RULING EFFECTS PREVIOUS FILINGS

16. The provisions of section 2291 of the Revised Statutes, as amended, in respect to the homestead period, are made applicable to all unperfected entries upon which residence is required, as well as to those made after June 6, 1912, where the entryman fails to select to make proof under the law under which his entry was made within the prescribed time. This obligates the previous entryman to compliance with the law of June 6, 1912, respecting all of its provisions, the performance of which is enacted during the homestead period. As a consequence while residence is reduced from five to three years, specific cultivation is exacted beginning with the second year after entry. Final proof of full compliance must be made within five years from date of entry.

From this it will be noted that entrymen who have filed on their claim prior to the enactment of the three-year law must file a declaration with the Department of the Interior, providing they perfect their title to the claim and prove up under the old five year law, otherwise the three year law becomes effective.

The amount of cultivation required under the new three-year law is greater than under the old law. Considerable annoyance and possible serious difficulty in making final proof can be avoided by a careful examination of the provisions of the new law and the rulings of the Department of the Interior regarding it, as contained in their circulars Nos. 125 and 142, which can be obtained from the Secretary of the Interior.

OREGON PRODUCTS REACH BILLIONS

Portland, Oregon, August 31.—In 1911 the wool clip of Oregon weighed 16,000,000 pounds, was shorn about 2,000,000 sheep and was sold for about \$3,000,000.

During the same period the state produced 600,000 pounds of mohair, worth \$20,000. Goats have been found newly as valuable for clearing brush land as for producing mohair.

In 1911 Oregon produced 72,000 bales of hops, worth \$44,000,000. The production was only half that of a few years ago, but prices have been extremely good.

In 1911 Oregon produced poultry to the extent of 9,000,000 birds having a value of \$7,000,000.

During the same year the state produced 32,000,000 dozens of eggs, valued at \$9,600,000. The poultry business is still an infant industry.

In 1911 the Oregon potato crop was the greatest ever known, very nearly approaching the 6,000,000 bushel mark, with a value, to the growers of over \$4,000,000.

In the same year, onions were grown to the amount of about 175,000 bus els worth \$212,000. The bulk of this crop is produced within a small area, being grown almost exclusively on what is known as "beaver dam" land.

In 1911 Oregon produced \$3,400,000 worth of butter, but in order to supply the demand, at least three times this amount was shipped into the state from other sections.

In 1911 Oregon dairies produced 17,000,000 gallons of milk and cream, having a value of \$4,000,000. The product is said to be the cleanest and most wholesome of that of any state.

In 1911 Oregon produced 5,000,000 pounds of cheese, valued at \$785,000. The quality is of the very best. Los Angeles uses more Oregon cheese in feeding its tourists than all other kinds combined.

The standing timber of Oregon is estimated at 454,000,000,000 feet worth on the stump \$68,000,000, and when manufactured into lumber will be worth \$6,500,000,000. The timber covers approximately 25,000,000 acres. About one-half is in national forests and the balance under private ownership.

In 1911 4,123,000 head of livestock was raised in Oregon valued at \$87,854,000. Among meat animals, the production of hogs has increased faster than that of cattle or sheep, due for the most part to the extremely high prices that have prevailed for the last two years in the Coast Markets.

The fruit crop in Oregon in 1911 was worth over \$4,000,000 in cash. The greater part of this sum was received for apples, this staple commanding the highest prices both at home and abroad. Next to apples, peaches are the most important fruit in the state, last year's crop selling for \$523,000. Pears were sold to the value of \$300,000, being an average of nearly \$1.50 per box. Cherries, prunes, loganberries, grapes, strawberries, etc., helped to swell the sum paid to farmers and orchardists during the year. About 300,000 pounds of English walnuts were produced, valued at \$45,000.

