The development of ripe fruit is now the season's chief interest in various parts of the country.

J. H. Every, president of the New York Fruit Growers' Association, said that the season was one of the best in history.

Mrs. L. S. Ford, a well-known horticulturist, recommended the planting of new fruit trees.

F. W. Burton, of the California Agricultural College, said that the weather had been favorable for fruit growth.

The New York State Department of Agriculture reported that the season had been one of the best in history.
