

Lake County Examiner

HAS THE CIRCULATION—PRINTS THE NEWS—REACHES THE PEOPLE

THE EXAMINER IS THE OFFICIAL PAPER OF LAKE COUNTY

VOL. XXXIII

LAKEVIEW LAKE COUNTY, OREGON, SEPTEMBER 5, 1912.

NO. 36

MANY GO TO RENO TO SEE BIG CIRCUS

Sixty-Six Tickets Are Sold at Lakeview N.-C.-O. Depot Last Monday

Sixty-six tickets were sold at the Lakeview N.-C.-O. office last Sunday morning for the special train going to the Barnum & Bailey circus at Reno. The majority of the crowd returned Tuesday on the return limit train while several of those going down took the opportunity of going on to San Francisco and other cities. Those attending the circus report that it with the Labor Day festivities were great successes and that Reno ranked among the first as an entertainer. They also said that the weather man showed no partiality in sending us a chilly spell the first of the week, as Monday in Reno was a very windy day and that Tuesday morning considerable snow was in evidence on the hill tops surrounding that city.

Four trains of 85 cars were required to transport the huge circus which is said to be larger this year than ever before.

The big show had several features of attraction, two of which were the flying trapeze exhibitions and the illustration of Jiu Jitsu and wrestling.

SCHOOL TERM WILL BEGIN SEPT. 16TH

Several Will Attend High School From Outside Points During Winter

Everything is being put in readiness for the opening of the city schools term Monday, September 16. Regardless of this being the first year for the new Lakeview High School and the amount of work that has been finished and some yet to be done, City Superintendent O. M. Gardner says that he is expecting no obstacle to delay the opening on the regular date. Several inquiries have been had from outside points in regard to the school and some have signified their intention of attending the next term. Part of these applications have come from the North end of the County, while one comes from Modoc County, California.

Professor Gardner says without exception the Lakeview High School has one of the most completely equipped Domestic Science departments of any school in the state. This branch is in charge of Mrs. Gardner who has had much experience in that line.

Sixty-six tickets were sold for the excursion to the circus at Reno.

GEESE PLENTIFUL FOR SPORTSMEN

Many Take Advantage of Opening and Have Fine Sport and Good Bags

Last Sunday, the opening of the Goose season in Lake County brought into play several well and carefully oiled guns for the occasion. Hunting parties in many different conveyances repaired to the lake to participate in the sport of bagging these splendid game birds. Nearly all reported good success and state that geese are quite numerous this season.

However the shooting will improve later as there is considerable grain to be cut after which they will fly more to the fields.

Sunday, September 15, marks the opening of the duck season which will be the beginning of the real sport. Goose hunters last Sunday saw numerous ducks on the lake and prospects look promising for some splendid shooting when the season opens.

DAILY PAPER IS GREAT SURPRISE

C. O. Metzker Congratulates Paper Printed During League Meeting

The following letter from our good friend Oscar Metzker shows that he appreciates the worth of the Examiner and that he still retains interest in heart in Lakeview. For several years Mr. Metzker published the Lake County Examiner and during his career as publisher established a reputable standard for a newspaper hard for his successors to maintain. Since going to San Francisco he has been identified with the Unitytype Co., and is now Pacific Coast Manager:

"San Francisco, Cal., August 29, 1912.
"Lakeview Daily Examiner, Lakeview, Oregon.

"Gentlemen:
"I received copies of the Daily Examiner covering dates August 20 to August 24, this morning, and am thankful for same. Enjoyed reading every bit of them, and wish to thank the kind friend who so remembered me. I congratulate the Examiner Publishing Co. on its much deserved success in getting out such a creditable daily paper during the meeting of the Central Oregon Development League at that important center. You certainly handled the situation admirably. How could you do it? The business men of Lakeview are deserving of a "hand" for the encouragement in which they patronized Examiner space during that period.

"Yours Very Truly,
"C. O. Metzker."

