### LAKE COUNTY ABSTRACT COMPANY

Incorporated.

A Complete Record

We have made an entire transcript of all Records in Lake County which in any way affect Real Property in the county. We have a complete Record of every Mortgage and transfer ever made in Lake County and ever Deed given.

Errors Found in Titles

In transcribing the records we have found numerous mortgages recorded in the Deed record and indexed; and many deeds are recorded in the Mortgage record and other books. Hundreds of mortgages and deeds are not indexed at all, and most difficult to trace up from the records.

We have notations of all these Errors.

Others cannot find them. We have put hundreds of dollars hunting up these errors, and we can fully guarantee our work.

J. D. VENATOR, Manager.

### Hearing, May 21st

Alturas New Era: A short time ago the N.-C.-O. Railway made application to the Railway Commission of the State of California asking permission to increase the passenger fares over that road to a basis of seven cents per mile. Attached to their application is a schedule of the present fares charged, together with the proposed passenger fares, with a table of the difference, showing that it is proposed to make a material increase in the passenger fare between Reno and Alturas to the amount of about two cents per mile, which will render traveling quite expensive if the increase is permitted.

The State Railway Commission has fixed the hearing of this application for Wednesday, May 21st, 1912, at 10 a. m., at Alturas, Cal., before John Eshleman. At that time a public hearing of the matter will be had, and Mr. Eshleman will hear evidence both for and against the said application.

### Interest in Athletics

A new ruling of the athletic board of the Oregon Agricultural College which will require every aspirant to present written statement of satisfactory class standings before admitted to the squad in training, it is believed will remove the stigma from athletics, hitherto the scourge of unsatisfactory scholarship.

Although the college has maintained the conference scholarship requirements for members of the athletic teams, this voluntary ruling of the board is believed to be the first effort made in the Pacific Northwest to place all men on the squads on the same footing as to scholarship as the men on the teams proper. This will eliminate the large number of ineligible always attracted to college athletic fields.

### Cheap Optimism

It doesn't cost a penny to hum a little and cheerful tune as you lope down the road; the sight of you, so bright and gay, may cheer some pilgrim on his way and ease his weary load. It doesn't cost a wooden cent to say good morning to the gent you meet upon the walk; and it may bring a pleasant glow to some sad heart that grief and woe have made as hard as rock. It doesn't cost a pewter mark to carry light to places dark by wearing cheerful mien; a happy, bright contended face will be a lamp in any place, and light the darkest scene. It doesn't cost a leather ven to stimulate your fellow men and nerve them for the fray; just illustrate your firm belief that joy's a better thing than grief, and that the world's O. K. It doesn't cost a bogus crown to be an asset to your town, and be it known as such; serenely do your daily stunt and wear a brave and hopeful front, and you'll accomplish much. Your influence for good or bad is greater than you know, my lad, so use it wisely well; don't wall around or tear you robe but always boost this good old globe on which we mortals dwell. Walt Mason.

### State Veterinarian W. H. Lytle

states that less than 4 per cent of the dairy cattle of Oregon have tuberculosis. This is a record that should appeal to those desiring a healthy country for dairying.

The Oregon Oriano, monthly, of Vale, and the Beacon Light, weekly, have consolidated and will be issued weekly under the name Beacon Light, with a once a month edition devoted especially to Eastern Oregon Development News.

Surprise Valley Record: S. O. Cressler underwent a surgical operation in San Francisco last week and at last accounts was getting along as well as could be expected. The operation was a serious one and his many friends hope that he will soon be restored to good health.

Surprise Valley Record: George Avres and Mr. Thompson dropped in from Medoc last Monday. Mr. Avres informed us that they had commenced work on grading the streets, and would start building soon, and also would make telephone connection in the near future.

## AID ENTERTAINED BY MRS. DYKEMAN

The M. E. Aid society enjoyed a delightful afternoon at the hospitable home of Mrs. Dykeman. The ladies were guests of Mesdames Dykeman and Dyer. The attendance was large, the devotional, business and committee work being heartily participated in by all present. Ye stranger was impressed by the business tact the dispatch in the act of voting, which these women displayed. Surely they are ready for the "Suffragette Day" which is dawning. Altho the weather outside was threatening, inside amid the perfume of "Roses and Violets" the dawn of color shown in the serving of refreshments. By the hum of voices one could imagine that summer had come. Mesdames Dyer and Barnes presided over the Punch Bowl of delicious fruit and marshmallows. Ice Cream with a touch of maraschino cherries proved tempting to all—literally breaking the ice of all reserve. Mrs. Burgess received the glad hand shake after her long absence by illness. All are glad of her recovery. Many enjoyed the beautiful collection of Indian baskets and curios of which Mrs. Dykeman is the fortunate possessor. Altogether it was a charming afternoon. The following ladies were present: Mesdames Walters, Linville, Vanderpool, Mikkle, Barnes, Selman, Russel, Tower, Combs, Combs, Anzstead, Chandler, Miller, Harris, Patch, Hahn, McDonald, Leonard, Moffitt, Webster, Cronemiller, Newell, Foster, Cronemiller, Tracy, Colvin, Alzer, Burgess, Dyer and Dykeman.

### GENERAL NEWS

A telephone line from Lakeview, Oregon to Reno, Nevada is one of the new improvements of that section.

Oregon Oriano: Lakeview reports an influx of home-seekers as a result of the railroad being built north through Nevada to Lakeview.

Where a herd of cows was given troughs with a constant supply of water, the increase in milk was one pound each day, on an average.

Alturas New Era: J. Todd Bonner, who is in the employ of the State Fish and Game Commission, is here this week to consult with the Board of Supervisors in regard to local game laws.

