### ENJOYABLE TRIP WAS TAKEN SOUTH

Orchards, Gardens and Waving Fields of Grain Pleased Visitors

The trip down to New Pine Creek and Fairport Thursday was greatly enjoyed by the delegates to the Development League, and they returned with a changed opinion as to the possibilities of a country lying in the elevation of nearly 5000 feet above the level of the sea. Waving fields of grain, fine orchard and gardens, with attractive farm residences greeted them all along the line, and the lake stretching far away to the west left an impression that will remain for years to come. The day was ideal, the roads fine and not a single instance marred the pleasures of the day. Upwards of 50 autos made the trip, and all were crowded with passengers. Aside from the mining exhibit, New Pine Creek made no effort to display the products of that section, the display here in Lakeview being considered sufficient, although Fleming Bros. had a small window display of fruits. However, the mining exhibit was excellent and attracted much attention from the visitors. There were samples of ore from numerous mines, among them being the Gold Stripe, Big 4, Last Chance, Sunshine, Lucky Dutchman, and others equally well known.

What was termed a meteoric stone attracted much attention, inasmuch as when it was hit with a piece of iron it gave forth a silvery-like tone resembling that of a fine bell. It was found in the hills back of town, and many other pieces abound in the vicinity.

### Boosters From 'Way Back

One of the best lot of boosters attending the League hail from Fort Klamath in the Wood River Valley and they have no hesitancy in letting the rest of the delegates know where they are from. They were headed by John Ellis and his efforts ably seconded by Senator Weed, James Pelton, L. C. Sisemore and others. They had neatly printed badges, the badge being green with gold printing, which is emblematic of their fine pastures and golden sunsets, besides a large banner which they stretched across the street. Their section is particularly well adapted to dairying, the industry having made a remarkable growth during the past year. A modern creamery has just been completed, and the first roll of butter was sold for \$26.40.

The town of Fort Klamath is but a few miles from Crater Lake, and on account of its location is becoming noted as a Summer resort, many tourists making it headquarters while visiting points of interests in the neighborhood.