GREAT NORTHERN WANTS EXHIBITS

Lake County Has Sent Samples of Cereals For Display

"The Great Northern Railway is preparing to feature the products of Oregon at the Minneapolis Land Show," said E. C. Leedy, General Immigration Agent of the Great Northern Railway, after his return from the west recently. "The results achieved by this kind of advertising in the past has been highly successful and we are thoroughly convinced that bringing the products of the west to the people of the east is the most effective and modern method of advertising the agricultural possibilities of any country.

The representatives of the Immigration Department are canvassing every community in the state of Oregon collecting grains in the straw, grasses, vegetables and in fact all products of the soil. They are co-operating with the Commercial Clubs, responsible real estate men and the farmers who are growing the crops. The thorough manner in which this collecting of exhibits is being followed insures us the greatest collection of agricultural and horticultural products that has ever been assembled by any railway.

The very best and choicest samples will be shown at the Minneapolis Land Show, where thousands of homeseekers and investors will visit. Our representatives are meeting with great success, as the local people along the entire line appreciate more than ever the great benefit of the wide publicity which is given our particular section through this medium of advertising.

The Northwest Land Show at Minneapolis will mark a new epoch in the history of agricultural and horticultural exhibits. Undoubtedly this will be the greatest collection of products of the soil ever assembled under one roof and the Great Northern country are certain to be among the leading attractions."

Lake County has already sent some samples of cereals for this exhibition. They were exhibited in the High School building at the Convention. It was then too early in the season to secure fruit and vegetable samples but later when these have matured it should be made a point to get some of these exhibits at the Minneapolis Land Show.

Supt. L. R. Alderman has asked for a picture of our new High School building to place in his Biennial Report.

PICNIC GLORIOUS EVENT

CHILLY WEATHER DOES NOT EFFECT MERRIMENT OF CROWD

ABOUT 400 PEOPLE IN ATTENDANCE

Unlimited Amount of Good Things to Eat—Sports Provide Much Amusement—Will Probably Be An Annual Celebration

Regardless of the unflitting weather last Monday for a picnic early in the morning numerous vehicles were brought into use to convey eager crowds to the grounds of the Irish Picnic at the Hog Ranch in Camas Prairie given to celebrate Labor Day. The character of the day was a real representation of November weather in this country, but this fact did not despair the happy picnickers in the least.

The major portion of the crowd reached there about nine o'clock in the morning, but rigs and autos heavily loaded kept coming to the scene of merriment until afternoon and when all had assembled the crowd numbered upwards of 400 people.

The Irish boys had left nothing undone in providing pleasure and comfort for their guests. Everything in the way of necessities were there as well as many luxuries. The spot picked out was ideal for picnicking and the pleasant grounds added much toward the success of the affair.

Eight pieces of the Lakeview band were employed to furnish music throughout the day and the class of music, appreciable anywhere, was made doubly so by the open air and zephyr breezes that whispered through the pines.

Tents were stretched to house that enormous stack of eatables and to furnish resting quarters for the ladies. A platform was erected that was appropriately and patriotically decorated with flags and colors emblematic to the Grand Old U.S.A. and the Beautiful Erin's Isle. From this rostrum speakers delivered addresses and they were surrounded on all sides by a group of eager and attentive listeners.

The long list of sports that had been carefully arranged by the managing

committee were begun about ten o'clock. The first was a 100 yards dash foot race, which was entered by five contestants and won by Pat Duane, prize Waltham watch 15 jewels.

220 yards dash, foot race, nine contestants, result, tie between John Welsh and Tim Burke. Each were awarded a prize.

Running high jump, eleven entered, won by Walter Dutton, height 4 ft. 8 inches. Prize leather watch fob.

Standing jump, four contestants, won by Pat Duane, height 4 feet, 8 inches. Prize gold scarf pin, emerald set.

440 yards dash foot race, five contestants, won by Pat Duane. Prize, gold filled vest chain.

Horse race one mile, thirteen entries, won by Willard Mulkey. Prize silver mounted bridle. Horse race one-half mile, fifteen entries, won by John Welsh on Jack Murphy's horse. Prize silver mounted bridle and r mal.

