LAKEVIEW NEWS TEN YEARS AGO

(From Lake County Examiner, March 13, 1902.)

Dr. T. Vinton Hall left yesterday morning for New York City to take a three-months course of lectures in the leading medical college in that city. Upon his return Dr. Hall will be finished in all modern methods of medical science. Before going east he will visit his relatives at Merville Point and will also go to Portland.

Hi Mannerling last Saturday morning returned from Garfield, Washington, where he passed the winter with relatives. Hi looks like he wintered well. He is mentioned as a probable candidate for the nomination for clerk of Lake county.

In the probate court, Tunningsen, Judge, the matter of a rejected claim against the estate of Ruby Clark, by the administrator, F. M. Miller, was heard last Monday and Tuesday. The claim was made by a New York woman named Jewell, through her attorney C. H. Dalrymple, for \$700. L. F. Conn is attorney for the administrator. The court decided against the claimant.

W. H. Shirk, State land agent, returned last Friday from Reno. Mr. Shirk has been spending a good part of the winter in Reno and San Francisco.

Treasurer Lee Beall forwarded to the State Treasurer, last Tuesday, Lake County's check for the sum of nearly \$10,000 State tax money.

J. W. Mikel, who has had under lease for a long time the Frank Lane place, just at the outskirts of Lakeview has given up possession of the residence part of the lease to Mr. Lane for a consideration. The latter will take possession of the residence and make some extensive improvements there on.

In the trade Mr. Mikel gets two acres of excellent land just south of Deadman creek and has bought from the agent of W. P. Huff the building formerly used as a meat market opposite the store of Bailey & Massingill. The building was moved last Saturday to Mr. Mikel's new location and will be converted into a residence.

Jim Turpin and Pete Grob, returned to the desert last Saturday to look after their flocks. Turpin's camp is to be the desert post office for the next few weeks, as he has had loads of mail for the boys out there for miles about.

The boys are making bets that John Basse will be a trick bicyclist or an "Ole Olsson" before he returns.

The "yellow flag" no longer floats to the breeze in Lakeview. As the Examiner stated last week the small box has been completely stamped out and eradicated here.

It is understood that a force of 250 men will be put on to work the Che-wan-Land and Cattle Company's canal early in the spring.

The town council held a regular meeting on Tuesday evening. Among the orders made was a new ordinance granting the right of way within the corporate limits of the town to H. V. Gates to build and maintain a telephone system, the line to run from Astland to Lakeview, provided the construction of said line begin within a given time and that the town be given certain privileges on the line. The matter of draining Dewey and Water streets was referred to the street committee.

Tom Beall, brother of Lee Beall the Lakeview druggist, and well known in this vicinity, has been appointed by D. W. Earle & Co., the forwarding merchants as their representative at Terms.

Reduced Rates

Excursion rates for the Summer festivals and national conventions to be held on the Pacific Coast during 1912 have been fixed at one and one-third fares and liberal stop-over privileges will be granted. Events provided for are: Mystic Shrine at Los Angeles in May, Rose festival in Portland in June, the Elks at Portland in July, the Golden Potlatch at Seattle in July, and the Montama Festival at Tacoma.

Alaskans predict that 1912 will be an exceptionally active season in the North. Large quantities of stores and machinery are collecting at the various Pacific seaports, to be rushed north as soon as navigation opens. There have been extensive mining activities during the winter months, which presage important clean-ups this spring. The various transportation companies have been advertising Alaska extensively of late, so that a large influx of investors is looked for.

Through the good offices of Asahel Curtis, photographers and explorer, a conference has been arranged for the purpose of settling the Mount Ranier-Mount Tacoma controversy. This will be attended by committees from Seattle and Tacoma, representing the foremost commercial bodies and activities. It is realized that the difference as to name is harming a proper advertising of its tourist features. It is believed that by thrashing out the whole contention, a solution can be obtained.

ACTIVE AGAINST TRUSTS

Present Administration Has Waged Constant Warfare.

People generally have never given President Taft credit for the remarkable activity of his administration against the trusts. Unlike his predecessor in office, he did not hunt the trusts with brass bands, trumpets and flying banners. He did not advertise to the far corners of the country what he intended doing before he started in campaigning against the big combinations of capital.

But the fact is, that President Taft has done more in fighting the trusts than any other president in the history of the country. A number of the biggest monopolies have been dissolved by prosecutions, at the direction of President Taft, notably the Standard Oil and Tobacco Trusts.

During the three years in office, there have been instituted under the Sherman Anti-Trust Act, thirty-seven prosecutions of illegal combinations of capital. A number of these have already been successful and the people may look for the favorable conclusion of many others. This is a record that throws in the shade the performances of any other president, although it covers but three years. President Roosevelt was quite active in fighting the trusts, yet in his seven years in office, from 1901 to 1908, he caused but forty-four suits to be brought against the trusts.

TO PROBE LIVING COST

President Taft Wants to Know Cause of High Prices.

One subject in which the average householder has a vital interest is the high cost of living. Much has been written and spoken about the ever growing expense of the American household, but the blame for the condition which seems to prevail all over the country has not yet been fixed.

President Taft proposes to do this, and one of the most timely subjects he has discussed recently is this same problem. President Taft proposes to appoint a commission, consisting of experts, to carry on an investigation as to why food prices are steadily going skyward. The middleman is being freely blamed because it seems to cost more each year to live and many believe the charges well founded.

President Taft's proposed commission would ascertain this fact accurately, and the causes once learned, it is thought the problem could be solved.

President Taft himself says of the plan: "One legitimate advantage of such an official investigation and report, is the enlightened and informed public opinion, which of itself, will often induce or suggest the reform of unjust conditions or the abatement of unreasonable demands."

COMES OF GOOD STOCK

President Taft's Family Just Plain People for Generations.

President Taft's family halls originally from Massachusetts, the town of Uxbridge. Tafts are said to be so thick there that even a woman cannot throw a stone without hitting one.

The Tafts held a re-union at Uxbridge in 1874 and descendants of the original Robert Taft flocked there from all parts of the country. Alphonso Taft, the father of the President, delivered an historical address at this re-union in which he made a somewhat remarkable prophecy, all without being conscious of it. This is what he said, the account being taken from the report of the re-union published at the time:

"Our family has not embarked much upon national politics, except that they have shared in the battles of the country when National Independence was to be won and also when the Union was at stake. But brilliant political careers have not been characteristic of the Tafts of the past. It is not safe to say what may be in store for them. There is a tide in the affairs of men and also of families."

Alphonso Taft himself started the turn of the tide which he then predicted. His son William, who was later to have a brilliant career as Secretary of War, and still later as President, was that year entering Yale.

The Taft ancestors have been of mighty good stock. Peter Taft (1715) is reported to have been "a large, good looking man with a magnanimous disposition."

Aaron Taft, another ancestor, was also magnanimous, so much so, that he lost money by endorsing a friend's notes. Despite this fact he is reported to have been a man of great intelligence, as well as integrity. Going still further back, there was Captain William Taft who captured Blarney Castle in the 16th century.

Party Rich in Traditions.

The Republican party is not only rich in men, but rich in practical and beneficial principles. It is rich, too, in its record of promises performed and pledges fulfilled, and so we are for party and party principles first and acquiescence in the choice of the majority, rallying around the standard bearer, who will carry us again to victory.—Hon. James S. Sherman.

A Good Position

Can be had by ambitious young men and ladies in the field of "Wireless" or railway telegraphy. Since the 8-hour law became effective, and since the wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institution of Portland, Ore., operates under supervision of R. K. and wireless officials and places all graduates into positions. It will pay you to write them for full details.
