One "1910" E. M. F., 30 H. P., also in fine shape. Cheap.

BY WAY OF RENO SHORTEST ROUTE

Distance Much Less Over
S. P. Lines than by W. P.
From Doyle

Reno Gazette: It seems somewhat paradoxical that "the longest way round is the shortest way home," but it is proven in the case of the journey from Lakeview, Oregon; Alturas, California and all other points along the line of the Nevada-California-Oregon and the tributary country in the two states.

First glance at the map would make it seem to appear that it would be less mileage and shorter time to leave the N.-C.-O. and take the Western Pacific for San Francisco and other coast points at Doyle, but careful figuring of the distances over this route and that by continuing on the N.-C.-O. to Reno and transferring to the Southern Pacific shows that there is a remarkable saving by the latter route.

The distance from Doyle to San Francisco via the Western Pacific is 363 miles, while by way of the N.-C.-O. and Southern Pacific via Reno it is only 301 miles. It thus affects a saving of 62 miles to travel from the northern country to San Francisco by way of Reno.

Visit Neighboring Towns

Sunday's excursion train to New Pine Creek and Fairport was boarded by eighty-five Lakeview people. The day proved ideal for the occasion and the crowd fully enjoyed the trip. Boating on the lake proved a novel amusement and that together with the baseball game at New Pine Creek, pleasant pastime was provided the excursionists. At the ball game Lakeview met with defeat in a score of 7 to 9.

According to reports prevalent in banking circles George Wingfield, millionaire Nevada banker and mining man, who recently declined Nixon's place in the Senate tendered him by Governor Odell, is to accept the presidency of the four banks of which the late Senator Nixon was the chief executive.

COMMITTEE GETS \$1,431 SUBSCRIBED

Meeting Of Committees
Held To Decide The Cost
Of Celebration

The finance committee, composed of A. E. Florence, Geo. B. Whorton and Cobb Henkle so far have raised the total sum of \$1431.50 for the convention of the Central Oregon Development League. Following is the petition:

"We, the undersigned, subscribe, and agree to pay, to the Finance Committee appointed to solicit funds to conduct a celebration and entertainment in Lakeview during the meeting of the Central Oregon Development League, Aug. 20, 21, 22, 1912, the amounts set opposite our respective names as below."

The various committees met Monday evening in the Commercial Club rooms to outline plans for definite work, and for assignment of funds amongst the various committees. Lee Beall, chairman of the sports committee agreed to prepare a good program of sports and make all arrangements for \$200 and the privilege of gate receipts. Mr. Shirk, chairman of the committee on exhibits, felt that their part of the work could be handled at an expense of about \$100. The committee on Luncheons was unable to estimate the cost but it is thought that the luncheon to be served at the Hanson ranch on the West Side will cost approximately \$100. Mr. Rinehart chairman of the transportation committee, had the happy information to impart that their work could be handled without asking for any money. The committee on music, being undecided as to what kind and the amount of music to be furnished, was unable to make any report.

The finance committee will collect the subscriptions in a few days, when the general committee will meet and apportion the funds and make all final preparations for the work.

Mothers' Club Meeting

The Mother's Club held their regular weekly meeting Tuesday afternoon in the Methodist Church. It was decided in the future to meet on the second and fourth Tuesdays of each month.

After the introductory exercises consisting of songs, a talk by the president, Mrs. Cloud, and a solo by Mrs. Leonard, Doctor Morgan was introduced as the speaker of the afternoon. He discussed the subject of infant mortality and social impurity. He showed by statistics that four out of five deaths of infants are preventable. He cited some remarkable instances of the decrease of the death rate as a result of inducing mothers to nurse their babies and of education as to their proper care. As a corrective of social impurity he advocated education, agitation and as much as possible keeping young girls from going to the cities to work.

The Mother's Club was only recently organized but it is growing steadily and is promised to be a strong force for good in our city.

The dairy industry has been given a decided impetus by the action of the Willamette Valley Irrigated Land Company in providing the settlers on the irrigated tracts with funds to buy all the milk cows they can feed, repaying amounts in monthly installments out of the cream checks.