There was so regular football game as was first announced owing to the inclemency of the weather, but there was a scrub match pulled off later in the day that aroused considerable interest.

Along about the noon hour when everybody was deeply engrossed in the interest of the sports that were taking place, the announcement was suddenly made that lunch was ready. And one glance at that long table standing there under those trees, pitifully groaning under the overtaxing weight of those delicious viands, told one that lunch was sure enough ready and that they need not be sparing in participation of the refreshments. To give some idea of the enormous amount of food that was finished, one can imagine 201 pounds of choice hams deliciously

STRIKE IS MADE ON SUNSHINE

Sunshine Twins Leasing Co. Hit Ore That Averages \$1300

Elmer C. Ahlstrom, treasurer of the Sunshine Twins Leasing Co., received information that another sensational strike had been made this week on their property at High Grade.

The following message was sent from the hill by Superintendent Hager: "New strike, pans into thousands. Ore chute coming in. Looks immense."

The strike was made in the breast of the main tunnel, 270 feet from the entrance and only eighty feet below the surface. It is said that pieces of rock taken from random from the strike are full of gold, the average of which assayed over \$1300. The vein is making its appearance in the floor of the tunnel and panings of the ore indicate greater values than have ever been taken from the mine.

This news comes as good cheer from the High Grade Mines and substantiates former reports as to the merits of the district. The Sunshine Twins leasing company has secured an extension of time on their lease on the original Sunshine property and now have their holdings secure for the next thirty months. This is considered a very liberal lease and gives the promoters ample time to work their property to a good profit.

James Dodson this morning left for San Francisco on a business trip and before returning may be called East to Kansas City, Mo.

FED ON CHICKEN; LONGED FOR TROUT

Portland Delegates Say Trip to Lakeview Beats Yellowstone Park

Portland Telegram: With the bark peeled off their faces by the wind and sun turn of the desert, the Portland delegates to the Central Oregon Development Congress at Lakeview, have returned home to soothe their puckered features in cold cream cans and vaseline pots. Some of the boys look like boiled lobsters and the more chubby ones have faces that would pass for ripe tomatoes at a county fair.

Witness O. M. Plummer, of the Portland Stock Yards.

He and his party made a tour of fully 1000 miles by automobile and he says that for natural wonders, beauty and charm, the trip reveals more majestic and inspiring scenic attraction than he ever saw in Yellowstone Park or any of the other high-priced Summer resorts of the land.

In the party were President W. J. Kerr, of the Oregon Agricultural College; Professor Van Winkle, of the United States Geological Survey; Joseph M. Healy, W. H. Chapin, R. G. Calvert and F. S. Jackson. They shipped their cars to The Dalles and motored the rest of the way. Among the high spots which they hit on the journey were Wamic, Tygh Valley, Maupin, Antelope, Gateway, Agency Plains, Metolius, Prineville, Grindstone, Burns, Silver Creek, Warner Mountain, Warner Lakes, Lakeview, Klamath Falls, Crater Lake and Bend. Educationally and entertainingly, the trip was a grand success, but gastronomically, the boys brought home a pang or two of disappointment. The hospitable ranchers and people along the route gorged them on Spring chicken as a special piece de resistance, when their heart and souls yearned for trout.

Want State Crematorium

Salem Statesman: Superintendent Stiner of the Oregon asylum for the insane, has called on Assistant Attorney Van Winkle to draft a bill to be presented at the next legislative session providing for a crematorium at the asylum for the use of all the state institutions. If this bill becomes a law hereafter inmates of the institutions who die without friends to bury them, or who are pauperized, will be cremated.

MANLEY BUYS BUSINESS LOT IN LAKEVIEW

Portland Party Makes a Heavy Investment After Short Visit

As an instance of real good that was accomplished in Lakeview during the meeting of the Central Oregon Development League, this week a deal was closed by H. W. Drenkel & Son for the sale of the George Jammertal corner on Water and Canyon streets, where the Brewery saloon stands, also including the Drenkel office on Canyon street.

