Chautauquan, Mrs. J. D. Venator.

Let the Examiner figure on your next Job Printing.

MUST COMPLY WITH NEW STALLION LAW

Warning Issued to Horsemen by State Registration Board

Attention of the owners of stallions and jacks is called to the new stallion law which went into effect on May 20, 1911. A number of horsemen have not yet complied with the provisions of this law. It is necessary that all stallions and jacks used for public service must be licensed by the State Stallion Registration Board at Corvallis, and that they must be inspected by an official inspector appointed by this board. Attention is also called to the fact that, according to this law, stallions which are in the State at the time when the law goes into effect and licensed during the first season will be licensed even though unsound, although such unsoundness, if present, will be stated in the license. All horses, however, which are not used for public service and licensed during the first season will be refused license and not allowed to stand for public service unless they pass the proper veterinary inspection. It is very important, therefore, that all horsemen who are delinquent in this matter get in their applications at once. Stallion owners who have already received licenses for their horses will confer a favor upon their neighbors by calling their attention to the fact.

Horsemen are also urgently requested not to purchase stallions or jacks until after they have been inspected by one of our state inspectors and have received their state license, for otherwise it may prove that such stallions or jacks may prove unsound and hence not eligible to be used for breeding purposes in this state, or it may be found that their pedigrees are bogus and that they will have to be licensed as Grades or Mongrels instead of Pure Breds as represented.

Stallion Registration Board Corvallis, Oregon.

Mrs. Norin Entertains

It was a happy party that gathered at the home of Mr. and Mrs. Jonas Norin to help them entertain Mrs. Charles Sherlock, who is departing for a trip to Los Angeles where she will spend the winter. The new house, which is about two miles from town, is a credit to the artistic taste of the designer and will meet the needs of that happy couple, who will see that it is given a name for hospitality. The guests on the occasion were Mr. and Mrs. Charles Sherlock, Mr. and Mrs. Arthur W. Orton, Mrs. Della Cobb, Mrs. Anna Neilon, Thomas H. Sherlock and W. F. Paine. A fine turkey dinner was served by the hostess who had prepared the home for the occasion and all enjoyed one of the most delightful times of the year. The parties went to the place in their automobiles.

A Sure Booster

Col. John Aden, whose fame as a successful homesteader and raconteur is not confined to Goose Lake Valley, is now in the fuel, feed and storage business at Wichita, Kansas. In a letter to the Examiner man he states: "There is sure a warm spot in my heart for the Golden Goose Lake Valley, and I will probably be out by the middle

of next summer." The Colonel will certainly receive a warm welcome when he arrives.
