Notice to Subscribers
Subscribers to The Examiner who remove their residence to another, or change their postal address should remember to drop the office a card so their paper can be addressed to the right postoffice.

Lakeview, Oregon, Thursday, July 4, 1912

COMPETITION

Lakeview has gained a wide reputation as a residence town. This fact is attested by its many beautiful and modern built homes. The first attraction that meets with commendation from the stranger is Lakeview's residence districts and the character of homes that have been built here. People remark about the clean appearance of Lakeview and go away telling their neighbors and friends of this condition. Conditions naturally, in all things, change. We have coming towns on all sides of us that are striving for the same reputation. And it is only natural because the era of development is swooping down upon other localities as has been prevalent in Lakeview for sometime.

Alturas to our south is growing and is making improvements, they are now figuring on sewerage the town. Bend to our north, is a thriving little city, they have already voted a bond issue for putting in a sewerage system. Burns, to our east, will also soon hold an election for this purpose. Paisley, nearer home, is giving promise of a coming little city, and we can expect the same of New Pine Creek and the new town, Fairport to the south. With all these towns in their progressive states and in their future, Lakeview heartily rejoices. She does not envy them, she extends them the glad hand of fellowship and wishes them prosperity.

But, on the other hand, isn't the fact of this tide of progression worthy of some consideration? One thing is imminent and that is, we have competition, which necessitates action. And competition means one of two things, success or defeat. Lakeview has many resources upon which to draw to maintain her reputation as a residence town, but it is necessary to keep up with improvements. The next vital issue towards future development of Lakeview is the sewerage system. It is fortunate that we have the plans under way as they are at present, and the only thing that remains for the citizens to do is to vote for bonding the town for the necessary amount with which to construct the system.

ing of children and their death from lockjaw by prohibiting the sale of fireworks and like destructive agencies. Official appreciation of this fact is evidenced by the enactment and enforcement of appropriate ordinances. Many officials have in the most salutary way cooperated with non-government agencies interested in the safe and sane Fourth. Legislation against fireworks has been restrictive or prohibitive. The latter, of course, gives the best results.

In European countries occasions akin to our Independence Day are commemorated by means of fetes and other picturesque ceremonies, quite adequately, just as heartily and with as much patriotic fervor as among us. Continental people have a genius for festivities, national as well as all other kinds. For adult patriotism, oratory may suffice; but this is not satisfying to the youth of the land. In the legitimate interests of boyhood and girlhood, things equally brilliant and satisfactory must be substituted for the noise, the flare and the vari-colored flame: and substitutes even more resplendent have been found in abundance. We have now a method by which the Fourth shall cease to be a day of terror, and shall become instead one of happiness, recreation and enlightenment. Noise is now being replaced by music—the music of bands, and of choruses drilled weeks before hand by skilled leaders, and the singing of national airs and popular songs. There are tableaux, plays, floats devised by artists, representing historic and patriotic incidents and achievements; parades in which the Army and Navy, the police and fire departments, the militia, school children and industrial organizations take part; picnics with circuses and pink lemonade, peanuts, ice cream and watermelon are sufficient to satisfy most anecdotal digestion; parks and other public places and buildings, both public and private, gorgeously illuminated by electricity, children's carnivals and dances; school celebrations; athletic sports, with distribution of copies of the Constitution, and so on.

And no maimings, no burnings, no killings, no lockjaw!

SAFE AND SANE FOURTH OF JULY

Old Custom of Noise and Confusion Being Replaced by Music

Each year since 1903 The Journal of the American Medical Association has been waging a propaganda against the insensate maiming and death-dealing methods of celebrating our independence holiday. It has gathered and collated the indubitable facts; and the lay press—magazines and newspapers—have seconded its endeavors so that an almost revolutionary change has been taking place.

It is gratifying to observe that more and more the constituted authorities have recognized that it is their duty to prevent the burning and the crippling

GRADUATION GOWN.

A Simple and Girlish Design For the Event.

Yes, it is rather early in the season to talk of graduation gowns, but tempus has a fashion of fugiting quicker than schedule time in these strenuous days, so before one has a chance to turn around the sweet girl "grad" will be needing her new gown.

