FORMER RESIDENT DIES IN PORTLAND

Mrs. Flora Irvanah Beach Suddenly Expires From Paralytic Stroke

Mrs. Flora Irvanah Beach, wife of Frank W. Beach, of Portland, Oregon, died at her home in that city September 25. She had been ailing somewhat for several days but was able to perform her household duties, and on the morning of the day of her death had put out a small washing. While alone in the home she was stricken with paralysis. The children returning from school found her unconscious, lying prostrate upon the floor. Physicians were unable to do anything for her and she died within a few hours, never regaining consciousness.

Mrs. Beach was a daughter of Mr. and Mrs. O. L. Stanley. She was born in Petaluma, Calif., November 17, 1866. When a small child she removed to Lakeview with her parents, where her father started the first blacksmith shop in town. She was married in Portland, May 7, 1890, and within that year removed with her husband to California. Four children came to bless her married life and they and her husband were with her at the time of death. The family had lived in Portland since July of this year.

Mrs. Beach was known to be a very highly esteemed woman, the nobleness of her nature was best exemplified by the marked devotion to her family. Her ideals were of a high order and her plans for the betterment of society many. She had been an active member in the Christian church for several years, and the pastor of the First church of that name, Rev. W. F. Reager, officiated at the funeral service in Portland last Saturday.

Mrs. Beach was well known in Lakeview by older residents and the community in whole deeply sympathize with the family in the loss of the cherished wife and loving mother—the loss of one who cannot be replaced.

Beginning with October 1 the curfew bell rings on Winter schedule and youngsters are summoned off the streets at eight o'clock instead of nine.

S. P. RAILROAD TO BE BUILT SOUTH

Stated That Construction Will Begin About First Of The Year

Considerable conjecture has been offered in regard to the possibility of the extension of the Hill railroad south from Bend, but little has been said of the extension of the O.W.R. & N. road. This is an S. P. line with terminus also at Bend, and pertaining to the building south of the line, the Klamath Falls Herald last week contained the following:

Announcement has been made in Portland that extension work on the O.W.R. & N. road will begin south from Bend, the present terminus, about the first of the year.

Three crews of surveyors for the above road are now in the field running lines. One crew is working eight miles east of Crescent, and two crews are cross sectioning, one between Bend and La Pine and the other between La Pine and Crescent. It is understood that hurry up orders have been given to push the work along as rapidly as possible.

Pleased With Conditions

Davis Davis, of Berkeley, Cal., spent a few days in Lakeview the first of the week inspecting local conditions in view of establishing a general merchandise store here. He informed the Examiner that he was very well impressed with the possibilities of such an enterprise in this city and that he had practically decided to make the venture. He went to Paisley while here in the interest of a friend to look over the site for a like industry at that place. Mr. Davis left on his return to Berkeley this morning and stated before leaving that he would return to Lakeview within about thirty days.

Farmer's Meeting

Paisley's Commercial Club was reorganized at a meeting held at that place last Friday night at the Methodist Church. The Club voted unanimously to co-operate with the Central Oregon Development League in holding a Farmer's Institute October 18th and 19th, to be addressed by experts from the State Agricultural College, also by soil experts in the employ of the railroad companies whom, Secretary Sawhill, of the league has promised to bring. The club also voted to make a big display of fruits, grains and vegetables from Paisley and the Summer Lake valley, at the Northwest Land Products Show to be held at Portland next month. A committee was appointed to collect exhibits.

Permanent officers of the club were elected as follows:

President, Rexford A. Harrower; Vice-president, Dr. S. S. Thayer; Secretary, K. N. Buchwalter; and Treasurer, E. C. Robson.

HARROW WILL BUY INTEREST IN HOTEL

Negotiating With Mrs. Dola Dewey For Her One Third Interest

George D. Harrow, who for the past ten years has been associated with F. P. Light in conducting Hotel Lakeview, is negotiating with Mrs. Dola Dewey for her one-third interest in the property. The deal will be closed probably today when abstracts of title have been prepared. F. M. Miller, cashier of the Bank of Lakeview, owns the remaining two thirds interest in the hotel and the consummation of this deal will make Messrs. Miller and Harrow sole proprietors of the property. When approached upon the subject Mr. Harrow stated that he had nothing to give out in regard to future plans until the return of Mr. Light, who is now in San Francisco. However he intimated that improvements would be made, and it is likely that several alterations will be made in the hostelry.

Resolutions of Condolence

Lakeview Rebekah Lodge, No. 22, I. O. O. F.

