MEMORIAL DAY

Memorial day was last Thursday celebrated in this city by the closing of the banks, land office and numerous stores and other business houses There were a goodly number of people on the streets to view the procession to the cemetery. The procession was formed at the Snider opera house where the program was furnished, and the capacity of the spacious building was heavily taxed.

The graves of the blue and the gray were impartially decorated, and the little mounds above the "deathless were tenderly covered with flowers. The beautiful custom incident to Decoration day was originated in the southern states and was institued by southern women. Its observance became widespread after May 5, 1868, when General John A. Legan, then commander in chief of the Grand Army of the Republic, issued an order appointing May 30 of that year for Grand Army services, choosing that from the record in this case, that on day possibly being the date of the discharge of the last Union volunteers of the war. There is no national law on the subject.

However, they will Francisco this week and promise some strong performances in the future.

Beginning with next Sunday evening at their next engagement, the curtain will rise promptly at 8:15 o'clock, and the management informed the Examiner that the long delays between acts would be avoided. This is a credible move as it will enable the audience to see a play and get home at a reasonable hour in the evening.
