CHINA IS NOW MADE REPUBLIC

The abdication of the Chinese throne by Pu Yi, the child Emperor, brings to an end the powerful Manchu dynasty which has reigned in China since 1644. The boy ruler has been on the throne since November 14, 1908, when the Emperor, Kwang Su, his uncle, died. His father, Prince Chun, was appointed Regent, and was the chief figure in China for three years.

Surrounded by a large number of princes of the imperial clan and Manchu officials with reactionary ideas, the Regent was brought face to face with a revolutionary movement in favor of modern reforms. He endeavored to placate both parties, but ended by causing general dissatisfaction, which led to his resignation on December 6, 1911.

Revolutionary ideas had been spreading in the meantime, and the southern provinces declared movement in favor of against the continuance of Manchu rule and broke into open revolt. After much fighting, the revolutionists proclaimed a republic at Nanking in December, 1911, and Dr. Sun Yat Sen accepted the Presidency on December 29, 1911.

Negotiations between the republicans and the imperialists followed and an armistice was arranged. The edicts today are the results of the negotiations.

Chinese consular officials in the United States were ordered to adopt American style of dress, by an edict received in San Francisco from President Sun Yat Sen of the new republic containing the formal announcement of the abdication. Consuls were instructed to remain at their posts until their successors were appointed.

Fung Chi You, private secretary to President Sun has been appointed director of the consular bureau, according to a cablegram received by the Chinese Free Press. The post is an important one as it controls, in a measure, Chinese emigration and the commercial relations with other countries.

Fung Shew Chim has reigned as a member of the commission of commerce and posts, and Chan Kee Me, governor of Shanghai, has been named as his successor.

The Chinese Republic Association, an organization planned to represent the Chinese republic in the United States, and to oversee the affairs of the Chinese in North and South America, has been tentatively organized, and March 24 has been set as a date for a big meeting to perfect the organization, accept the charter and elect officers. The first diplomatic move was the dispatch of a letter to President Taft, urging the United States to recognize China.

Prevent Plant Disease
Canada is about to put up the bars against potatoes from the United States, fearing the dread black wart, according to department of agriculture officials. The "wart" does not exist here but there is no quarantine law which would keep infected potatoes from Europe out of American ports, whence they might make their way into Canada.

For this reason the department of agriculture is particularly anxious to have congress pass a bill already introduced which would regulate the importation of nursery stock and establish a strict quarantine against plant diseases and insects pests. Similar bills have been defeated a number of times, but the government officials said that they thought the nursery would pass this year. Nurserymen, it is understood have withdrawn their opposition, several slight changes in the bill have made it meet their ideas.

LAKE COUNTY MEN JOIN TAFT CLUB

Returns From Over State Show Favor For Taft

Responsive to telegrams sent out by the Portland Taft committee to prominent Republicans of the state suggesting the formation of Taft clubs, word has been received at Taft headquarters of the appointment of such committees in eight additional counties. The counties reporting were: Lake, Coos, Baker, Umatilla, Douglas, Wasco, Morrow and Klamath. This makes a total of 15 counties in the state in which supporters of President Taft have formed organizations and are working actively in his behalf. The other counties follow: Multnomah, Washington, Marion, Union, Harney, Tillamook and Josephine. Especially encouraging are the letters that are pouring into Taft headquarters, says the Oregonian. Equally optimistic and embracing the assurance of hearty support are many of the country newspapers. Among these are several which volunteer their support and active efforts without remuneration in any form. "We want Taft" is the dominant sentiment expressed by these papers, which show not only a willingness, but a desire to do all within their power to bring about his nomination and re-election.

Following is the personnel of the organization reported from Lake county: F. P. Light, A. H. Hammerslev, D. J. Wilcox, W. B. Smider, Virgil Conn, F. P. Cronmiller, F. M. Christman, W. C. Buick, Theodore Fleming, L. D. Prakes, E. A. Friday, Harry Bailey and E. M. Brattain.

