LAKE COUNTY ABSTRACT COMPANY
Incorporated.

A Complete Record

We have made an entire transcript of all Records in Lake County which in any way affect Real Property in the county. We have a complete Record of every Mortgage and transfer ever made in Lake County, and ever Deed given.

Errors Found in Titles

In transcribing the records we have found numerous mortgages recorded in the Deed record and indexed; and many deeds are recorded in the Mortgage record and other books. Hundreds of mortgages and deeds are not indexed at all, and most difficult to trace up from the records.

We have notations of all these Errors.

Others cannot find them. We have put hundreds of dollars hunting up these errors, and we can fully guarantee our work.

OREGON TO GET HERD OF 15 ELK

Oregon is to have a herd of elk for propagation purposes. A bunch of 15 of these animals has been donated to Oregon by the United States Government. They have been crated in the Jackson Hole Country, Wyoming, and are now on their way to their pasture in this state. In making this gift to Oregon, the United States has imposed one condition, which every loyal citizen will appreciate. It has been re-presented to the government officials that our people earnestly desire a herd of these animals, and, if allowed, we will be glad to comply with the conditions. The elk will be pastured, temporarily, on the Wallowa Forest Reserve, from which place they will be distributed throughout the state as they propagate. Inasmuch as the Government has provided the animals and a place for them to roam, it has been proposed that the people of the state should pledge themselves to stand the expense of feeding the animals during the balance of the winter and up to the time when they can forage for themselves.

The Elk Lodges of the State, whose name will always perpetuate the fame of the splendid creature that is so rapidly disappearing, have taken an active interest in starting this fund, which will not total more than \$1000.

The Portland Lodge headed the subscription list with a donation of \$100, followed quickly by the Pendleton, Albany and La Grande Lodges. The people of Enterprise, Joseph, Wallowa and other towns have also contributed enthusiastically.

A small sum remains to complete the fund, and the Evening Telegram, Portland, Oregon, is acting as custodian of the fund. Subscriptions are being received daily, ranging from \$100, up to \$50. In order, however, to comply with the condition suggested by the Government, small amounts from all parts of the state are being asked.

Adel Items

Plenty of March blusters this week past.

No storm of consequence but disagreeably chilly.

No gossip, no scandal, every body happy.

Surprise parties with whist and luncheon are still the fashion. Were it not for these time would hang heavy on our hands. On the evening of the 2nd, the residence of T. G. Dews was the scene of a lively whist party and the house was filled to overflowing with good natured neighbors who brought enough good eatables for the whole neighborhood and then some, and merriment was the program until after midnight.

On the 9th, our village merchant was taken by surprise and his house was jammed to the utmost to repair him for his practical joke during the day. Again the "wonderful 52" was the amusement until lunch was called. Again the small hours of the morning found the neighbors on their way home. John has just completed a new well. He wished to tell the neighbors of his success and it is somewhat after this fashion. The neighbors on the telephone line were called one at a time to the phone and then John began: "You can't guess what I found in my well?" "Indian skeleton." "No." "Gold nugget?" "No." "Well what did you find, John?" "Water, of course." Then they all swooned down on John for entertainment until midnight.

On Sunday the 10th, a turkey dinner was served at the residence of Mr. and Mrs. Andy Morris, where over 30 people partook of the hospitality of these genial souls.

A similar gathering was had at the residence of Mr. and Mrs. J. N. Givan a couple of weeks since. The next turkey has not been announced yet but there are rumors.

Hospitality, genuine sociability and neighborly good feeling of the people of South Warner cannot be excelled. If you doubt it come and visit us.

DELEGATION WAS A STRONG BODY

Portland, Oregon, March 14, Special.—Oregon's delegation to San Francisco, on the occasion of choosing the site for its exhibit at the Panama-Pacific International Exposition was a truly representative one. It was made up of the best men and women from all parts of the state and was a fitting recognition of the high honor that has been given the state by the fair officials in the matter of the very first choice of location. So many applicants to join the party were made at the Oregon Development League headquarters that the complement for a special train was soon made up. Many went by regular trains. The special left early in the afternoon of the 12th and the site choosing ceremony took place on the 14th. The commercial bodies of San Francisco made it known long in advance that the Oregon delegation would be royally entertained and taken care of in every way.

