## BIG DELEGATION FROM PORTLAND

"Special" Says League Meeting Will Be Largest "Seeing Oregon" Yet

Portland, Or., June 25. Special—The most extensive "Seeing Oregon" trip ever undertaken from Portland will be the big excursion to Lakeview next August. Business men of the metropolis will go by automobiles, covering about 2,000 miles. Alternate routes will be taken going and coming, so that an immense area of the state will be covered.

At Lakeview the Central Oregon Development League will be in session August 20, 21 and 22, and the journey will cover ten days. Some will go by train to Bend, others by auto, and all will leave Bend and motor southward to Lakeview, following different routes. Returning the Klamath county and Crater Lake will be visited, and delegates from Portland will take the train to Bend for home.

Secretary C. C. Chapman, of the Oregon Development League, is making plans for the trip and those who go will have a better knowledge of the Interior Oregon than ever before.

### Silver Lake Items (Silver Lake Leader)

Alex Fitzpatrick accompanied by a wool buyer to whom he had sold his wool, went up to the shearing pens Wednesday to weigh and deliver the same.

Mrs. Long and Mrs. Bennett of Shunway, Cal., who have been visiting their brother, Dave Dotson departed for home yesterday morning. Dave accompanied them as far as Lakeview in High Adam's machine.

School Superintendent Willis has been holding an examination of applicants for teachers certificates in Silver Lake this week, the following persons are undergoing the ordeal: George S. McCallahan, View Point; Carey H. Milam, Silver Lake; Ralph E. Strong, M. Eugenia Strong, Nellie Patison and Stella M. Pattison, of Fort Rock.

Hi Adams, the Silver Lake stockman and rancher, last week came down on a brief visit. His auto refused to work somewhere enroute between Silver Lake and this city, and he was obliged to come on to Lakeview by other means and return with some necessary repairs in order to complete the trip.

## NEW HOTEL WILL BE BUILT AT BLY

Mrs. Casebeer and Mrs. McKendree Have Purchased Lot For Purpose

Klamath Herald: The report comes from Bly that Mrs. E. Casebeer, whose home was burned Monday, causing a loss of about \$10,000, is to erect a hotel building in Bly. It is said that Mrs. McKendree will be interested with Mrs. Casebeer in the proposition.

Last August the only hotel at Bly was burned, and since that time the travelling public has been forced to seek accommodations with friends or some of the ranchers in the neighborhood. This spring Mrs. Casebeer purchased a lot 100x100 feet, across the street from the postoffice at Bly, with the intention of erecting a hotel, and plans had all been prepared. It is said that the recent destruction of the Casebeer home will not interfere with the plans of the building of the hotel, and that work is to be started soon.

Miss Della Walker left Monday for a short visit in Plush.

## TAFT GETS NOMINATION

(Continued from first page)

W. J. Bryan is quoted as being unsatisfied with the choice. It is being agitated to have the candidate who receives the second highest number of votes on the final ballot accept the nomination of Vice President.

Baltimore, June 26.—William J. Bryan met defeat at the hands of the democratic convention when Judge Alton B. Parker, of New York, defeated him for temporary chairman of the democratic convention, and in the opinion of many party leaders here eliminated himself for the race for the presidential nomination. The vote by which Parker defeated Bryan was 579 to 510.

## PEACH CROP IN DANGER OF PEST

O. A. C. Official Deals on Exterminating Blight and Leaf Curl

That the peach crop in the Willamette Valley has been almost wholly destroyed by a combination of cold weather and fruit pests is the opinion of Prof. H. S. Jackson of the entomology department of the Oregon Agricultural College. When interviewed recently on the subject he said:

"Peach growers are having trouble from two causes, peach leaf curl and California peach blight. This is an exceptionally bad year for the leaf curl. At the present time nothing can be done for this disease except a cutting back of the branches. Growers should make a regular practice of spraying their peaches in the spring with Bordeaux mixture.

The California peach blight attacks the branches, causing small cankers and copious gumming. For this disease orchardists should spray at once with the mixture known as self-boiled lime of sulphur. This mixture is described in circulars which may be obtained for the asking, from the college. The Bordeaux mixture should be used for this pest about Nov. 1 each fall. Both the leaf curl and the California peach blight are microscopic fungus diseases."

There has been an unusually large amount of correspondence this season between orchardists and the experiment station. In the past fortnight fully half these letters have been regarding the two chief peach disorders and Prof. Jackson believes there are not to be sufficient peaches to supply even the local demand, to say nothing of exports.

### New Brick Residence

S. L. Bailey and wife last week moved into their new brick residence on Park street off from Bullard. Mr. Bailey holds the distinguished honor of having built the second brick house in Lakeview. It makes a very credible adjunct to that part of town and no doubt his example will be followed by others. The building is made in one story and covered with cedar shingles. Being a brick mason, Mr. Bailey attended to most of the mason work as well as outlining the plans, and specifications.

By good judgment, conservative management, etc., the house was erected at a nominal cost, and so arranged that the Baileys are most comfortably located for the future.

Lost, a gold locket and chain, Sunday in Lakeview. Locket was inscribed with initials, F.E.L. Finder please return to E. H. Clark at Bank of Lakeview and receive reward.

## OREGON EASTERN IS TRANSFERRED

Property Has Been Taken Over By The O.-W. R. & N. Company

A dispatch from Salem, Oregon, says: "Articles filed for record in the office of the Secretary of State show that the Oregon Eastern Railroad has been dissolved and its various properties have been transferred to the Oregon and Washington Railroad and Navigation Company.