Governor Indignant
Governor West at Country Life Banquet: "The earping critics who oppose our good roads policy should be prepared to offer something better in its stead. When the attorney general adversely criticizes that policy he should accompany his statements with a suggestion of some better method. I am going to spend the rest of my term agitating the question of good roads, and to get relief you will have to effect some kind of legislation in order to shut me up. My policy regarding the bond method of raising money for road building will crush any governor who undertakes it. He is the man who will go down and out. But I am willing to take the chance. I am not a candidate for office, but am here to do something."

Doyle Advancing
Reno Journal: Considerable activity is noticed at Doyle on account of the establishment of additional automobile freight and passenger service between that point and Susanville, California, rendered it necessary on account of the increasing passenger and freight business of the N.-C.-O. and Western Pacific railroad companies. W. H. Earl and J. H. Rundell left Reno yesterday taking with them a six-cylinder, 7-passenger automobile and a 5-ton truck. The truck was exhibited on the streets of Reno Saturday. Mr. Rundell is manager of the North East California Transit company, which will operate between Susanville and Doyle. Many strangers from the east are investigating the resources of the country along the line of the Western Pacific railroad.

A Japanese syndicate is considering the establishment of a fishing colony of 20,000 Japanese a Magdalena Bay in Lower California. The fishing concession is now held by a Spanish capitalist who resides in Los Angeles. It is probable that the United States Government will take steps to prevent the sale of land and rights to the Japanese people. Government engineers have reported Magdalena Bay to be the strategic base of Lower California.

PORTO RICO HAS LARGE BUSINESS

Trade between Porto Rico and continental United States in the calendar year just ended amounted to 72 million dollars, or 18 times as much as in 1897, the year preceding the annexation of that island by the United States. The precise figures of the trade with Porto Rico are, according to the December Summary of Commerce and Finance, recently issued by the Bureau of Statistics, Department of Commerce and Labor, as follows: merchandise sent to Porto Rico, \$36,739,646; received from Porto Rico, \$35,446,186; a total of \$72,229,832. In 1897, the last year in which Porto Rico was foreign territory, the figures were: exports thereto, \$2,023,751; imports therefrom, \$1,943,251; a total of \$3,967,002. Thus shipments of merchandise to the island gained in the period from 1897 to 1911 \$34,769,895 or about 1720 per cent, while receipts of merchandise therefrom increased \$33,502,935, or 1725 per cent.

The trade with Porto Rico since its annexation has grown more rapidly than with any other commercial community of importance, and now exceeds the value of our trade with Spain, or China, or India; is nearly equal to that with Argentina, and is more than that with all British Oceania including Australia to with the entire continent of Africa. During the period since 1897 in which shipments from the United States to Porto Rico increased 1720 per cent exports to Canada, with which our trade has grown unusually rapidly in recent years, increased 300 per cent, those of Cuba 570 per cent, to Argentina 745 per cent, China 100 per cent, Japan 175 per cent, Germany 117 per cent, and to the United Kingdom 11 per cent.

Manufactures and foodstuffs form by far the largest part of the domestic merchandise shipped to Porto Rico from the United States.

CAPT. LEE SENT TO CONVENTION

Klamath Chronicle: Captain J. P. Lee, county assessor, left for Portland yesterday morning, to attend the assessors' state convention. There he will renew his pet theory on the mortgage question, a feature of legislation he has been agitating for years. He has held that in the case of mortgaged property, where the mortgagee is already paying heavy interest, the assessment should be charged against the party who holds the mortgage and not against the person who is already paying on his purchase price. In other words, he thinks the buyer or property should not get it "going and coming." Or if that system doesn't work he has an alternative. He has an exemption scheme, which has, at least, the merit of strong plausibility. The exemption proposition prevails in some states and is held to be perfection. If there is a mortgage on the land the amount of the assessment on that land is taken off the land. The idea is not to crush the inventor, but to aid him in, so to speak, "rooting the soil" and not to be crushed by capitalistic or Shylock moneyseekers.

Caution Lee's fight on the matter will be awaited with interest by the people of this county. It is said the majority of the assessors are strongly with him in his battle.
