PROTECTION FOR THE STATE'S GAME

Secretary Pearson Says Birds and Fish Must Have Refuges

Mr. T. Gilbert Pearson, Secretary of the National Association of Audubon Societies, has just arrived in Portland, coming direct from New York City. The object of his visit is to assist in the work of the Oregon Audubon Society and aid the State Board of Fish and Game Commissioners in securing wider interest in bird and animal protection. Mr. Pearson is a writer of ability. His book, "Stories of Bird Life," has had wide circulation, especially in school work. He is also President of the National Association of Game Wardens and Commissioners which meets in Denver August 30th.

"Song and insectivorous birds as well as game birds and animals of Oregon must be provided with special refuges and retreats where they cannot be pursued or killed," said Mr. Pearson. "There are plenty of lakes, shore lines, rough mountain regions and other waste places that are of no use for agriculture where these creatures will thrive and increase if protected. The Audubon Society is investigating and seeking out these places with the idea of getting them stocked with birds that will protect our fields and forests from the ravages of insect pests."

"Oregon is fortunate in already having four of the largest and best wild bird reservations in the United States," continued Mr. Pearson. "Under the Fish and Game Commission other refuges on private lands are being established in various parts of the state. It is very urgent that two or three large reserves be created for the protection of mountain sheep, elk, antelope and mule deer, which are rapidly approaching the point of final disappearance in this State."

SMITH BAGS BUCK ON WARNER RANGE

A 250-Pound Six Year Old Brought Down By Ira's Unerring Aim

(High Grade News)

Yesterday morning Ira Smith, our well known fellow townsman, and a hunter of note, went up into the Warner Range, and returned last night leading his horse. Bound to the saddle as a large "Mule Tail" Buck, weighing 250 pounds.

The animal was one of the finest specimens ever brought to town, and was only one of quite a herd that Mr. Smith started.

The antlers show six points. The head is a beauty, and Smith will have it mounted. Large game is plentiful on both sides of the lake, especially deer. Sunset Lake is the breeding place of wild water fowl, and furnishes hunters with plenty of real sport.

Pine Creek Victorious

(High Grade News)

The mighty Alturas Sluggers invaded Pine Creek Sunday, Aug. 4th in war paint arrayed, with full intent of wiping the Pine Creek boys off the face of the earth, not too much Willow and Kesselring caused their downfall to the tune of 9 to 4.

Plush was on the mound for the visitors but was relieved in the 5th inning by Godfrey but the Pine Creek boys had the game safely stowed away.

The pitching of Kesselring was the feature of the game he allowing but two measly hits in the session, and retiring 14 by the strike out route. The entire team under the management of Dashwood are rounding in form fast and within a short time show championship form. The attendance was small on account of a misunderstanding about the special train being run to accommodate the many people from Alturas.

\$50 REWARD.

A REWARD of fifty dollars is hereby offered for information that will lead to the arrest and conviction of any person who has stolen wires or other property from our Company; and the same reward is hereby offered for information that will lead to the arrest and conviction of anyone destroying the property of the Company.

Chas. Umbach,
Secretary Lake Co. Tel. & Tel. Co. 167.

LAKEVIEW DRUGGISTS DESERVE PRAISE

Hall & Reynolds, druggists, deserve much praise from Lakeview people for introducing here the simple buckthorn bark and glycerine mixture known as Adler-I-ka. This simple German remedy first became famous by curing appendicitis and it has now been discovered that a SINGLE DONE relieves sour stomach and constipation INSTANTLY. It is the only remedy which never fails.

SUNSHINE MINE WILL SHIP ORE

Ten-Ton Consignment is Ready For Shipment--\$350 Ore

(High Grade News)

The Sunshine-High Grade Mining Company will send out a ten-ton shipment of high grade ore next week. The average value of this ore it is believed will net the company about \$350 per ton. The shipment was taken from the rich vein above the tunnel level and between shaft No. 1 and No. 2. There is a considerable quantity of this character of ore in sight in the mine, besides a great deal of the picture rock that has not been disturbed.

Altogether there are 8 sets of leasers working on the Sunshine property. Twenty-five miners are at work and sinking and drifting in the tunnel level is going on night and day. Sensational values are being encountered as the work progresses. Schrott and Mack on the "Lucky Dutchman" lease on the Yellow Jacket claim, are working in very rich rock and are making preparations to put in a plant of machinery to hasten development work. Oldman and Padgett, working on block 1 on the same claim, have encountered rich gold rock. Purcell and Keegan, who have pinned their faith to the camp, have done a great deal of surface development work on block 3 on the Yellow Jacket claim. Pannings from this lease have always been good.

There is more development work in progress on the Sunshine claim than on any similar area of ground in High Grade. Miners are at work everywhere on this property. Bruner and Ramage are working lease No. 1 with good results. The Sunshine Twin Leasing Company working blocks 3, 6 and 7, are doing splendid mining and are sacking and saving ore for shipment. Block No. 5, known as "Lucky Dutchman Lease No. 2," have built an ore bin and are saving a great deal of high grade ore which they found on the surface in trenching to locate the rich Sunshine vein. Considerable of this ore shows free gold plainly.