We, your committee, appointed to draft resolutions of condolence on the death of sister L. Elizabeth Maxwell, beg leave to submit the following:

Whereas, with a feeling of profound sorrow we do remind the members of our beloved Order that the somber shades of death have again fallen like a pall over our lodge; the tie of affinity which grows up into such strong confidence and affection between those engaged in the good work of visiting the sick, relieving the distressed, burying the dead, and educating the orphan, has been rudely broken by the hand of death and taken from our midst one who carried forth into her daily life the teachings of our Order, for all who knew her can but say that unselfishness which is the underlying principle of our Order, was also the keynote of her life. She was ever faithful to those near and dear to her. Her sufferings were born with fortitude and meekness and when the final summons came "she sank to rest like the sun beneath the billows."

Therefore, be it resolved that we extend our heartfelt sympathy to the sorrowing husband and relatives in this their hour of deepest grief.

Resolved that as a token of esteem the charter of this Lodge be draped for a period of thirty days.

Resolved that a copy of these resolutions be spread upon the minutes of this Lodge, a copy under seal of this Lodge be furnished the bereaved family and a copy be printed in the local papers.

Committee:

Frances Corbett,
May Bailey,
Alice R. Bunting.

George T. Gregor and the Lewis & Bros., sales people, arrived the first of the week from Spokane, Wash., to conduct the closing out sale of Akstrom Brothers stock in Lakeview. The store will be closed until Saturday during which time the entire stock will be rearranged preparatory for the beginning of the sale. Mr. F. O. Anstrom advised the Examiner that he intended retiring from the mercantile business and that they hoped to complete the sale within the next thirty days.

MANY SEE HIGH GRADE

ABOUT FORTY LAKEVIEW PEOPLE ENJOY FINE BARBECUE

Pleasant Weather and Grandeur of Scenery Made Trip a Delightful One—Showing of Properties Held Surprise for Visitors

Perfect weather, a large and jolly crowd, a sumptuous feed, remarkable dispatch in pulling off everything for the comfort and welfare of the visitors and no accidents combined to make Lakeview Day at High Grade last Sunday most propitious. It was a pleased and in many cases a surprised, crowd that came off the mountain that evening.

About twenty-five people went from here Saturday afternoon to attend the dance that was given at the "Golden City" Saturday evening, and Sunday morning about fifteen went to New Pine Creek from which place transportation was furnished to take them up to the district.

The barbecue on the hill was all and more than could be expected, if it had been any better, if such a thing was possible, judging by the way in which some partook of the meal, there might have been some serious cases to end the day's festivities. A. L. Arnold of the Spearmint Gold Mines Co. and Mrs. Arnold are deserving of the major portion of credit for the success of the celebration, although they were assisted by other interested parties in the mines. Earl Layton was said to have charge of barbecuing the meat, which consisted of two sheep and a quarter of beef, and if he did he has established a reputation for himself that will follow him through life.

For the benefit of the visitors, shortly after the barbecue a hand drilling contest took place on the main street of High Grade between Fred Wright and Guy Cook, of the Spearmint team, who won the Bidwell drilling contest Labor day. The dispatch with which these men drove a hole in the rock showed them to be past masters in the art, they drilling 26 1-2 inches in ten minutes.

The guests were ushered over a portion of the work that is being prosecuted in the district, and one glance at developments is convincing that Camp High Grade is fastly casting away her swaddling clothes.

The Modoc mine that is owned by W. F. Wrigley, the Spearmint chewing gum man, is probably undergoing the most development work of any property in the camp. The work is in charge of J. F. Cutler. The main shaft is now 100ft. deep and ore that is being taken out is said to give \$20 values, but is not being sacked. A shaft house is almost completed and a steam hoist has been installed. Mr. Cutler informed an Examiner representative that work would be continued until at least a depth of 100 feet more were attained and considerable drifting will be done to ascertain the future of the prospect as a gold producer.