The illustration shows a delightfully simple and girlish design for the occasion. The tunic lacing is one of the noticeable features, and altogether the gown is "sweetly pretty," as our English cousins say.

Boudoir Sets For Summer.

The new spring lines in fancy boudoir sets, including sofa pillows, scarfs, bags, pincushions and a large number of practical articles, are brought out in particularly attractive materials and with pretty minor variations in the way of trimming, which makes them very fascinating to wo-

BAILEY & MASSINGILL---The Home of Good Values

men in general, says the Dry Goods Economist.

One of the daintiest of boudoir sets is shown in white cotton voile, with a pink ribbon design running through it and large pink roses placed on the ribbon at intervals in border effect.

This design adapts itself admirably to the various methods of trimming. Cut into strips the material is used as an attractive border all around the square pillow or in two vertical borders across the long pillow. The long pincushion and corset bag have this border running through the center.

An effective new trimming that is a revival of an old mode, old enough, however, to be again called new, is the fringe and passementerie border of macramé cord. By the way, wide bands of lace crocheted in fine macramé cord, copying venise patterns, are being used as high style dress trimmings, and this is probably responsible for the reappearance of this kind of work in the fancy goods department.

Additional Briefs

The sneering operations are now well nigh completed at all of the corals hereabouts. The clip this year is estimated at about 7 pounds per head, which is 1 pound more than last year. The cause of last season's shortage was attributed to the previous severe winter.

F. P. Light of Hotel Lakeview has been confined to his home this week with an attack of appendicitis. Mr. and Mrs. Light were intending to attend the Elk's Convention at Portland, and were to leave today with W. Lair Thompson and wife, but his illness will prevent them from attending.

F. P. Cronmiller and wife and mother, Mrs. Daniel Cronmiller, yesterday left for Klamath Falls by auto. Mr. and Mrs. F. P. will continue to Portland to take in the Elks Reunion while Mrs. Cronmiller, Sr. will visit in Klamath Falls until their return. They will be absent about two weeks.

T. J. Waldron, of Goldfield, Nev., arrived in Lakeview this week on an inspection trip of the country. He is representing a colony of people in his section who desire a new location. He purchased a horse while here and went to the northern part of the county to see what he could see in that country.

J. F. Hanson Sunday crossed the lake in his gasoline launch to join the Lakeview excursionists at New Pine Creek. The trip over was easily made but on attempting to return the boat refused to work, which trouble necessitated him in having the launch brought to Lakeview by wagon for repairs.

Several outfits of travelers enroute through town Monday and Tuesday attracted quite large crowds through the sale of horses. Monday a large audience gathered at the Bank of Lakeview corner, and Tuesday noon a much larger gathering took place at Bieber's corner. Several of the animals were disposed of.

Michael M. Barry, the local sheepman, is expecting a visit from his father, who is now in Newark, Ireland. Mr. Barry, Sr. is a well known figure in Irish politics. He was a resident of this section for many years and still owns considerable land in Lake County. His visit will be looked forward to with interest.

Burns Herald: George Storkman, the Ontario cigar manufacturer, was here during the week displaying his wares. He is making good cigars and sold a nice lot to local dealers. Mr. Storkman didn't propose that the newspaper man guess at the quality of his goods, as he left a generous supply for our trial and we can vouch for them.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by all dealers.

Alturas Plaindealer: The press of the county has reported the sale of the X.L. property to Wm. Heryford. The facts are, Mr. Heryford sold the property a few years ago to the Oregon Valley Land Co. Part payment was made at the time, but the company failing to meet further payments Mr. Heryford merely took his property.

The Examiner acknowledges with thanks the receipt of a season pass to all the various attractions at the Alturas Fourth of July Celebration. An effort will be made to have the Examiner represented at this joyous occasion, but had the holiday not occurred on press day, we promise that it would have been represented in larger numbers.

For the first time in its history the famous battleship Oregon is to visit its own state. During the Elks reunion, in July, the historic old fighting ship will be brought to Portland harbor, where it will be much admired by all loyal Oregonians. Naval officials have at last given their consent to the request that the Oregon be brought here.