State Veterinarian W. H. Lytle states that less than 4 per cent of the dairy cattle of Oregon have tuberculosis. This is a record that should appeal to those desiring a healthy country for dairying.

The Oregon Oriano, monthly, of Vale, and the Beacon Light, weekly, have consolidated and will be issued weekly under the name Beacon Light, with a once a month edition devoted especially to Eastern Oregon Development News.

Surprise Valley Record: George Avres and Mr. Thompson dropped in from Medoc last Monday. Mr. Avres informed us that they had commenced work on grading the streets, and would start building soon, and also would make telephone connection in the near future.

### For The Farmer

April Farm Journal:

If there is a harvest ahead—even though it be a distant one—it is poor thrift to be stingy with your seed.—Carville.

Sow alfalfa by itself; it doesn't need any nurse crop.

Have two or three plow points on hand ready for the time of need.

Leave no long rails sticking up out of fallen rails or posts in the pasture.

What is finer than an old-fashioned spring after an old-fashioned winter?

Despise not the day of the one-horse farmer, for it leads to a two-horse team.

We should not complain when we think the other fellow has a better job than we; rather let us rejoice.

This is the month for the land roller, if the earth is dry enough. Push the roots in good and cut more grass to say for it.

A good many men would not tolerate a hole in their trousers' pocket are all too complacent when regarding the hole in the barn roof.

The ten-cent cotton or canvas gloves that are so largely worn by farmers may be water-proofed by dipping them in melted paraffine.

Dynamite can be used for very many purposes on the farm, but you should know how to use it. If it explodes, don't blame the dynamite. That's what it's for.

Do you use a snipe-tooth harrow? How are the teeth? Worn down blunt? Take them out and have the blacksmith sharpen them. The harrow will do a great deal better work then.

It is quite a chore to get the stove-tube up just right every time. Tell you how we do it: When we take the pipe down we mark every length with a piece of white chalk. Do it before you take it down and there will be no trouble next time.

Make your garden plantings smaller and plant more frequently—every week or ten days; this will produce young vegetables that are more tender, juicy and sweet than where the large plantings are made and part of the vegetables are allowed to become big, tough and strong flavored.

Some farmers wail because the robins and catbirds eat cherries. Now I have noticed that with all their eating the birds only eat a small share. I have several cherry trees, and let the robins eat all they want. If a share of my cherries will coax them to build and rear their young in my orchard, acting as buzz police meanwhile I am winner.

The striking coal miners in England have accepted the minimum wage bill of the government by a vote of 3 to 2, and many lines of industry which were paralyzed by the great strike are already resuming operation. It is expected that it will be months before the effects of the strike will have disappeared. The losses entailed will reach millions of pounds. Most of the small merchants are virtually bankrupt.

President Howard Elliott of the Northern Pacific Railway believes that if the average citizen, the rank and file man, would take more interest, the big questions now before the people could easily be thrashed out. He says that rich men are contented to sit back and let their income grow, without participating; while the radicals want to change everything. According to Mr. Elliott, the proper course lies between the two and could be reached if the middleman would shoulder his part.

## USEFUL HINTS TO POULTRY RAISERS

Farm Journal:

Don't expose the fowls to strong March winds.

Never set a thin, lousy hen. She won't stay her time out.

On cold evenings the hens must be sent to roost with full crans.

Especially at this time of year, the fireless brooder is to be recommended.

For early hatches it is best to give not more than eleven eggs to a hen, for those on the outer edge may become exposed and chilled.

Any egg enters in the flock? Make the nests as dark as possible; that will help. If that doesn't discourage the culprits, sharpen up the ax.

The brooder is more responsible for poor results than is the incubator. The brooder has not as yet reached the stage of perfection that the incubator has.

Early spring winds are pretty trying to hens. They have been shut up so long that they are tender and feel the blasts. Shelter them well till the days are warmer.

A good way to prevent hens from over turning their drinking vessels, is to punch a hole in the side, near the top of a tin pail or old tomato can, and hinge it on a nail driven into the woodwork of the chicken house about six inches from the ground. Be sure there are no sharp edges to the can, or that the head of the nail does not protrude more than half an inch.

Most of the methods of "breaking up" hens from sitting are cruel, and tire and distress the innocent hens who are not to blame for their instinct. The kindest way is the following: When it is necessary to stop the inclination, place the hen in a nice clean coop, alone with fresh grass, and all the fresh meat cut fine that she will eat. This immediately increases the egg nourishment, and while the hen is having a really good time, she is fast increasing herself to commence laying eggs. It will take but two or three days before she forgets all about sitting, having other affairs to attend to.

### Free Aster Seeds

Klamath Falls Northwestern: Announcement has been made to State Superintendent of Public Instruction Alderman by August Hildberand, Park Commissioner for Astoria, that he will give a package of aster seeds free to every child that will enter the School Children's Fair contest, hoping in this way to stimulate interest in the raising of asters, and that he will award 10 prizes for the best of these flowers put on exhibition. An invitation is extended to grown people as well as children to enter the contest.

Instructions as to the cultivation of asters are to be issued and sent to the children. Astoria, according to the park commissioner, intends to make a specialty of raising these flowers, and is confident of carrying away the banner prizes.

Alturas New Era: The Alturas Concert Band, under the management of K. L. Sloss and direction of Chas. E. Rice, will give a Grand Musicales some time in April. A variation of music will be supplied by band, orchestra and local talent of Alturas, combined with a two act farce, and free dance lasting until midnight, will constitute the program. The proceeds will be for a set of new and up-to-date uniforms for the twenty piece band.
