

Lake County Examiner

HAS THE CIRCULATION—PRINTS THE NEWS—REACHES THE PEOPLE

THE EXAMINER IS THE OFFICIAL PAPER OF LAKE COUNTY

VOL. XXXIII

LAKEVIEW, LAKE COUNTY, OREGON, OCTOBER 17, 1912.

NO. 42

COL. ROOSEVELT IS SHOT

CRANK FIRES BULLET INTO HIS RIGHT BREAST--SLIGHT WOUND

Colonel Heroically Saves Life of His Assailant and Warns Back the Crowd That Threatened to Lynch Him

Chicago, Oct. 16.—Theodore Roosevelt was not merely superficially wounded by the bullet fired into his breast in Milwaukee by John Shrank. Unofficially it was made known that the physicians do not consider it necessary to probe for or to remove the bullet. It lies, as shown by the X-ray photographs, not far from the breast bone, on the right side, and probably five inches below the collar bone. The muscle did not get inside the ribs, but ploughed upward and inward for five inches. The flesh along the course of the bullet showed no discoloration today and there appeared to the physicians no cause for concern.

He is resting easily, and unless unlooked for complications arise he will fully recover in a short time.

Roosevelt was shot and slightly wounded to night as he was leaving the Gilpatrick hotel for the Coliseum to make a speech.

The would-be assassin gave the name of John Shrank and says he is from New York.

The wound was superficial and the colonel went on to the hall and began his speech, after he had seen the would-be assassin arrested and taken to the police station.

The assassin was prevented from firing a second shot by Albert H. Martin, one of Colonel Roosevelt's two secretaries. Colonel Roosevelt had just stepped into an automobile when the assassin pushed his way through the crowd to the street and fired. Martin, who was standing in the car with

Milwaukee, Wis., Oct. 14.—Colonel

JURORS WHO WILL SERVE IN COURT

List of Citizens Summoned to Attend Circuit Court Next Week

Following is a list of jurors drawn to serve at the October, 1912, term of Circuit Court which convenes here next Monday:

- C. C. Loftus, Lakeview.
- E. V. Rehart, Lakeview.
- Nate Wilcox, Lakeview.
- M. D. Hopkins, Lakeview.
- J. C. Hotchkiss, Lakeview.
- Phillip Mulkey, Lakeview.
- Geo. Fitzgerald, Lakeview.
- Geo. Wright, Lakeview.
- John O'Neill, Lakeview.
- J. E. McGold, Lakeview.
- S. F. Vernon, Lakeview.
- Geo. Nelson, Lakeview.
- E. E. Bond, Lakeview.
- Flint Horn, Lakeview.
- W. W. Paxton, Lakeview.
- C. D. Arthur, Lakeview.
- Dan Chandler, Lakeview.
- S. Fisher, New Pine Creek.
- M. C. Carmack, Fort Rock.
- J. A. P. nd, Fort Rock.
- A. W. Houston, Fort Rock.
- Walter Baich, Silver Lake.
- Si Beersett, Vastillas.
- C. S. Benefiel, Paisley.
- R. L. Benefiel, Paisley.
- Nora Calderwood, Plush.
- C. W. Dent, Plush.
- D. M. Bryan, Lakeview.
- S. P. Dicks, Lakeview.
- John Scott, Lakeview.
- G. E. Sherlock, Lakeview.

HANDSOME FOLDER ISSUED BY N.-C.-O.

Much Space Devoted to This County as Well as Goose Lake Valley

The N.-C.-O. Ry. has just issued a handsome folder describing the N.-C.-O. Country. Much of the space is devoted to Goose Lake valley of Lake County and faithfully portrays the many advantages offered the investor as well as the investor in the section. Our mineral resources are fully set forth, Highgrade, Windy flow, the Paisley district and other

of the section. The N.-C.-O. management has certainly made good in every particular, and we of Lakeview are entitled to congratulations for the handsome structure that will serve our needs for many years to come.

NEW N.-C.-O. DEPOT IS FINE STRUCTURE

Building As Completed Is Second Only to Depot at Reno

The new N.-C.-O. Ry. depot at this place is now completed and is second only to the Reno depot on the line. It is of a handsome design and of pleasing appearance, both inside and out. The structure is of brick with reinforced concrete foundation, and forces upon one the fact that it is apparently built for all time to come. In fact everything about the N.-C.-O. has the appearance of permanency, the track being well graded and ballasted, while the equipment throughout is strictly first class and kept up fully to the standard of the big lines.

The interior of the new depot is especially attractive design, the waiting room being on the same plan of the big union depots of the transcontinental lines. While the building is two stories in height, yet the ceiling of the waiting room extends up to the roof, being curved and the walls wainscoted up to a height of perhaps ten feet. The ticket office is conveniently located to the waiting room and is equipped with many conveniences which will permit of serving the public promptly and quickly.

The baggage room is large and roomy with cement floor, and it will also permit of the handling of a large express business therein.