The property was purchased by A. B. Manley, of Portland, whose first trip to Lakeview was week before last. As exclusively stated before in the Examiner, Mr. Manley did not reach here in time for the League Convention, he having come by way of Crater Lake and was delayed on the road. However, he stayed here a few days and while here expressed himself as being well pleased with Lakeview, and now that he has made a substantial investment is conclusive evidence that he has full confidence in the future of the place.

At present no changes are announced to take place in the property and for the time being it is expected that the same tenants will occupy the ground.

HERYFORD BLOCK GOING SKYWARD

Brick Work on two Sides Will Be Completed By End of the Week

Work on the large Heryford brick and steel structure is pushing forward at a rapid gate. The brickwork on the North and East walls will be completed this week, regardless of some delay caused in the supply of brick. Replaced brick is being used for finishings, which is being manufactured on the yard below town. The delay in this material has been caused principally by the heavy damp weather of late.

Supervisor Underwood stated yesterday that if all necessary brick was available the building would be completely enclosed within thirty days. He also said that work would begin in a few days on the lath and plastering on the third floor, and that the roofing could soon be started. The plumbing under the supervision of R. T. Baldwin is advancing smoothly and is moving in accordance with the remainder of the work. Of course after the building is once enclosed inside work can proceed without interruption, and the big building will be ready for occupancy before we realize it.

SAYS EDUCATION BY DEMONSTRATION

C. L. Smith of O.-W. R. & N. Says Lakeview Meeting Was Far Reaching

Oregon Journal: By far the best and the most permanently far reaching in its benefits of all development meetings ever held in Oregon was the Lakeview Development league meeting, says C. L. Smith, agriculturist of the O.W.R. & N. company who has just returned from its attendance.

"It put into effect the truth we have been trying to have lodged for a long time that if you want to teach a farmer agriculture you must get out on the farm and show him how. Education by demonstration—those are the words.

"The agreement at Lakeview was that there had been too much literature and not enough of this practical education, but that hereafter the new policy would be actively and strictly adhered to. And that means good fortune for the state of Oregon.

MRS. MABLE ELY AGAIN MARRIED

Quietly Goes to San Francisco and Becomes Bride of Hotel Man

A dispatch from San Francisco to the Oregonian under date of August 28, says:

"Mrs. Mabel Ely, widow of Eugene Ely, aviator, who was killed in Maecon, Ga., October 19, 1911, while giving an exhibition flight, is reported to have stolen a march upon her friends in Marion County by quietly coming to San Francisco last week and being married.

The bridegroom is Phillip Cross, manager of the Bon Air Hotel at Escalante. Not even the parents of Mrs. Cross were taken into her confidence, and they were as much surprised as her friends when the news became known that an elopement had been maneuvered under their eyes without a hint having been dropped by either of the two. Mrs. Cross was often seen in Mrs. Ely's company, but their marriage was unexpected.

Mrs. Cross is the daughter of Professor H. C. Hall, principal of the Corte Madera schools."

Mrs. Ely and her deceased husband, Eugene Ely, were well known in Lakeview, he having been associated with W. L. Clapp in conducting an auto stage line between here and Alturas in the summer of 1907.

COMMERCIAL CLUB MEETS SEPT. 9TH

There Should Be a Good Turn Out for the Election of Officers

Owing to last Monday being a holiday no meeting of the Lakeview Commercial Club was held in the evening and cards have been sent out by Secretary Everett announcing a meeting for next Monday night September 9. At this meeting officers will be elected for the ensuing year and it is hoped that everyone who can will be present. This meeting will be held in the city hall and will convene at eight o'clock.

It is quite probable that before that date a canvass of the town will be made in an effort to secure the sentiment of the public in regard to the best method for the maintenance of a Commercial Club and to get people's views as to who will make the best officials to be put in charge of the work. However the most important mission of the canvass will be to get the people interested in this matter of vital importance to the community and try to encourage them enough to at least attend the next meeting. If this can be done and a good turn out attends more enthusiasm will be manifested, and it is felt that this will lead to a more concerted and effective effort in the work to be inaugurated for the genuine good of this section.