MANY NEW STRUCTURES

Continued from first page
writing table and ladies toilet adjacent.

The carpenters are now at work tearing out the old store front which will be replaced by modern display windows. These will be one foot above the cement walk, to be constructed. The windows will be six and one half feet high by six feet deep. Above the windows will be a three foot Prism glass

across the entire front. A steam heating and lighting plant in the basement, is included in the many changes being made, all of which will be completed within the next few weeks. This increase in floor space has been a long felt want by this growing and progressive firm and it will adequately equip them to take care of their large trade.

The addition to the First National Bank, which is 41x48 feet with full basement, is being constructed of brick. This will be two stories in height, the lower floor of which will house the Lakeview postoffice, while the upper floor will be fitted up for office rooms. A cement sidewalk will be laid across the building on the south side and around the front. This undertaking will cost approximately \$5,000 and will add a great improvement to that corner.

Between the north wall of the First National Bank and the Lane & McAuliffe saloon, Dr. Daly is having erected a 75x24 foot one story brick building, with full basement, which will have a cement sidewalk across the front. When completed the building will cost upwards of \$3000 and is being constructed for restaurant purposes. China Eli, who conducted the restaurant in the old building on the same site, is now in San Francisco purchasing furnishings and equipment for the purpose and will fit up a modern and first class cafe in every particular. It is stated that a young cousin of his will manage the business.

The N.-C.-O. Railway company is now working on and have nearly completed a new \$15,000 depot at the foot of Center Street. The building is constructed of stone and brick and when completed will be, without exception, the handsomest and most modernly designed depot in Southern Oregon or Northern California. The building that is being used for a depot at present and which will be used for a freight house after the completion of the new one, was built since January 1, at a cost of no less than \$3000.

Another valuable addition that has been added to the town since January 1st is the Snider opera house that was built at an expense of \$5000. This is a wooden building but is of modern design, with maple floor and equipped with a large stage and contains the conveniences of a play house, motion picture show and dance hall.

The Reno Brewing Company's warehouse in the Walter's addition, north of the depot is a building that represents a cost of at least \$1,500.

T. E. Bernard, hardware man, has spent about \$500 on the addition of a brick front across his entire store on Water street.

The following dwellings have been completed this year and the estimated cost given below is a fair one:

Sam Bailey on Park street, brick \$2000; H. O. Kuhl in the Watson addition, bungalow style, \$2000; Dan F. Brennan, in process of construction, bungalow in the Drenkel addition, \$2000; John Lewis on Slash street, \$1500; the Catholic rectory, brick that is being erected immediately North of the Catholic church, \$1,000 and Frank Wilson, on Slash street, \$1000.

The Sunset Lake Lumber Co., formerly Pandango Lumber Co., that established a lumber yard on Center street reports that they have sold a considerable amount of lumber since establishing a yard in Lakeview. At present they have about 300,000 feet of lumber on the yard, and inform us that they have contracts to fill for six dwelling houses and three barns to be erected soon.

The Lakeview Land and Lumber Company report that their sales of lumber since January 1, will nearly reach the \$10,000 mark, and that they now have about 350,000 feet of lumber on hand in Lakeview.

This progressive and enterprising spirit shown by our citizens is a demonstration of the faith they have in the future growth of Lakeview. Regardless of the fact that this is the so-called Presidential year, and money is considered somewhat tight, the citizens have not wavered from their convictions that Lakeview is the coming town of Southern Oregon and they have backed their convictions with their dollars, in adding to the stability and in substantiating the growth of a greater Lakeview.

Our building era already established this year more than doubtless that of any place heard from in this entire interior country.

IF YOUR HORSE IS AS GOOD AS OUR HARNESS he is certainly a dandy. Take a look at the harness. See how pliable the leather is, how strong and neat the stitching. Note the handsome metal work and trimmings. Looks as pretty as a picture, though ours is not picture book harness by a great deal. It is the real thing as you'll find out when you come to use it.

E. F. CHENEY

LAKEVIEW OREGON
