Lakeview, Oregon, Thursday, May 9, 1912

Massachusetts politicians of the Roosevelt stripe do not seem to understand the game as played under the "Oregon System." In the primary election last week Taft carried the state over Roosevelt by nearly 4000, and only for a fluke, which resulted in a large number of Taft votes being thrown out, his majority would have reached close to the 10,000 mark. However, a number of delegates pledged to Roosevelt were chosen, just as was the case here in Oregon when the Colonel carried the state over Taft although several delegates pledged to the latter were elected. Now the Massachusetts delegates have announced their intention of supporting Roosevelt in the convention regardless of the fact that Taft carried the State. Here in Oregon it is quite different, for all delegates, regardless of their pledges or personal preferences, will support "Teddy." It should be stated, however, that Roosevelt opposes the stand taken by the delegates from Massachusetts, to support him, and urges them to abide by the result as shown in the election and cast their votes for Taft.

Governor Oddie, of Nevada, is wielding the Big Stick nowadays, and he does not seem to care in what manner, except when a head bobs up to whack at it. His latest venture is to summarily remove Editor Morgan, of the Reno Gazette, as a member of the Panama Exposition Commission for Nevada, assigning as a reason that the editor unwisely criticized the Commission, thus indirectly harming the interests of the State. If the Commission is above criticism it certainly is the first of the kind in history, and by weakening his vengeance upon the editor and thus attracting widespread interest in the matter, Governor Oddie has certainly done far more injury to the cause than did Mr. Morgan. It is evidently a personal matter of the Governor's as is plainly evidenced by the correspondence which was given to the press the day upon which he dismissed Mr. Morgan.

It is plainly evident that the present game laws are sadly in need of revision, and Game Warden Finley is entitled to credit for enforcing the obnoxious provisions of the present statutes. Here in Lake County it is impossible for the ordinary citizen to ever have a fish on his table, as the only time that they can be caught the closed season is on. Of course, during the summer time the Mountain trout can be caught but it is not possible for every one to visit the haunts of that gamiest of fish and furthermore not every one is successful when it comes to landing that member of the finny tribe. There should be no closed season on what we term our "Lake trout," for it is possible to catch them during a couple of weeks only, and during the balance of the year they fully protect themselves.

It will no doubt prove fortunate for the successful candidates at the recent primary election that several months intervene before the regular election, inasmuch as it will give plenty of time for the sores of the defeated candidates and their friends to heal. Had the election followed in a month or six weeks things political would no doubt have been awfully mixed, for many of the "also rans" had their knives out and would no doubt have proceeded to strike right and left. As time heals all things, doubtless by next November they will be glad that they did not get the nomination and will assist in the election of their opponent in the primaries.

Congressional leaders, both Democratic and Republicans, are planning to bring about an early adjournment of Congress. These leaders want to prevent any further tariff legislation. The Democrats want no more tariff legislation this session because they fear that they may make a mistake which might react unfavorably in their presidential campaign, and the republicans are naturally opposed to tariff reductions of any kind.

As yet no signs of political activity are in evidence, and it is not likely that much interest will be manifested until after the National Convention in June and July. Locally the arena is remarkably quiet, and it doubtful if any enthusiasm whatever can be aroused before next October.

An effort is now being made to abolish the word "consecutive" from the English language. It is not presumed that any possible presidential candidate in 1916 is behind the movement.

## Additional Briefs

Harry Roberts Monday evening arrived in town from Lakely, and announce his intention of "hanging round" for a few days. Harry has many friends hereabouts who always extend him the glad hand whenever he shows up.

T. G. Lewis, N.-C.-O. Agent at Surprise, Modoc County, was compelled to come to Lakeview Monday night to get a silver of glass removed from his eye by the Company surgeon. He returned to his duties Tuesday morning much improved.

If there should ever come a time when you are badly in need of an argument to boost this country—go to the Land Office and count the homestead entries which are being made day after day. Such records are unquestionable.

F. M. Green this week purchased about 60 acres of land adjoining the town of New Pine Creek from Hall & Reynolds. The latter purchased the land something over a year ago and it is understood that they realized quite a handsome profit.

E. E. Brett and Geo. Riechers, the latter known among his friends as "Mutt," are here from Portland demonstrating the Cadillac motor car. The car is greatly admired by all, and it seems as though some one could be induced to invest.

Preparations are now being made to start operations at the brick kiln south of town in the Drenkel Addition. Thousands of brick will be burned for use on the new Heryford building, and the work will be in charge of an expert from Reno.

The work on the foundation of the new Heryford building, which was delayed for a week on account of the stormy weather, is now progressing nicely. The cement foundation has been completed, and the stone work is now progressing rapidly.

Andrew Canterbury, the well known hunter and trapper, was in town last week for supplies. Andy stated that in making the rounds of his traps one day he found he had succeeded in capturing two female coyotes each of which had eight pups.

Work is now progressing on the foundation for the new passenger depot, ground having been broken Tuesday. The foundation will be built upon cement reinforced with steel rails, and will certainly afford an excellent support for the building.

Mrs. Dola Dewey, who is an enthusiastic admirer of E. P. O. Elks will assist in decorating the hall for the dance on the 17th inst., she being a protegee and mascot of the Lakeview herd. Her well known artistic ability will be greatly appreciated by all.

The Coyote Club, under the management of C. W. Class, will possibly make its first public appearance at the Elks' dance to be held next week. Recently the organization has not been practicing regularly, but an effort is now being made to meet regularly.

Local friends of Mr. and Mrs. James Graves, of Ontario, Oregon, have received word that they are the happy parents of a baby girl, born several weeks ago. Congratulations are certainly in order. Mrs. Graves was formerly Miss Nell Harvey, of this city.

N. P. Jensen, of the electric light works, states that the snow at the head of New Pine Creek is fully as deep this year as usual, and therefore is no likelihood that there will be a shortage of water with which to operate his plant during the coming summer.

An exciting runaway occurred just before noon on Saturday last when team dashed at great speed along Main street in a northerly direction. One of the horses fell several times, but immediately rose to its feet and continued its journey. The team was finally stopped on Slash street.

James L. Wheeler, who is well known locally, accompanied by his brother, Lincoln, who recently arrived here from San Diego, last week left for Dry Creek, where they expect to take up residence and go into the stock business. They brought with them a big stock of food supplies and household effects.

Monday night the passenger train was delayed two hours by the wheels of the oil truck tender getting off the track and the truck getting crossed. The soft ground near the place where

## Not Always Thus

Alturas New Era: Quite a difference in the train service is noted of late and it is a source of great pleasure to all persons along the line. Heretofore the only evidence we had a railroad connecting us with the outside world was the track. The one and only train came in at night and left at night but now we have three or four trains daily and we get to see them and hear the toot toot of the locomotive, which is a great pleasure aside from the added convenience.
