

PRIZE CUP FOR OREGON

The Great Northern Offers Fifty Dollar Silver Trophy Cup for Best Display at St. Paul Land Show

Another cup has been put up by the Great Northern Railway for competition at the great Land Show to be held in St. Paul December 12 to 23, 1911. This trophy cup will be a handsome silver cup and can be won by any county, commercial club or individual in the big State of Oregon.

The county, commercial club or individual which makes the most attractive exhibit of Oregon's grains, grasses or fruits will win this cup. Perhaps you are going to exhibit as an individual, and if not, probably you will exhibit through your commercial club's or county's exhibit. In any case, even if you are going to exhibit individually and also through either your county or commercial clubs exhibit, you should do everything in your power to assist in gathering the best farm products in your section. Help boost. Try to win this cup for yourself and your section. Considering the fine condition of Oregon's crops this year, and the splendid showing Oregon's exhibits are making everywhere at

the different land shows, it will be an honor, indeed, to win the Great Northern cup for the best exhibit made at the St. Paul Show.

TO INCREASE HIGH COST OF LIVING

New York apple growers have started an agitation which, it is claimed, will result in each man, woman and child in the Empire state eating not fewer than five apples a day. Two reasons are given for the appeal. One is that it will promote the health of the community; the other that it will create a steady demand for fruit that will promote the wealth of the fruit growers. Nor is the apple propaganda to be confined to New York State. It is to be extended to the entire country. The fruit growers figure that if each of the 900,000,000 persons in the United States will eat five apples a day it will result in a daily consumption of 450,000,000 apples. When the fruit growers are asked if they could meet such a demand they assert they could, and say the crop this year does not include those sent to canneries and drivers. Attention is brought to the fact that hundreds of thousands of trees are being set out in all sections of the country, and that if fruit growers get the chance they will make the supply at all times equal to the demand on the five-apples-a-day basis.

"If everyone will eat five apples a day it will be useless to organize a national board of health," one fruit growing propagandist said. Half the doctors would be put out of business, too. One apple before breakfast, one after breakfast, one after supper and one before retiring is the prescription, and it is a good one. We are the conservators of the health of the nation, and we favor five apples a day and closer relations between the producers and consumers."

Mr. Einsinger, of Manhattan, Montana, won the Pabst cup for the finest exhibition of barley. This contest was open to the world. Mr. Einsinger's exhibit was from a field which averaged 66.8 bushels to the acre and weighed 57 1/2 pounds to the bushel.

Messrs. Van Cleve and Suduth of Broadview, Montana, on the line of the Great Northern Railway in Yellowstone County, won the silver cup for the finest exhibit of alfalfa.

On oats the silver cups went to Messrs. Patten and Hartman of Bozeman. The oats of their exhibit was of a field of 154 bushels to the acre, weighing forty-five pounds to the bushel. Four years ago almost any farmer in the East would have scoffed at the idea that Montana could produce prize winning crops of any kind of grain. The exhibits at the New York Land Show have brought more honor to Montana than any other incident in the history of the state. Montanans have a right to be proud of their home state, and the next few years will witness a tremendous immigration to that state as a result of the publicity given it through the New York Land Show.

MONMOUTH NORMAL HAS FINE FACULTY

The Oregon Normal School is fortunate indeed in having such an excellent faculty. President J. H. Ackerman does not need to be introduced to the people of Oregon for so many years he has familiarized himself with every teacher in the State of Oregon besides many others.

The ability of each member of the faculty can not be questioned as they are thoroughly trained for the work of educating teachers along their line of work.

The necessity of having trained teachers in the Oregon schoolrooms is becoming more and more evident each year. The opening of schools every fall bring a great number of new teachers from other states into Oregon and these teachers secure the best positions, because they are trained for their work. Therefore they are replacing our Oregon teachers in various places and they will continue to do so until the necessity of their coming is eliminated by trained teachers who will be graduated year by year from our Oregon Normal Schools.

The diploma issued by the State Normal is now recognized by twenty three states without question. And the holder is entitled to teach in any public school in the state also in one, two and three year high schools, without taking examinations and will be admitted to the State University as a Junior.

Although we have no dormitory at Monmouth, our students have been admirably provided for by the kindness of the Monmouth residents. Board and rooms are furnished at reasonable rates and home privileges are provided.

Arrangements have been carried out by a committee of the faculty by which students may be profitably employed on Saturdays.

Among the most important organizations of the school is the Normal Orchestra which is being trained by Miss Harlan, our instructor in music. She has also organized a girl's glee club and will organize a similar club for the boys in the near future.

Since the beginning of school the Y. W. C. A. has been organized.

Last Saturday Miss Parrott, our English instructor organized a reading club for the benefit of the Normal girls.

Each of the Literary Societies of the former Normal years; that is the Delphian and Vesperine for the girls and boys, has been reorganized.

