NOTICE OF CONTEST

Department of the Interior, United States Land Office, Lakeview, Oregon, February 23, 1912.

To Cornelia McSweeney, contestee. You are hereby notified that John Walshe who gives Lakeview, Oregon, as his postoffice address, did on February 23, 1912, file in this office his duly corroborated application to contest and secure the cancellation of your homestead entry No. 3626, serial No. 01348 made July 9th, 1908, for SW 1/4 of NW 1/4, NW 1/4 of SW 1/4, section 27, and SE 1/4 of NE 1/4 and NE 1/4 of SE 1/4 section 28, township 36 south, range 9 east, Willamette Meridian, and as grounds for his contest he alleges that you have wholly and voluntarily abandoned said land more than six months prior to said February 23, 1912, and continuously remained away from said land for more than six months prior to said February 23, 1912, without just cause or any reason of excuse.

You are, therefore, further notified that the said allegations will be taken by this office as having been confessed by you, and your said entry will be canceled thereunder without your further right to be heard therein, either before this office or on appeal, if you fail to file in this office within twenty days after the fourth publication of this notice, as shown below, your answer, under oath, specifically meeting and responding to these allegations of contest, or if you fail within that time to file in this office due proof that you have served a copy of your answer on the said contestant either in person or by registered mail. If this service is made by the delivery of a copy of your answer to the contestant in person, proof of such service must be either the said contestant's written acknowledgment of his receipt of the copy, showing the date of its receipt, or the affidavit of the person by whom the delivery was made stating when and

where the copy was delivered: If made by registered mail, proof of such service must consist of the affidavit of the person by whom the copy was mailed stating when and the post-office to which it was mailed, and this affidavit must be accompanied by the postmaster's receipt for the letter.

You should state in your answer the name of the postoffice to which you desire future notices to be sent to you.

TO SUNK MAINE IN GULF OF MEXICO

Impressive funeral services for the bodies of the sailors recovered from the wreck of the battleship Maine and for the remains of the battleship itself have been arranged by the United States and Canada.

Shortly after March 4 it is expected it is said the twisted mass which has lain 14 years in the harbor mud will be towed to the Gulf of Mexico and sunk. The armored cruiser North Carolina and the scout cruiser Birmingham with the recovered skeletons aboard will convey the Maine to its final resting place.

As the two cruisers take the wreck out of the gulf the batteries of the North Carolina will fire a salute of 21 guns. The shore batteries of Cuba will answer as the procession steams out to sea. When deep water is reached the crews will be called to quarters a funeral march will be played, three volleys will be fired, and as all that is left of the old Maine disappears, the bugler will sound "taps."

Colonist Rates

The 1912 spring-season colonist fares westbound will be in effect from March 1 to April 15, inclusive. One-way second class fares will prevail from all points in the East to the Pacific Northwest. In years past this arrangement has brought many settlers to the coast. The Oregon-Washington Railroad & Navigation Company is advertising the rates heavily in the East, so as to interest prospective newcomers in this section. In Tacoma recently, delegates from forty-one cities in this section met to devise ways and means for encouraging immigration. A permanent organization was effected.

MUCH ACTIVITY FOR HIGH GRADE

Under a large heading, "Western Centers Rivals in Stampede to High Grade," the Denver, Colo., Daily Mining Record, contained the following write up of the High Grade, or Hoag mining district:

That there will result an old time stampede into the camp of High Grade, is evidenced by the fact that a number of different mining centers are demonstrating that they will strive to have their men first on the ground. A rush over the snow is not at all

unlikely.

Cripple Creek men will unquestionably be strongly in evidence. Denver and Colorado Springs people are already organizing syndicates to outfit prospectors and miners. A recent visitor in Salt Lake City says that mining men there are waiting for their first opportunity to get in.

Reno being the nearest large town to the camp will naturally be among the earliest arrivals. Californians are already demonstrating their loyalty to a home camp by "sitting up and taking notice" for an invasion of stampedeers.

Advice from California are in effect that "High Grade is causing much excitement in this section and it is certain a rush of California miners will ensue as soon as the snow permits." In a letter received from a man who left here recently for the camp he states to a local broker: "Salt Lake people are just waiting for the snow to leave and you can look for all that crowd in here, and I tell you they are miners for fair. I spent almost a whole day in Salt Lake and I registered from High Grade. Say, you should have seen the people who wanted information about the new camp. It was fierce."