LEAGUE DRAFTS 8 RESOLUTIONS

Many Important Issues Before Meeting Here Last Week

Following is a summary of the resolutions drafted and adopted at the Second Annual Meeting of the Central Oregon Development League in Lakeview last Thursday:

1. Recommending state aid for reclamation projects, as opposed to the operation of the U. S. Reclamation Act and the Carey Act.
2. Endorsing the work of the Oregon Agricultural College and recommending the establishment of state experiment stations.
3. Endorsing the good roads constructed by the Klamath County Court.
4. Endorsing the "Harmony Bills" for the construction of roads, which require a portion of the cost to be borne by cities, and recommending the defeat of the "Grange Bills" which will make the farmers pay the greater part of the cost of road construction.
5. Endorsing the movement to secure state appropriations for demonstration farms, agricultural extension work and the teaching of agriculture in public schools.
6. Recommending the erection of signs at cross roads and the co-operation of the four counties in the League with the Pacific Highway Association to secure a main highway from California to Washington south and east of the Cascade mountains.
7. Deploing the unpleasant notoriety occasioned by the fight between Governor West and J. E. Morson, president of the Des Chutes Land Co., which originated over regulations for the settlement of privately irrigated projects in Oregon.
8. A resolution of respect to the memory of the late Charles B. Merriek, the Portland Postmaster, who was drowned while at Lakeview to attend the meeting of the Development League.

Doing Their Duty

Scores of Lakeview People are Learning the Duty of the Kidneys

To filter the blood is the kidney's duty. When they fail to do this the kidneys are sick.

Backache and many kidney ills follow:

Help the kidneys do their work. Doan's kidney pills have cured many severe cases.

Proof in the following: Mrs. William Charley, Grap St., Medford, Oregon, says: "The public statement I gave in praise of Doan's Kidney Pills in 1907 still holds good. I occasionally take this remedy and find that it keeps my kidneys in proper working order. The kidney secretions were unnatural and sometimes I had such acute pains in my back that I could scarcely bend over. I did not sleep well and despite the use of plasters liniments and remedies of various kinds I continued to suffer. While in that condition, Doan's Kidney Pills were brought to my attention and procuring a supply, I commenced their use. In about two weeks I felt better and the contents of the two boxes made me well. I have recommended Doan's Kidney Pills to many other people."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Paisley Pick-ups

(Chewannan Press)

Sheriff Snider was in town last Saturday on business.

Paisley is represented at the Development League meeting by the following citizens: R. A. Harrower, H. K. Gilmour, A. G. Clarkson and Roy Smith.

The County road crew are putting in the week improving the road to Summer Lake. They are picking out all the rocks and doing other needed repair work.

Mrs. Melva Withers was seriously injured last week by being thrown from a horse. While riding along the road her horse, which is a spirited animal, began bucking throwing Mrs. Withers into a wire fence. The scalp was badly gashed and she received a deep wound over one eye. Her physician is hopeful of a reasonable recovery.

Business Locals

Why not drink Rainier? It's THE beer.

The best butter—Oliver's—40 cents per pound at Bieber's Cash store.

While in Paisley drop in at O'Connell & Kelgen's and get a glass of real refreshing Rainier beer, the kind that is recommended for family use.

We guarantee that the "No Name" Hat you purchase from us will give perfect service. Furthermore, will promise not to sell you a shape which doesn't become. Further still, we'll give you more class and style than you can find in any other hat.

The "No Name" is a perfectly dependable Hat.

We say so now, you'll say so after, you've gotten many months of good service out of the one you buy.

The Matchless Store

Tailoring, Cleaning, Pressing, Repairing

The Family Man's Hardest Problem

And at the same time the most important one is the building of a suitable home. So much depends on the environment of the children that every precaution should be taken for their comfort and health. Sunlight and fresh air in the home is necessary—uniform temperature and humidity is also necessary. These things, and many more, have come down to us through generations—generations when the home was the making of our Nation, and the material used in most of these homes was good American wood—sometimes crudely cut, but always given the preference because of its fitness to health and comfort. Our yard today contains the same kind of lumber, but more perfectly cut and finished, so that the work required of the carpenter has been reduced to the minimum. We want to show it to you and explain how you can use it profitably.