The principal social event of the second month of school was a Halloween dance given in the Gymnasium by the members of the Normal Literary Society. Both faculty, students and guests enjoyed a most pleasant evening.

A NORMAL STUDENT.

A MAIL CARRIER'S LOAD.
Seems heavier when he has a weak back and kidney trouble. Fred Bushren, mail carrier at Atchison, Kas, says: "I have been bothered with kidney and bladder trouble and had a severe pain across my back. Whenever I carried a heavy load of mail my kidney trouble increased. Some time ago, I started taking Foley's Kidney Pills and since taking them I have gotten entirely rid of all my kidney trouble and am as well as ever." For sale by A. L. Thornton

WINNERS AT NEW YORK LAND SHOW

In competition with the most renowned agricultural sections on the American continent, the States of Minnesota, Montana and Washington have triumphed at the New York Land Show held at Madison Square Garden, November 3 to 12.

James Todd, of Gevser, Montana, won the J. J. Hill \$1,000 silver cup for the best 100 pounds of winter wheat grown in the United States this year. Against competition from almost every state in the Union the fertile Judith Basin of Montana came out on top. The prize grain was of a yield of seventy-five bushels to the acre and weighed sixty-five pounds to the bushel.

Mr. Einsinger, of Manhattan, Montana, won the Pabst cup for the finest exhibition of barley. This contest was open to the world. Mr. Einsinger's exhibit was from a field which averaged 66.8 bushels to the acre and weighed 57 1/2 pounds to the bushel.

Messrs. Van Cleve and Suduth of Broadview, Montana, on the line of the Great Northern Railway in Yellowstone County, won the silver cup for the finest exhibit of alfalfa.

On oats the silver cups went to Messrs. Patten and Hartman of Bozeman. The oats of their exhibit was of a field of 154 bushels to the acre, weighing forty-five pounds to the bushel. Four years ago almost any farmer in the East would have scoffed at the idea that Montana could produce prize winning crops of any kind of grain. The exhibits at the New York Land Show have brought more honor to Montana than any other incident in the history of the state. Montanans have a right to be proud of their home state, and the next few years will witness a tremendous immigration to that state as a result of the publicity given it through the New York Land Show.

The fruit growing districts of Washington won the handsome prize offered by President Elliott of the Northern Pacific Railroad. \$500 in gold, and the \$1,000 silver cup went to Mrs. Ella D. Rowland, of North Yakima, who exhibited twenty-five boxes of apples. Mr. A. G. Hauner, of Spokane, Washington, offered the \$1,000 silver cup.

A. B. Hostetter, of Duluth, won the second ribbon for the best potatoes in the world. Some of the judges thought that he should have been awarded first prize, but there was "glory enough for all" and his winning the second prize in a world wide competition shows what the fertile soils of Northern Minnesota can produce. Minnesota also won a second prize for the best bushel of barley grown in the world, as A. D. Vansickle, of Warren, Minnesota, was the alternate of Mr. Einsinger, which means second prize.

Uncle Sam, Peacemaker

Uncle Sam seems to be looked on by other nations as a great mediator.

Whenever there is trouble anywhere else on earth everyone looks to the United States to step in, take the combatants by the scruff of the neck and ston the row.

Turkey is the latest applicant for mediation. The "terrible Turk" was going about his accustomed ways when Italy knocked him down and tramped on him. Everyone held his breath, awaiting the Turk's reprisal. What happened? Turkey yelled "take him off, fellows; I didn't do nothing!" And now Turkey, insisting that fighting is furthest from its desire, wants Uncle Sam to make Italy quit. What will Uncle Sam do?

At the annual convention of the dairymen of Oregon in Portland, December 5 to 8, inclusive, Professor H. D. Scudder, of the agronomy department of the O. A. C., will lecture on "A \$100 Crop for the \$100 Cow." Professor Scudder has originated a new system of dairying, based on the work at the college farm and laboratories. By his system of crop rotation and soiling he has figured that an acre of ground should support a good cow for a year, and thus give her produce at a much reduced cost, at the same time bringing the land up to its greatest possible fertility.

"I do not believe there is any other medicine so good for whooping cough as Chamberlain's Cough Remedy," writes Mrs. Francis Turpin, Junction City, Ore. This remedy is also unsurpassed for colds and croup. For sale by all dealers.

In various quarters the war on tipping is having results. In Philadelphia the managers of several hotels have agreed on a reform, and last week the Continental began by breaking off the contract for the "cloakroom privileges" which had been given to a New York firm for five years. In this case the full absurdity of the tipping system was shown. The boys, supposed to be benefiting by the liberality of patrons, were really paid \$4 a week and put all ties into a box for their employer. To guard against their retaining any part of what was given their uniforms were made without pockets and they were vigilantly watched.