The lavatories are finished in tiling and marble, while a dressing room is also provided for ladies. Every convenience is afforded the public, and no expense has been spared in making the building what it is. The cost is said to have exceeded \$15,000, and from the appearance of everything connected with the building one is led to believe that the railroad company received full value for the money invested.

The second floor is devoted to office purposes, and is finished in the same plan as the main floor. The building throughout has hardwood floors, and the woodwork has a waxed finish, which harmonizes with the other work of the building. Cement walks are to be laid about the building and the grounds parked, and when finished Lakeview will have the finest depot and grounds on the whole line and the equal of many of the famous stations along the line of the "Road of a Thousand Wonders."

The N.-C.-O. management has certainly made good in every particular, and we of Lakeview are entitled to congratulations for the handsome structure that will serve our needs for many years to come.

COYOTE TRAPPED IN CITY LIMITS

Creed McKendree and Joe Owens Get In Work On Pesky Varmint

Creed McKendree and Joe Owens are now planning a trapping campaign on the festive coyotes in the near future, they having succeeded in capturing one within the city limits a few nights since. Recently one of the "varmints" has been feasting on chickens belonging to Mr. McKendree, Lee Beall, Charley Combs and others, as well as several cats presumably as a side dish, and it was decided to make an effort to capture the beast. Traps were set in the rear of Mr. McKendree's chicken house, only two blocks from the business center of town, and shortly after 9 o'clock Thursday evening, about an hour after the traps were set, Mr. Coyote succeeded in getting in three of them. A piece of meat was fastened down and four traps set around it, the thief succeeding in getting both hind feet and one front foot in the traps.

Creed is inclined to claim a part of the credit for the capture, not those knowing the facts seem to be of the opinion that Joe Owens was the principal in the affair, and that Creed was simply an onlooker.

New Barber Shop

The Mosaic Baths and Barber shop will be opened this week in the First National Bank block by Elliot & McDonald, two well known tonsorial artists. They have the room immediately adjoining the Heryford building and have fitted it up in an excellent shape. It is equipped as a three-chair shop, with the latest in the way of chairs, mirrors and furnishings generally. The floor is covered with linoleum, while the electric light fixtures, as well as the tubs, basins and plumbing generally, are of handsome design. The young men comprising the firm have many friends and will no doubt do well in their new location.

SALT HARVEST OF LAKE IS NOW ON

Much of the Commodity Is Now Being Hauled in From Warner Lake

The salt harvest of Warner Valley is now on, and Harry Biggs has three teams engaged in hauling the product to local merchants. The "mines" are owned by Mr. Riggs and are located a short distance north of Plush, some 40 miles from Lakeview. The industry is one of long standing, although having gained no particular prominence, perhaps of the fact because it was "too common." The salt is of a coarse quality and suitable for stock purposes only, although with proper care a much finer grained article can be had. The salt is being delivered to all towns in this county and a number of tons has been sold in Harney county.

BUMPER WHEAT CROP THIS YEAR

At Least 2,000,000 Pounds Golden Grain Harvested Hereabouts

It is estimated that fully 2,000,000 pounds of wheat was raised this year in Goose Lake Valley from Crane Creek north and including the West Side. All of that grain is tributary to the Lakeview mills, and much of it is now being delivered to them. Some of the wheat was damaged by the frost which occurred about the middle of August, but the mills will have sufficient to keep them running for some time.

If local interest is any criterion, there is no election likely to take place hereabouts in the next hundred years. However, it is announced that there is to be a County, State and National election two weeks from next Tuesday.

MAX BODE FALLS HEIR TO FORTUNE

Gets Money From the Old Country and Invests in Lands at Crane Creek

Max Bode last week bought from L. C. Howell about 200 acres of land at Crane Creek, part of it lying at the mouth of the canyon and the balance down below the road nearer the lake. The consideration was in the neighborhood of \$5000, and it is generally conceded that Mr. Bode secured a bargain.

Incidental to the transaction is the fact that Mr. Bode recently fell heir to a small fortune by the death of a relative in the Old Country. Mr. Bode's sister, who is now superintendent of schools in a California county, some time ago learned of a legacy due unknown persons by the name of Bode in Germany. She took the matter up with an attorney, and the result was that she and her brother were found to be the rightful heirs, and a short time since they became possessed of the property, amounting to some \$15,000. Mr. Bode at once invested part of his portion in Lake county property, and he is now receiving congratulations from his numerous friends not only on receiving the legacy but in displaying good judgment in investing the same.

Fate Close On Alderman

Prof. L. R. Alderman, who some ten days ago fractured his leg while enroute to Burns on a motorcycle, probably is of the opinion that Fate has a strong hold on him. After leaving here for San Francisco and before reaching Reno his train bumped into a freight, causing the bones of his injured leg to become displaced and necessitating its resetting after reaching the city.

