CONSTRUCTION TO BEGIN AT ONCE

Ontario Optimist, Dec. 21: Preparations continue steadily for an early beginning of construction work on the Oregon Eastern Railway. Men, horses and mules, provisions and machinery are being gathered at Vale by the Utah Construction company, to be forwarded by wagon to the Malheur canyon west of town, where the first work will begin. Monday morning of this week four teen cars of supplies were taken to Vale on the regular morning train, and yesterday morning several more cars went in. There were many plows, wheel-barrows and scrapers, horses and mules, and several cars of provisions for the use of the men. These are being gathered from Shoshone and Richfield, Idaho, and Ogden, Utah, where they have been on other work for the Short Line.

Every day sees many men going to Vale. Some of these are regular employes of the contractors, and will be out on the work as soon as it begins. Others are teamsters and freighters who are going in to get work. Several officials of both the construction company and the engineering department of the railroad have been going to Vale recently, and several conferences with the survivors working in the canyon have been held in the past two weeks. At the rate machinery and supplies are now being moved in, it is believed that actual moving of dirt will begin in the canyon within a week or two. The ranchers around Vale and up Willow creek are all disposing of their surplus hay to the construction crews to feed the livestock.

A STEAM PLOW IN OPERATION

Prineville Review: The steam plow is following in the wake of the combined harvester in the rapid development of Crook county.

Last Sunday a number of citizens of Prineville hired an auto truck for a trip to the Kenwood ranch about nine miles from town. That was the time and the place set for the trial of a big Russell traction engine bought for the purpose of farming on a big scale.

When the auto party reached the Kenwood place, formerly the Gibson ranch, it found the engine had stalled for a supply of water. With sufficient water aboard, plowing was resumed in a big eighty acre field. Behind the engine was hitched a gang of fourteen inch plows. These plows were set about four or five inches deep or account of the condition of the soil. They can be made to plow eight or ten inches deep. The big engine pulled them along at the rate of three miles an hour without any seeming effort. The engineer stated that he could feel no difference in his engine, so far as the pulling was concerned, whether the plows were in or out of the ground. Eight in a gang was really no test. Twelve or sixteen would be more like it. Besides the plow harrows can be attached as seeders follow the harrows. Thus you can plow, harrow and plant your grain at one operation.

When asked if there was anything doing in railway line, Mrs. Kenwood laughed and said, "Wait and see. There are just a few little ends to pick up and before you know it, you people over there in Prineville will see the rails and ties. I have been summoned to St. Paul by telegraph and I am going next week. I would go sooner but I want to get this engine at work. Next week, though, I'm off. I don't believe in talking about what you are going to do, but just get in and do it."

When asked whether the tonnage was to come from Mrs. Kenwood waxed eloquent. She has the most optimistic real estate man distanced a mile. She has several good things up her sleeve for Prineville that will create tonnage.

JAPANESE FORSEE CHINESE REPUBLIC

Tokio, Dec. 25.—A conference of members of the Japanese cabinet, at which many of the elder statesmen, including Prince Katsura, the former premier, were invited to assist, was held here Sunday. The strictest secrecy has been maintained regarding the subjects of discussion, but it is generally believed the latest developments of the situation in China were under discussion. It is understood that the conference reached the conclusion that the adoption of a republican form of government by China was apparently inevitable.

Information from a reliable source has reached here that the revolutionaries in China continue to insist firmly on a republic and that the peace negotiations now proceeding at Shanghai will result in a rupture unless the imperial authorities in Peking should yield to their demands in this respect.

Most of the powers apparently are reconciled to the inevitable tendency of the situation. Neither Japan nor Great Britain has any intention of intervening in any way in China, much less of imposing any form of government on that country.

The general feeling here is that the only alternative for the present situation is for the representatives of the imperial government in Peking to yield.

Tires of Jail Diet

Milwaukee—Ten days on bread and water in the house of correction will induce any parent, who has erred, to support his family, in the opinion of Peter Jurowski.

Jurowski, who is the first offender to receive this unusual sentence in the municipal court was released and never appreciated freedom more than he did upon leaving the jail.

Jurowski was arrested for abandonment, but contended that his mother in-law was responsible. He was bound over and appeared before Judge Backus.

"You are sentenced to ten days in the house of correction upon bread and water, and at the expiration of that time come and tell me how you like it," the judge ordered. "Your family has suffered and I am going to give you an idea of what it means."

"People do not realize what it means to be fed on bread and water for three days," Jurowski said to the probation officer. "I appreciate the fact that my family suffered."

George Cassett, a saloonkeeper at Astoria, was beaten by a drunken soldier and then magnanimously paid the offender's fine in court.

Do not allow your kidney and bladder trouble to develop beyond the reach of medicine. Take Foley Kidney Pills. They give quick results and stop irregularities with surprising promptness. For sale by A. L. Thornton.

The University of Oregon has won its fight for an appropriation. Judge Galloway made permanent the temporary injunction enjoining Secretary of State Olcott from filing the referendum petitions against the appropriation. The judge held that many names on the petition were fraudulent, or not sufficiently genuine to comply with the law.

Unanswerable Argument

The poor relation had not been invited to the formal function at the great house, but he went to the door in spite of that oversight.

"Where's your card," inquired the Gentleman in Waiting.

"Haven't got any," said the poor relation, meekly.

"Nobody can get in without a card."

"Well—I'm nobody," murmured the poor relation, but the First Gentleman in Waiting could not grasp the delicate humor of it and the poor relation was turned away.—Lippincott's.

DARING NURSE WINS STOCKMAN

Los Angeles, Dec. 25.—The culmination of a romance that had its inception near Old Fort Lyon, on the state line between Idaho and Oregon 18 months ago, came today in Los Angeles, when the two principals, Mary D. Linehan, a trained nurse, and Grover C. Knight, a wealthy stockman of Seheaville, Or., were married at the rectory of St. Vitas Cathedral.

Early in June, 1910, while riding the range in search of a stray band of cattle, Young Knight suffered a sudden attack of appendicitis. So intense was the pain that he fell from the saddle.

The nearest surgeon was in Boise, a distance of 70 miles. In Boise it was found that the only available nurse was Miss Linehan. From Caldwell, the nearest town on the railroad, 50 miles from the Knight ranch, the surgeon and nurse set out in an automobile. When ten miles of the distance was covered the machine broke down. Miss Linehan rode horseback the balance of the trip over an unknown and poorly marked trail. She saw an operation was imperative and made the necessary preparations. After two months of nursing, Knight was restored to health and the nurse departed for Elko, Nev., to pursue her profession and later came to Los Angeles.

THE DATES FOR PORTLAND'S NEXT ANNUAL ROSE FESTIVAL HAVE BEEN FIXED FOR THE WEEK OF JUNE 10-15.

Plans for the event have been laid up and the management will prepare a festival on a bigger scale than ever before.