The Spearmint Gold Mining Company. Continued on page eight

EXHIBITS WILL BE SENT LAND SHOWS

Many Lake County Sam- ples Being Sent East From Portland

As a result of the Lakeview Commercial Club and W. Lair Thompson sending agricultural samples from the display in Lakeview at the meeting of the Central Oregon Development League to Portland, the state board of immigration and the State Immigration Agent, C. C. Chapman, are preparing to forward the exhibits for display at the Eastern Land Shows this year. As an example of the splendid and thorough representation that this section will have through the entire East, we quote the following from the Portland Journal: In regard to exhibits sent out from Lakeview:

Generally there are exhibits from Dufur valley, Lakeview, Metolius and a number of other new producing points as the following list shows:

From Lakeview, furnished by W. Lair Thompson and Lakeview Commercial Club: 1912 crop: One threshed rye, two threshed wheat, one threshed oats, one threshed field peas, grower, J. F. Hanson; sheaves, two oats, one Little Club, one second year bluestem, one barley, beardless, one forty fold, one timothy, one rye, grower, J. F. Hanson, two rye, one wheat, grower, Mose Hart; one dry farming, grower, Mr. Carriker; one dry oats, grower, Henry Fox; one red top, grower, Brown Ranch; one red top, one oats, C. E. Trink, one bluestem, grower, C. F. Wilson; one timothy, one red top; one wild clover, grower, Henry Lehman; one clover, one Little Club, no card.

From lower Chewaucan valley, Lakeview Commercial club: One Little Club, one red top, one rye, two beardless barley, one bearded barley, one timothy, grower, A. C. Morris; One Little Club, one bluestem, grower, C. S. Stone.

rine Creek, Lakeview Commercial club. One Red Top, Amick ranch. Christmas Lake, Lakeview Com-

EXPERIMENTS ARE MADE AT PAISLEY

Geo. M. Bailey, Northwest Townsite Co. Head, Vis- its Lakeview

President George M. Bailey, of the Northwest Townsite Company, a Philadelphia corporation holders of the Carey Act Irrigation Project at Paisley, was here Monday to meet some parties coming from the east. Mr. Bailey says everything is going smoothly on the works and that he is well pleased with general conditions of the project.

He stated that sales of land had already exceeded \$30,000 and that it will be two years before the dam, reservoir and canals will be completed. He said that Engineer Harrower expects to have water upon some of the lands of the segregation next Spring. Mr. Bailey has great faith in the Paisley section as a fruit producer and to that end his company is transforming the George Conn ranch into an experimental farm. F. M. Loveland, a practical fruit grower from Grand Junction, Colo., has charge of the ranch and he has thoroughly renovated the orchard. The trunks of every tree have been sanded with a rasp and whitewashed, every tree pruned and since early Spring the ground has been gone over with a cultivator nineteen times. "And it paid," said Mr. Bailey.

Samples of the fruit are now being prepared to send to Portland for display at the Northwest Land Products Show, beginning November 18, and other land shows throughout the East.

Goose Lake, Lakeview Commercial Club: One Little Club, one barley, one bluestem, grower, James McDermot. Summer Lake, Lakeview Commercial club: One Little Club, one red top, one oats, grower, Z. K. Harris. Crooked Creek, Lakeview Commercial Club: One Little Club, one red top, one beardless barley, one bluestem, one alfalfa seed, grower, S. B. Chandler.

Enrollment Increasing

Enrollment in the Lakeview High School is still increasing. The total number of pupils enrolled in the school is 302; high school, 48.

Following is a list of the names and addresses of pupils attending the school from outside of Lakeview:

Alice Curtis, Valley Falls; Elsie Martin, Fresno, Calif.; Virrel Ransom, Paisley; Lester Hampton, Paisley; Essie Drake, Crane Creek; Roy Benefiel, Plush; Lola Holder, Paisley; Florence Morris, Adel; Pauline Oliver, West Side; Carl Pendleton, Warner Canyon; Ben Frakes, Norman Frakes and Lennie Frakes, Warner Lake; Mabel Vernon, Crane Creek; Grace Bode, Crane Creek; Hazel Imbler, Summer Lake; Eunice Venator, Venator, Harney County; Maude Knight, Paisley.

Mrs. W. F. Grob and daughter who have been in Portland the past several months are expected to return home this week.

COUNTY INSTITUTE IS NOW IN SESSION

Much Educational Work Is Accomplished at High School Building

The Annual Teacher's Institute began its work at the High School building last Wednesday.

The morning session began with music, after which assistant State School Supt. Carleton presented the subject of history. He conducted a recitation with the teachers present as pupils. His work was appreciated and many valuable ideas were advanced.

Prof. Gardner gave his methods of teaching arithmetic. He emphasized the necessity of teaching that which is practical in life and impressed upon the teachers the need of thorough work in all subjects. After a short recess a discussion of the need of better work in spelling was led by Supt. Willis, Carleton, Dunton, Oliver and Gardner. Each gave methods. A county contest among the schools was approved.

After noon Mr. Carleton continued his work in history in a manner which benefited the teachers.

Prof. Gardner took up the work of arithmetic in the higher grades, showing how to apply the instruction to needs of the home and business.