HELP FOR HOMESTEADERS

Leniency For Man Trying To Make Home Is Recommended.

A radical change in the homestead laws that will be of marked benefit to settlers is the plan of President Taft. Leniency for the man who is trying to make a home on idle lands of the state, included in the various reclamation projects, is what President Taft wants.

He intends to modify the law so that the settler upon land being reclaimed need not take up his residence immediately upon filing, but may wait two years before living on his land. During these two years, however, cultivation must be carried on. By the time the settler must commence living on his land, he can, by reason of this modification of the law, make a living from his farm. This will do away with two weary years during which, under the present law, the homesteader usually finds it necessary to live partly on hope.

The present provision, under which land is to be paid for in ten annual installments will be so modified as to allow a patent to be issued for the land at the end of five years cultivation, and three years occupation.

The homesteaders generally will welcome this change in the law, relieving them, as it does, from all enforced residence on the undeveloped farm lands during the period when it is hardest to make a living. At the end of five years the new law will furnish the settler with a title upon which he can borrow money with which to continue the development of his ranch.

Death List Heavy

Thirty-one killed and 462 injured, is the daily harvest of steam railroads of the United States, according to a report distributed by the Interstate Commerce Commission. The fatalities are exclusive of the so-called industrial accidents, in which death and injury are not caused by moving trains.

The report covers three months, making the third quarter of 1911 the latest figures tabulated by the committee. In that time there were 3772 accidents to trains, of which 1232 were collisions and 1802 were derailments. The grim total of 2889 killed and 42,757 injured is shown for three months. Of these 23,650 were injured on trains not in motion, in shops and similar places.

The majority of the killed and injured were road employees or mail clerks, express messengers or persons whose employment compelled them to be on trains. Sixty-five passengers were killed and 2617 were injured.

"Made in Oregon"

During the past week new impetus has been given to the "Made in Oregon" campaign recently started at Salem. The Manufacturers Association of Portland gave up the entire program of its annual meeting to this subject. Supplementing this, some of the retail houses made attractive exhibits in their windows of Oregon-made products and the attention of the city generally was attracted to the movement. At Corvallis, on March 7, delegates from the commercial clubs of the state took part in a rousing meeting that was called for this purpose. One of the suggestions made was that communities should assist each other by a reciprocal pushing of the local products manufactured.

Federal Building

From the following message received last week by C. T. Oliver of Klamath Falls it would seem that city has a good chance of securing a federal building:

"As member of senate committee on public buildings and grounds I am to day authorized to favorably report Senator Chamberlain's bill calling for \$100,000 for public building in your city, with amendment increasing appropriation \$12,000 making the total \$112,000.—Jonathan Bourne, Jr., 194 a. m."

The telegram was received March 8.

KLAMATH SHIPS IN SEED BARLEY

Klamath Press: An order for 30,000 pounds of seed barley, to be used in the sowing of Klamath county grain fields this spring, has just been placed in the hands of Secretary C. T. Oliver of the Klamath Chamber of Commerce. He will send the order this week to Carson Valley, Nevada, fifty miles south of Reno.

The minimum weight for a car load of barley is 30,000 pounds, the amount of the order Oliver is to send to Nevada. The maximum weight for a carload of this commodity will allow the addition of from 10,000 to 20,000

pounds to this order, and if there is any resident who desires to get his seed barley on this shipment they can arrange for it to come as a part of this carload. Mr. Oliver leaves Tuesday for Los Angeles, and can be seen in regard to the shipment tomorrow and Tuesday.

If you have trouble in getting rid of your cold you may know that you are not treating it properly. There is no reason why a cold should hang on for weeks and it will not if you take Chamberlain's Cough Remedy. For sale by all dealers.

On what is now considered authentic information, Washington society is discussing the reported engagement of Miss Ethel Roosevelt, daughter of ex-President Theodore and Mrs. Roosevelt, to George Allen Snow, a prominent New York attorney.

SPECIAL Clubbing Offer TO OUR SUBSCRIBERS AND THEIR FRIENDS