The interest in Denver grows apace, and almost every day there is forthcoming news of syndicates or companies being organized, mostly designed to grubstake men for High Grade. Unquestionably a number of these exploiters will be among the early arrivals, locating somewhere handy that they may get to prospecting just the moment the snow will permit. The same applies in the case of Colorado Springs, where several of the big Cripple Creek operators have expressed themselves that they will become interested, either going themselves or outfitting reliable prospectors. One large grubstake syndicate is being organized at Colorado Springs.

Cripple Creek mining people will not unlikely precipitate the rush to the diggings. Here apparently is the strongest interest, and it is theorized that if any number of Cripple Creek men start to "hike," that other centers will at once get busy, with the result that trails will be made over the snow, and perhaps snow locations will be attempted on the open ground.

Apparently people in the district and neighboring towns are expecting a rush, and they are arranging to handle it. Alturas is the point from which they have been staging it into Fort Bidwell, and a recent letter from there says: "This trip can only be made now by horse stage. The snow is too deep for autos. However, there is a line of autos here ready to handle the rush, and think they will start them about May 1st, and perhaps earlier."

Fort Bidwell correspondence indicates too that a rush is expected by these people, and an important announcement is made. A stage line will be established by auto from Willow Ranch on the N.-C.-O. railway, ten miles south of New Pine Creek. This stage will carry passengers and mail on the arrival of every train, and they will reach Fort Bidwell the same day passengers from the south arrive at New Pine Creek, and Lakeview, Oregon.

A big sign at Willow Ranch will proclaim "This Way for Fort Bidwell and High Grade." This piece of enterprise by Fort Bidwell people designed ostensibly to divert travel to that town will be appreciated by the mining peo-

ple, as it means one day service between Reno and Fort Bidwell.

It is pointed out that the camp can also be reached over the Western Pacific to Doyle then the N.-C.-O. to Alturas.

On the subject of railroads it is stated that Fort Bidwell has a splendid chance for a standard gauge road in the early future. The Provident Investment company of which T. A. Johnson of Los Angeles is the head, has a railroad enterprise in connection with its irrigation project. The line will likely be built from Gerlach on the Western Pacific to Modoc the new town promoted by these same people and thence extended Fort Bidwell as it is estimated that a matter of a quarter of a million dollars will build this extension.

In a recent letter from President Johnson he says: "The railroad world has progressed far enough this winter so that I feel warranted in saying that actual construction will be under way during this year. This work will naturally mean the development of the mining district and our company is interested to the extent of developing the railroad."

The project in question comprises the placing under irrigation of 60,000 acres of land on the east side of Surprise valley. Cowhead lake is being tapped for the supply and the town of Modoc is being built. The company is

handling lands which will develop into apple-growing farms and these lands will be colonized in large numbers. T. A. Johnson was formerly one of the best known mining operators in California and will likely become heavily interested in the camp of High Grade. On the 17th of the month a miners' meeting will be held at Fort Bidwell at which they will go through the regular formality of organizing the High Grade mining district.

News from the property of the Modoc Mines company indicates that High Grade will shortly have another shipping proposition. At a depth of 35 feet there is disclosed 15 inches of ore the average value of which according to assay is \$28 a ton. In addition the pay streak is widening and a new low grade streak is increasing in value and size is coming in at the bottom of the shaft.

This company has a force which has been straightening and retimbering the shaft preparatory to sinking. A complete hoisting plant is ready to be installed just the minute it is possible to get it to the property. Extensive exploitation is planned. The Modoc company owns the School Section comprising 259 acres of patented ground situated due north of the Sunshine bonanza.

When you have rheumatism in your foot or instep apply Chamberlain's Liniment and you will get quick relief. For sale by all dealers.

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about five hundred grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

A. B. Scofield, Ashland, Ore., says: "It gives me pleasure to endorse Doan's Kidney Pills. They brought me great relief from a severe attack of kidney complaint and I am now entirely free from the trouble. Doan's Kidney Pills can be relied upon to dispose of backache and difficulty with the kidney secretions."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Let the Examiner figure on your next job printing.

MORE WORK, BETTER WORK, AND EASIER

In a commercial sense, the employer is interested in the quantity and quality of the output of his typists. It is evident, too, that it is to the best interest of the operator that each day shall show a satisfactory amount of work well done.

Therefore, both employer and operator find in

Monarch Light Touch

a sure means to a desired end. This exclusive feature of the Monarch Typewriter results in more work because the Monarch is so much easier to operate than other typewriters—less physical energy is required. The work is uniformly better because the operator is not hampered by "Three O'Clock Fatigue," and finishes fresh right up to closing time.

Write for descriptive literature.