Mr. Oliver spent thirty minutes on the teaching of geography, showing that if teachers will cause the pupils to want and like the study, advancement is easy. He gave a synopsis of his method of using newspapers, railroad and other literature to make the work effective. His supplementary work to the cause of study was applauded and recommended to the teachers by Supt. Carleton.

The evening session was held in the M. E. Church and consisted of some excellent music, a talk by Prof. Gardner on the needs of harmony between the home and the school and in training children to become good citizens.

Mr. Carleton's talk was on "Our Schools" and was replete with good to parents, teachers and the public. These talks will bear much fruit in creating and maintaining a proper school spirit in our town.

After the speaking the teachers and instructors met with the ladies of the Civic Improvement Club for the purpose of becoming acquainted. A very social hour was spent, refreshments served and all made acquainted, after which Mr. Seaver, of Seattle, entertained the gathering with some dialect reading. His impersonation of the Norwegian and Swede was remarkable.

Dr. Winship gave a short talk which was as all would expect, good. A vote of thanks was given to the ladies of the C. I. C.

J. W. Hunter received the news this week of the death of L. B. Lonsway in Oakland, Cal. last Saturday. Mr. Lonsway spent about three months here last Summer, during which time he was sick several weeks in Lakeview. His death was attributed to asthma and heart trouble, and he left here only about two weeks ago, in the hope that his health would be benefited. He was a mining man and was interested in some claims at Windy Hollow. He leaves a wife residing at Staten, Oregon, where it is likely the body will be taken for burial.

COLONIZATION IN NORTHERN LAKE

Advance Party File on Five 320 - Acre Homesteads on Railroad Survey

Of vast importance to the early development of the upper part of Lake county is the settlement of a Hebrew colony near Rams Rock as was announced in last week's Examiner. The land filed upon in the Lakeview office is located in 27-22 and is about 75 miles almost due north of this place. This is at the junction of the Southern Pacific Railroad survey that was made through this territory, connecting with the Oregon Eastern upon which construction work is now progressing. It is said that some of the best farming land in the county is in that region.

Those who made filings here last week were: Jacob Meyers, William Roodvas, Frank Schatter, Victor Bercovitz, David Isreal and Rabbi J. M. Goldberg. E. R. Post, of the Oregon Land & Immigration Co., made the locations and conveyed the party to Lakeview by automobile. The entire settlement will be made up of Portland people.

Mr. Schatter who was acting as spokesman for the party informed the Examiner that twenty-five families would follow this Fall and make filings on other lands, and it was likely that numerous other Portland parties would settle in that vicinity. All the land was taken under the three year homestead act and this year they expect to let contracts for clearing land and getting it under cultivation. They also want one half million feet of lumber for which they will let contracts as soon as they can get figures on the same.

At the present time the settlement will be somewhat remote from transportation, but with the building of the Oregon Eastern will soon have connection with outside points. The fact that people from Oregon's metropolis have selected Lake county for the location of the first colonization movement in the state, speaks well for the productiveness of the soil, which is bound to come under cultivation in due course of time.

PAISLEY WILL GET NATIONAL BANK

Citizens of Village Will Comprise Four Directors In Institution

Paisley is to have a National Bank, President Bailey, of the Northwest Townsite Co., is taking the lead in organizing the bank, which it is expected will open for business on January 1st. Four of the five directors will be citizens of Paisley. "We do not intend to make the bank a clearing house for any of our enterprise," said Mr. Bailey in speaking to an Examiner man. "We are in the land business, and National Banks cannot lend money on land. We can borrow all the money we need, when we go borrowing, at 5 per cent, in Philadelphia. We believe a good bank there will help us work in putting three hundred new families upon the 120,000 acres of land that we are under a contract with the state of Oregon to irrigate. A bank is greatly needed at Paisley. Mr. Bailey says they will be ready to receive subscriptions within thirty days, after the papers are received from Washington.

Dunaway Married

The Sunday Oregonian of September 22 contained the announcement of the marriage of Thomas Fulton Dunaway, vice-president and general manager of the N.-C.-O. Ry., in that city, September 18. Mrs. Dunaway was Miss Margaret Nuttmeyer of Pittsburg, Penn., and a sister of John E. Ferrall and of Mrs. A. Clark, of Portland. The affair must have been kept very quiet as the Reno papers contained no mention of the event until Mr. Dunaway and bride returned to that city this week. It is stated that Mr. and Mrs. Dunaway have planned an extensive trip to Europe and the Orient in the near future.