Rev. E. S. Wilcox, of Paisley Tuesday came down on a business trip. He is publishing the Chewaucan Press since the death of L. R. Jones, and has been appointed administrator of the estate. He stated that Mr. Jones had just bought the paper shortly prior to the time he was killed and had closed the deal the same day of his death. We acknowledge a pleasant call from Rev. Wilcox.

George Wingfield, who had the Senatorial toga of Nevada thrust upon him, but who has not yet accepted it, accompanied by Governor Oddie and others, has returned to Reno from the Wingfield hunting lodge in Lassen County, Cal. Wingfield states that he has not yet made up his mind whether he will accept the appointment or not, and that he does not know when he will decide. Wingfield will be in Elko July 3rd.

George Ede, who has been boring an artesian well in the Drenkel addition to Lakeview, this week, moved his machine to Warner where he has a contract for sinking a well. It is said that he reached a depth of 400 feet on the well here and that water raised within four feet of the surface. Mr. Ede did not state as to his intentions about continuing boring but it is likely that he will resume work after his return from Warner.

This section last Saturday and Sunday nights was visited by light frosts. The first report was rather discouraging, but later returns show that no damage was done other than some gardens were slightly touched. The past cool wave seems to have been general over the country according to reports. A heavy freeze now would probably injure some of the grain but nearly all fruit is beyond any damage.

With the many crowds of people gone to attend the various celebrations at neighboring towns, together with the delegations that have left for Portland for the Elks convention, Lakeview today seems almost deserted. It shows the proper spirit on the part of the people by so generously attending outside celebrations, and places Lakeview in proper line to expect returns when she holds her celebration.

Miss Bride Flynn, who made many friends here on her former visit, Saturday evening, arrived from San Francisco and expects to spend sometime in both Lakeview and Plush on a visit

It is worse than useless to take any medicines internally for muscular or chronic rheumatism. All that is needed is a free application of Chamberlain's Liniment. For sale by all dealers.

to her sister, Mrs. Thomas Sullivan. Miss Flynn has been acting as trained nurse in that city. She received a hearty welcome on arrival from many local friends.

Suspended Banks

Following is a corrected list of national banks that suspended payment after the panic of 1893, and is a correction of the list contained in the U. of O. Bulletin, Vol. IX, No. 1:

Among the national banks that suspended payment were the Baker City National, First National and The Dalles National of The Dalles, National Bank of Pendleton, First National of Arlington, Linn county National of Albany and Eugene National of Eugene.

Silver Lake Items

(Silver Lake Leader)

We had a pleasant call last Tuesday evening from O. C. Gibbs, an attorney of Lakeview.

If the rainfall keeps up in the same proportion it has the past month there can be no complaining about the lack of moisture. Last Saturday 73-100 of an inch fell, and the grain looks well as a natural consequence.

The irrigation project of C. H. McKendree to store and use the surplus waters of Silver and Buck creeks is assuming a very encouraging stage. Mr. R. H. Rogers, has been making a survey of the proposed ditch during the past week and so far has encountered no very difficult obstructions to overcome.

M. C. Mery and wife, of Chico, Cal., were guests of the Hotel Chrisman last Monday night. They came by automobile and are going to Portland by way of The Dalles. The route by way of Lakeview and Silver Lake from California to Portland is becoming quite popular with motorists, the roads generally are good and the scenery beautiful especially through the Goose Lake valley and across the Sierras.

Paisley Pick-ups

(Chewaucan Press)

B. F. Cannon visited his family Sunday. Mrs. Cannon and daughter Gladys, returned to the ranch with him for a short time.

Mayor Campbell, of this city, left for San Francisco, California, and other cities, Monday. He expects to be absent about three weeks. On his return, operations will be resumed at the Monarch mine.

E. S. Wilcox, who at present is in charge of the Press received a letter from the brother of the late L. R. Jones, in which he stated that it was not certain regarding his coming to Paisley. However, he may later. Mr. E. S. Jones has large interests in Minneapolis and unless absolutely necessary, he may not be able to visit here.
