Notice to Subscribers
Subscribers to the Examiner who remove their locality to another, or change their names, should remember to drop a card to the Examiner so their paper can be addressed to the right postoffice.

Lakeview, Oregon, Thursday, June 13, 1912

A NECESSITY

On July 20 the citizens of Lakeview will vote upon the all important issue of bonding the town for the sum of \$75,000 for a sewerage system. This matter will be decided by popular vote by the citizens. In this issue they have one of paramount importance to the future welfare of the city.

The town has advanced to progressive state. But the permanent growth in the future depends upon the actions of the citizens today. The next obstacle to encounter at the present time that means so much to future development, is to solve the sewage problem, and the Examiner urges the people to vote for this bond issue on July 20.

It is not a question can we afford to do it, but the question is, can we afford to turn it down.
No matter in what way individual opinions may be formed as regards details, it is a fact that Lakeview needs a sewer system and it will be necessary to vote for this issue in order to get it. We cannot afford to continue living with unsanitary conditions surrounding us when the opportunity for its elimination has arrived.

According to the profiles submitted by Engineer Rice, the per capita assessment to maintain the twenty year bonds, will be four mills on the dollar, or \$4.00 on each \$1000 of assessable property. This basis is made on a \$1,000,000 valuation of town property, and it is reasonable to expect that this wealth will be doubled in a few years.
Engineer Rice said to an Examiner representative that the topography of Lakeview is ideal for a sewer system. When asked as regards the amount of water necessary for flushing, he stated that with the grades this would have to be done only about once a month during the summer time, and that it would probably not be necessary that often.

The Examiner believes that everyone who is privileged to a vote in this matter, owes the duty to himself and those depending upon him, to give the matter the most careful study between now and the time of the election, and it also believes it their duty to vote in favor of the bond issue.

Now that a good harvest of Lake County products is assured, the slogan of "Lake County First" should be adopted by local consumers. This will apply particularly to fruits, vegetables, flour, pork, bacon, grain, etc., all of which can be raised in our own locality. Consume the home supply and it will be an incentive to farmers to cultivate larger areas of their lands each year. With the possibilities and resources of the county, and this valley in particular, it should be made a produce shipper rather than an importer.

At present London newspapers are discussing the political situation in the United States with interest. Followers of the press cannot remember when more editorial space has been given than now to American political events. And it is with shame that the American press is compelled to acknowledge that the actions of some of our leading politicians have been such that would justify considerable comment.

Paisley Pick-ups

(Chewaucan Press)

George Conn left on Tuesday. All the property which he sold to the Northwest Townsite Company has been turned over and as he is now practically footloose, he will also make his home in California.

C. H. Keith of San Francisco, is now on the ground at Summer Lake doing some work preliminary to the commencement of operations on the evaporating plant. C. M. Sain, the promoter of this enterprise, is expected to arrive in Paisley shortly.

Attempting to pass an automobile with a team of wild mules last Friday, on the Crooked Creek road, R. C. Shelhammer and his son were thrown from the wagon and painfully hurt. The auto had been stopped, on the approach of the team, but Mr. Shelhammer pulled out of the road and also stopped, so the auto proceeded at a very slow gait. The mule nearest the machine tried to climb over the back of [his mate] he pulled the wagon off the grade down a steep incline. In making a short turn to avoid a fence, a wheel on the wagon broke and the men were thrown out. They were not seriously injured, only sustaining a few slight cuts and bruises. No blame seems to attach to the driver of the machine, who did all in his power to avoid an accident.

\$20,000 ORE IN FAMOUS SUNSHINE

Panned Under Inspection of Distinguished Committee and Large Crowd

(By E. Chapin Gard)

Monday was banner day at New Pine Creek in mining matters. At the suggestion of the News management six sacks of Sunshine ore, which had been stored in the basement of Fleming Bros. Store, were placed in front of the News office and ore from one of them was panned in the presence of a large crowd and a committee of five distinguished mining experts, viz: Harry Shell, Bert Gillespie, A. W. Kellogg, Capt. F. L. Evans and A. J. Marden.

The result of the panning created a sensation. From an ordinary pan of dirt a string of color was secured one quarter of an inch wide and several inches in length. Mining men, including member of the committee, asserted that the ore would easily run \$60,000 per ton. Local Assayer W. S. Moore tested a grab sample from the same which the ore panned was taken and gave an assay certificate of 980.40 ounces gold and 651.20 ounces in silver per ton, aggregating \$23,005.23. This ore was taken from a surface ore shoot in a shallow shaft and it was this ore that was responsible for christening the camp High Grade.