Bruner and Ramage, besides operating block No. 1, yesterday secured block No. 1. This is considered one of the best leases on the Sunshine claim, as it includes the north and south vein which mining men assert will undoubtedly prove the largest and richest vein on this property. From this vein it is believed came the large boulders of rich ore found on the surface, but the source of which has not been successfully located.

Everything is in a prosperous condition at the mine, and the officers of the Sunshine Company are in excellent spirits, confident of a successful outcome and the development of a tremendously rich mine.

Lucky Dutchman a Songster

(High Grade News)

Fred Shrot the expert mining man, known all over the west as the "Lucky Dutchman," by reason of his having bonanza mines in a number of camps, and who recently uncovered picture ore in the "Lucky Dutchman" lease on the Yellow Jacket claim of the Sunshine holdings has crowds by demonstrating his talent as a singer.

When the florid faced miner with callous hands arose and sang "Answer" and other popular numbers to a Lakeview and Pine Creek party, accompanied by "Speedy Swift" the piano prodigy, he swept them off their feet and at once became the pet of the household.

Schrott and Swift will make hits with "The Great West Panorama Around the World."

Anderson Returns

(High Grade News)

After a brief absence from the district Mr. J. H. Anderson, of Philadelphia returned to camp Friday night, and is busy arranging preliminaries to start work on the Wild West Tunnel, which will penetrate Sunshine Mountain from the southwest at great depth. Mr. Anderson is one of the liveliest wires that has come to Camp High Grade. He is also one of the shrewdest and most active mining men in the West. It is safe to predict that there will be something exceedingly interesting going around Sunshine Mountain from now on. Associated with Mr. Anderson are Charles N. Miller of the N.-C.-O. Railway and W. C. Forman.

The Seven Lakes Robbed

(High Grade News)

On Thursday night some party or parties entered the Fairview Tunnel, one of the Seven Lakes Properties and carried away all the tools, powder, and other articles. In fact about everything in sight.

Manager Branley states that it was one of the boldest thefts in mining history. He is offering a reward for the arrest and conviction of the plunderers.

Let the Examiner figure on your next Job Printing.

BURBANK WILL DO MORE WONDERS

Plant Wizard is Going To Produce Plant of Much Versatility

An eastern journal says Luther Burbank the California plant wizard, expects soon to produce by hybridizing the potato and tomato a plant that will produce tomatoes on the stalk and potatoes under the ground. The eastern editor seems to think the project perfectly feasible and hopefully looks forward to its realization.

Perhaps he has been reading of the Fresno man who crossed his bees with fire flies and developed a species of honey makers that worked every hour of the twenty four instead of half of the time. Each of these hybrid bees carried his own lantern and was equally at home in daylight or the dark. The ingenious apiarist naturally amassed a great fortune and gained wide fame—as a liar.

But Professor Burbank is not devoted in his whole time attending to hybridizing the potato and the tomato. He is developing a fruit tree that will bear peaches in the summer and oranges in the winter. Also he is crossing the milkweed with the snow plant with the idea of developing a plant that will produce ice cream. The world is familiar with the ramous tree he has propagated to grow dogwood sausages.

If our eastern friend will keep his eye on California he will see some wonderful things and hear of others still more wonderful.

Fairport

(High Grade News)

Oh! Fairport, the Beautiful, charming, serene:
How fair! 'midst thy flowers and thy fields waving green:
Thy mountains and woodlands in gay verdure dressed,
All reflected in Sunset—the Gem of the West

When Nature her daughter in gems had arrayed
And Killarney, Lucerne, and Katrine had made,
Reserving her powers for one grand, final test—
She created her masterpiece,—Sunset, the Best.

When Storm King rages on Warner's white crest,
Weaving great, snowy billows with icicles dressed:
Thy crystal streams warble more cheerful their strain,
Singing praises of Fairport and Sunset again.

Sol greets thee at morning with flushed, rosy face
And decks thee with blushes, and beauty and grace,
And at night his farewell, as he sinks to the sea
Is a satisfied smile upon Sunset and thee.

At nightfall—when Sunset thy pretty feet leaves,
Luna weaves silvery fretwork upon her clear waves:
And the birds on her bosom, her flower bordered shore
Are Nature's sweet gifts to Fairport—evermore.

Oh! Fairport, the Beautiful, Fairport, the Grand:
Thy back to the mountain, thy feet on the strand,
The gem studded land of the great, golden West
Holds no lovelier Haven than Fairport, the Blest. —Prospector.

What the Kidneys Do

Their Unceasing Work Keeps Us Strong and Healthful

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

A. B. Scofield, Ashland, Ore., says, "It gives me great pleasure to endorse Doan's Kidney Pills. They brought me great relief from a severe attack of kidney complaint and I am now entirely free from the trouble. Doan's Kidney Pills can be relied upon to dispose of backache and difficulty with the kidney secretions."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

If you want a really good smoke for a tickle, try Storkman's Leader.