The Oregon Eastern was a Southern Pacific Company, formed to build a line across Oregon from west to east. The California Northeastern, from Natron to Weed, the Modoc Northern, the Fernley and Lassen, and the Goose Lake Southern were all turned over to it, and have in turn been transferred to the O. & W. R. & N. Co.

### Drislane Is Recovering

Despite the handicap of an artificial windpipe supplied by surgeons, William Drislane escaped from his nurses at St. Joseph's Hospital some time during the night and was at large several hours before his strange appearance and bandaged neck resulted in his apprehension by a policeman. Drislane is a recent arrival from Ireland. Overcome by homesickness, he cut his throat three days ago. After treatment at the Detention Hospital he was returned to St. Joseph's, where, it is believed, he will recover despite his ailment.

The above is from a San Francisco paper and refers to Wm. Drislane who it will be remembered, attempted to take his life last Spring by cutting his throat. He was later taken to the hospital by Father Schmitt, and according to the above is very much alive yet.

### Business Extending

The walls on the brick addition to the Bailey & Massingill store are completed and work has begun on the roof and finishing of the interior. The new addition will increase floor space for this rapidly advancing firm, an adjunct which they greatly need.

In making preparations for the change of arrangements in their store, they have begun a large alteration, sale as an inducement to more rapidly dispose of certain lines of merchandise before they rearrange their stock. The plan inaugurated by this one business house to keep in stride with progressive advancement and get yet nearer to metropolitan ideas is only one among the many in Lakeview.

Lakeview takes pride in the appearance of her substantial business establishments, and their new improvements is self-evident of the volume of business transacted here.

## THREE-YEAR BILL NOW IN EFFECT

New Land Ruling Makes Lenient Law for Homesteaders

The new three-year homestead law is now in effect, the United States Land Office having received the rules and regulations applicable thereto a few days ago. The law applies to entries made under any other act, except the reclamation act and the additional homestead law of April 28, 1904. All existing entries are effected by the new law, but where the entryman desires to make proof under the law under which the same was made he may do so by notifying the local Land Office to that effect not later than September 6, 1912. Otherwise his entry will be subject to cancellation at the end of the three year period.

Under the new law entrymen are allowed five months' absence during each year, providing they notify the Land Office when the leave is to begin and also when the entryman returns. The word "cultivation" is held to mean that at least one-sixteenth of the entry was in cultivation during the second year and not less than one-eighth beginning with the third year. In the case of entries under the 320-acre law double the area is required to be in cultivation.

### Storm Was Beneficial

Last Saturday evening this section was visited by one of the hardest storms of the season. A torrent of hail and rain brought down a vast amount of moisture in a few minutes. The shower covered nearly all the valley. It was first reported that the crops had been damaged by the storm but from all late reports, it is stated that little damage was done and in general it will prove beneficial. Some alfalfa hay that had been cut prior to the downpour was slightly injured, but little haying has begun, and that cut represents but a very small percentage of the crop.

According to newspaper reports the storm was general over the state and in some places considerable damage was done to hay and some fruits.

### New Lumber Yard

The firm of Crawford & Jeager has opened lumber yards in Lakeview and New Pine Creek and will also furnish lumber for the new town of Fairport and High Grade.

W. J. Bradley will be local agent and J. A. Crawford will represent the company at New Pine Creek. They have the contract for furnishing lumber for the New Pine Creek School building, work on which has already begun. The company has also taken several orders from local people, which will mostly be used in the construction of dwellings.

## KINGSLEY ADDITION TO PINE CREEK

Being Centrally Located, Lots Make Good Buy in Town Property

Kingsley's Addition to New Pine Creek affords one of the best opportunities for a cheap buy in a lot in that thriving town. Kingsley's addition is located in Oregon on the state line and immediately joining the new resort and business townsite of Fairport on the California side. The location is opposite the beautiful home of Felix M. Green the theme of praise for everyone who sees it.

In pursuance with "Uncle Dick's" enterprising spirit, he has made a standing offer to present anyone with a lot, in this addition, who will move on it and establish a business.

The town and surrounding country is capable of supporting most any legitimate venture, and his offer will no doubt soon be taken up.

E. R. Patch is sales agent, with headquarters at New Pine Creek.

### Wedding

County Clerk Payne last week issued a marriage license to Frank Bussey and Miss Hazel T. Miller, both of New Pine Creek. The ceremony occurred at the home of the bride's mother at that place last Sunday evening, Rev. A. F. Simmons, of this place officiating. Both young people are old residents of the New Pine Creek section and are quite well known here. A wedding dinner was served in the evening at which about forty of the immediate friends and relatives of the young couple were present.

The Examiner extends congratulations.

### Prize In Demand

Following the announcement that the Northwest Development League would award a \$50,000 prize for the best five bushels of wheat produced in the American Northwest and exhibited at the Northwestern Products Exposition in Minneapolis during November, several hundred growers have signified their intention of competing for the prize.

The league has prepared a four page leaflet telling all about the conditions under which the prize is offered, the rules for judging etc. These are sent free to everyone applying to the manager of the Northwestern Products Exposition, Minneapolis.

H. A. Utley, republican nominee for County Clerk, last week returned from a tour over Modoc county and Southern Lake, where he was taking orders for nursery stock. Mrs. Utley will join him from Valley Falls this week and they will reside in Lakeview.

## Attention, Horsemen