The committee of five are classed among the ablest and most conservative mining operators in the West. Mr. Gillespie was born among the gold mines of Boulder county, Col., and has operated in Cripple Creek, Goldfield and elsewhere. He amassed a fortune in Goldfield and has always been considered safe and conservative. Mr. Shell has probably handled more pay dirt than any one man in the camp. He was manager of the Free Coinage and Old Gold in Cripple Creek and leased on the Doctor Jack Pot, Gold Coin and Hoosier. He was manager of the Highland Kooteney mine and mill at Kooteney Lake, Nelson, B. C. He has leased and managed mines in Clear Creek and Gilpin counties, Colorado.

Capt. Evans has operated as superintendent of mines on the Masaba Range, Michigan, in the San Juan, Colorado, county in early days, in British Columbia, Idaho, and latterly on the Burkemont copper mine at Baker City, Oregon.

A. W. Kellogg has operated in nearly all the camps of Colorado. He was manager of the Genesee at Ouray; also the Poughkeepsie mine, the Geneva and Great West mines in Park county, the Logan mine in Boulder county and many others. He has been doing experting and engineering work for thirty years and is here representing some of the largest operators of Nevada and California. When he says something it means business.

Mr. Marden is among the best known of the Cripple Creek operators. He was foreman on the Rattler and leased on the Jack Pot and John A. Logan. He operated for years in Clear Creek county and operated the Waltham mine in Gilpin county, Colorado. Mr. Marden represents millionaire mining men and has carefully investigated Camp High Grade.

Silver Lake Items

(Silver Lake Leader)

Dave Dotson returned from Lakeview Sunday evening, where he went to meet his twin sisters, Mesdames Long and Bennett, of Shumway, Cal. They will remain with him for a fortnight's visit.

Several men came up from the Paisley country the first of the week headed for the Conley corrals south of town, where Fitzpatrick and Sherlock have begun shearing sheep. There is something like 7000 head in the bunch.

The government of the city of Silver Lake came into existence on last Monday, when the mayor, recorder and a majority of the councilmen filed the oath of office. The council is now engaged in framing a charter for the city.

Attorney T. S. McKinney received a letter a few days ago from a party in Bend giving the information that the railroad was busily engaged in hauling

in steel and other construction material, which indicates an extension of its line, though at present no information is being given out by any of its officials.

By Adams made a trip to Lakeview last Saturday and was accompanied by King Henderson, editor of the Leader. Mr. Henderson went on to Colusa, Cal., where he went to get his auto and will drive it through to Silver Lake. L. B. Charles, of Fort Rock is looking after the Leader in his absence.

Additional Briefs

J. J. Cullen, of the Southern Pacific Railroad, arrived from Reno the first of the week and spent several days in Lakeview interviewing local business firms. Mr. Cullen is acting in the capacity of Mr. Metcalf during the latter's absence on a trip in the east.

Mr. and Mrs. John E. Smith and family, until recently of Gardnerville, Nevada, arrived in town last week and expect to make their permanent home in this section. Mr. Smith was employed by the Forest Service at Gardnerville, and has accepted a temporary appointment on the local Fremont Forest.

Mrs. V. L. Snelling, Mrs. Anna McGrath, Mrs. F. P. Lane, Mrs. T. V. Hall and Miss Pearl Hall left on yesterday morning's train for an extended trip. They will first visit San Francisco, then continue to Los Angeles and from there to New Orleans, Washington, D. C., Chicago and New York. The party expects to be absent about six weeks or two months, and there is no doubt but what the ladies will thoroughly enjoy such a glorious trip.

J. M. Howell, a popular druggist of Greenburg, Ky., says: "We use Chamberlain's Colic Remedy in our own household and know it is excellent."

Pier at Fairport

Reno, Nev. May, 27th, 1912.—The Fairport Town & Land Co. to-day gave the contract for the building of a sixteen foot wide pier by 300 feet in length. This pier will be made by driving large piles into the waters of the lake. The piling will be lined with heavy planks and then filled with rock. This will act as a break water and protect the shores from the heavy surf. It will enable boat owners to effect an easy landing and afford protection of

their craft. It is also the intention of the company to erect a magnificent open air observation and dancing pavilion at the end of the pier at an early date.

Fairport bids fair to become one of California's most charming resorts and a city of substantial proportions. It has resources and natural advantages and is backed by men who do things.
