**Notice to Subscribers**  
Subscribers to the Examiner who remove from one locality to another, or change their postoffice address, should remember to drop this office a card so their paper can be addressed to the right postoffice.

Lakeview, Oregon, Thursday, December 14, 1911

During the past year Klamath county has expended \$101,842.59 upon her roads, covering 300 miles. Of this amount \$4,098.01 was expended between Bonanza and Biv and on the reservation road, while \$2,545.26 was expended in Sursaque river valley.

Senator Bourne has an article in the last issue of the Saturday Evening Post on the parcels post question. He advances some new argument therein and makes it plain why such service would be beneficial to the common people, at least from his standpoint. The article in question is well worth a careful perusal.

The per capita circulation of money in the United States is \$34.54, according to a statement issued by the treasury department. Besides their calculation on the census of 1910 they estimate that there were 94,679,000 souls in the United States on December 1. The last census showed that the population in April, 1910, was 91,972,266.

President Gompers, of the American Federation of Labor, has repeatedly emphasized the fact that he had every reason to believe the McNamara innocent, giving as a reason therefor that he had their assurances to that effect. No doubt Mr. Gompers desired to believe them innocent, otherwise he would have withheld his opinion or else taken some action to corroborate their statements. However, it is not likely that he will retract the error should occasion arise.

Gov. Woodrow Wilson in a signed statement issued regarding a story printed that he had applied to the Carnegie foundation for a pension, admitted that he had made such application before his election as Governor of New Jersey. The governor justified his action on the grounds of long service as a teacher; that he had no private means to depend upon, and that "a man who rose into politics from the principles of honor and his family and all who may be dependent upon him for support at the mercy of any incalculable turn of the wheel of fortune."

Alturas is certainly making good, and the enterprise of our neighbor is certainly worthy of encouragement. During the past few years she has expended \$7000 for a fine stone bridge across Pit River, \$50,000 for a high school building, \$20,000 for a grammar school building, \$35,000 for a water system and voted \$30,000 for a Court House, and after all this there is an indebtedness of but between \$9000, and \$10,000. One not familiar with the conditions would naturally suppose that the money had been expended to the best of advantage else the deficit would have been much greater for we all know that almost invariably public improvements cost much more than the estimated cost. We of Lakeview extend congratulations to Alturas.

F. N. Meyers, the aged president of the defunct Mount Scott, bank who pleaded guilty to an indictment charging him with receiving deposits knowing the bank to be insolvent, was given the maximum penalty last week by Judge Gatens at Portland. Meyers was making an effort to repay the depositors but had been unable to make good, the time for sentence having been suspended 90 days. His sentence was two years in the reformatory and a fine of \$1000. The sentence may be just, but just the same the next man who gets in the fix that Meyers landed in will no doubt look the bank of its last cent and take chances on making a getaway. At any rate it is a sure shot that the depositors will now have no chance whatever of securing the return of their deposits.

Should the world advance as much during the next quarter of a century as it has during the past some of the extreme along conservation lines would be in a hard fix. For instance it is but a few years since the officials of the old Oregon & California Railroad Co. were more or less excused over the fuel question. The lumber along the line of road was being rapidly depleted and the cost of wood for the locomotives was increasing rapidly. The California oil fields then came into prominence and were used as a fuel for locomotives in a large part of the past. And now electric engines to be supplied oil in the same way. Now, about 1000 miles of line of planting wood by hand, by machine, by white wood, coal and oil are giving way to electricity. It is not at all unlikely that the same will be done a lot of dead stock on the way out of wood, coal, etc., about 1935.

### New Pine Creek Items

The entertainment given by the Ladies Aid Society was a great success from start to finish, the proceeds lacking just a few cents of \$40. The program which was given in the Opera House was exceptionally good, showing what fine talent New Pine Creek has. After the program all proceeded to the Ladies Aid hall where a bountiful supper was served. Much praise is due to all who helped make the entertainment a success. The ladies have demonstrated what they can do and in the future all Ladies Aid entertainments will be held with pleasure, and they can feel assured of the support of the New Pine Creek people.

There will be a public Christmas tree in the Opera House Monday night, Dec. 25th. The program will be furnished by the Baptist and Union Sunday Schools. Every one welcome.

H. M. Fleming spent Monday in Lakeview.

Mrs. J. A. Ewing is on the sick list. Mrs. Conrad delightfully entertained the Ladies Aid at her home Friday afternoon, Dec. 8th. After the regular business meeting a social time was enjoyed till the close of the afternoon when dainty refreshments were served by the hostess, assisted by Mrs. Bert Wade and Miss Cannon. The Ladies Aid have rented the Burton building and will use part of it for the Ladies Aid parlour and part for the Reading Room.

Tom Dunstan left last week to spend the winter in Bidwell.

The new side track has been completed and work begun on the new depot.

Mr. Rice, editor of the Herald of Lakeview, came down Friday and spent several days here on business.

The windows and doors have arrived for the new Schauers home and it will soon be completed.

While in New Pine Creek look over the Christmas display and make your selection early.

Harry Hervford and family, formerly of New Pine Creek and who have been visiting in Lodi, Cal., for some time, left there this week for their new home in New Mexico. Mr. Hervford has purchased a farm there. His many friends in New Pine Creek wish him abundance of success in his new home.

Mr. Isaac Robinette made a business trip to Davis Creek Saturday.

Walter S. Mattis, mail man for the Consolidated mines, leaves Tuesday for Denver, Colo.

Mrs. Wise, sister of Mrs. Amsden, leaves Wednesday for her home in Susan, Cal.

What might have proved a serious accident happened to Dr. Amsden Monday when he came very near running a hat pin in his eye. There is an old saying "when people will play with fire"—sometimes they get burned.

The little son of Mr. and Mrs. Leo Mulkey while playing Sunday fell and broke his arm. Dr. Amsden was called and set the broken arm.

It is desired that everyone's attention be called to the fact that Herschel Fleming arose at a nearly hour Monday.

Miss Ardna Charlton, who was called home from her school duties at Lakeview on account of the serious illness of her mother, Mrs. Amsden, will return after the holidays.

The Harter babies are on the sick list.

### Paisley Pick-ups

(Chewington Press)

G. W. Cooley contemplates a visit to his people at Cottage Grove in the near future.

The electric lights furnished by the Sprinz Grove Electric Company are highly satisfactory. They give the town quite a metropolitan appearance.

The new Marshal is getting the cushions that everybody predicted would be his lot, but he is going right ahead with his duty just the same.

Ed Lamb, who was badly shaken up in a runaway last week, is on his feet again. He will have to move slowly for awhile yet, however.

The first money expended by the town of Paisley is for repairs to the calaboose. This will be fitted up in modern style and the comfort of its patrons will be a first consideration.

The Central Fremont Cattle and Horse Association, at their recent meeting, requested the Forest Service to refuse grazing permits in the National Forest to cattle which have not been dined. This is a good move and will probably be the means of preventing the disease from again becoming prevalent.

### Valley Falls Items

G. E. Smith, of the Wagonite country, was a visitor Sunday. He reports many new settlers coming in from the North.

Martin and Wm. Kennedy made a trip to Lakeview Monday.

Ernest Meyer is in the Silver Lake Country where he has considerable engineering work to complete.

Max Hutchinson has his log house about completed.

G. S. Stone has his barn completed and is now building a house.

Bill Simmons made a trip to Lakeview last week where he purchased a motorcar.

Chas. Green is now at the Harrison Price place where he intends to trap this winter.
