SCHROTT AND MACK MAKE A BIG STRIKE

Lucky Dutchman Has an Eight Foot Vein--Sacks Ore at the Surface

(High Grade News)

Fred Schrott and R. L. Wade, operating the Lucky Dutchman lease on the Sunshine, have made a sensational strike. Within three days after securing the lease these enterprising leasers have uncovered an 8-foot ledge that pans bonanza gold and assays \$252.88 per ton at the surface.

The strike has more than vindicated all the claims that have been made from Camp High Grade. It has crystallized confidence in the intrinsic merit of the district. It has placed the camp at the head of the procession in all mining history. It is an absolute demonstration that the pot which boiled on the Warner range deposited some of the richest mineral ever discovered.

Capt. F. L. Evans visited the scene of the strike and examined the property at the request of the leasers. He states he found a well defined vein in place from which he panned several pieces of rock getting surprising returns. He brought in a sample which assays very high.