MISFORTUNE COMES SINGLY SOMETIMES

But It Follows In Rapid Succession in the Case of "Pete" Grob

While the old saying that misfortunes never come singly may not always be true, yet, W. F. Grob is of the opinion that they follow each other in mighty rapid succession. Early last June Mrs. Grob was compelled to enter a hospital at Portland to undergo an operation and treatment, and she just returned home last Thursday. Mr. Grob had been suffering from a cold for several days previously, and that night he became worse and by the next morning he was threatened with pneumonia. Dr. E. H. Smith was called and he at once proceeded to administer treatment, and at present Mr. Grob promises to be around again in a few days.

MANY MORE NEW ARTESIAN WELLS

Another Outfit Is Bought by Summer Lake and Chewaucan Ranchers

Judge E. M. Brattain is back from a trip to the northern part of the country. During the trip he and a number of associates, including Sam Lester, F. W. Silvertooth, Geo. Parks, the Carriers, L. P. Kilpelt, J. M. Small, the Brattains of Paisley, and O. J. Foley, purchased an artesian well boring outfit which they will use in the Summer Lake and Paisley sections. The outfit formerly belonged to Uncle Sam and was used in the Paulina mountain section for experimental purposes. It was sold at Fort Rock a few days since and thus came into the possession of the parties referred to. The original cost of the outfit was nearly \$2000, but it was sold for about \$700. This makes the fourth well boring

CIRCUIT COURT MEETS

GRAND JURY RECONVENED AND RETURNS TRUE BILLS

Meissen and Spence Plead Guilty and Will Be Sentenced Tomorrow--Stephenson Takes Statutory Time To Plead

The regular October term of Circuit Court for Lake County will convene next Monday, Judge Henry L. Benson presiding. While the docket is not extensive, yet there are several cases likely to be heard which will prove of general interest to the public. The Grand Jury serving at the May term of Court is now in session and will probably return indictments that will be taken up next week and dates set for trial.

During the past week Judge Benson has been doing business under the May term of court, and Tuesday the Grand Jury serving during that term was called to consider several cases.

The jury consists of J. B. Auten, foreman, J. D. Heryford, Frank Lovelless, L. A. Carriker, J. L. Hampton,

Chas. Pitcher and E. B. Brewer. Wednesday indictments were returned against Fred Meissen, E. T. Spence and J. W. Stephenson, charging them with larceny. The parties were arraigned yesterday, the two former pleading guilty, while the latter took the statutory time, three days, in which to plead.

It will be remembered that the parties were accused of stealing several fires and other accessories from J. B. Auten's, auto which had broken down near New Pine Creek several months since. Their examination was held before Justice Farrell and they were held to appear before the Grand Jury, their bonds being fixed at \$2500 each, which they were unable to furnish.

LAKE COUNTY MEN WANTED IN CROOK

Three Alleged Horse Rustlers Taken Into Custody by Sheriff Snider

Sheriff Snider did some exceptionally quick work last week in capturing three alleged horse rustlers in the northern part of the county. Sheriff Balfour, of Crook County, wired Snider to arrest "Punk" Robinson, Bill Robinson and Shorty Allen upon a charge of horse stealing. Snider, knowing that if all were not arrested at once the others would flee, sent Deputies P. D. Reeder, A. B. Schroeder and W. Hayes out north of Silver Lake to the Walker cabin in search of two, while he and Andy Foster went to Summer Lake and captured "Punk," and reached Silver Lake about the same time Reeder and Schroeder did with the other two. They were brought to the county jail and held for the Crook County officer.

It appears that there has been many horses missed in the northern part of Lake and southern part of Crook, as well as in portions of Harney county for or there many years, and it is assumed that these men are part of a regularly organized band operating in those sections. Recently several carload shipments of horses have been made from Bend, and in following up these shipments a number of stolen horses were found. Further investigation led to the belief that the accused parties were the ones who at least made part of the shipments, and hence their arrest.

Sheriff Balfour arrived Tuesday evening from Prineville and yesterday morning started on his return with the accused men in charge. All of them have been residing in the northern part of the county for some time past and are quite well known. When the parties were first taken into custody it was not known that "Bill" Robinson was wanted, the latter being at Silver Lake. However, "Bill" was determined to come anyway, he having been indulging in some of the "O Be Joyful" which Silver Lake is noted for. He got into the tonneau of Mr. Snider's auto with his saddle and proceeded to ride the untamed steed, and not until he was forcibly ejected did he consent to remain out of jail. Subsequently, however, it was ascertained that he also was wanted and was soon taken into custody.

out in the vicinity of Summer Lake a number of horses and their accessories by something doing in the way of a tree in well in the near future. Already a number of good flows have been traced, and many more veins will be discovered.

FAIRPORT HOTEL NEARS COMPLETION

Handsome Structure Will Probably Be Opened to the Public Thanksgiving

Fairport is attracting many sight-seers from Lakeview now that the hotel is nearing completion. While not large, yet it presents a handsome appearance and is greatly admired. The building is of mission style and is of inviting appearance. It is two stories in height, with the lobby, writing room, dining room, Dutch room, kitchen, serving pantries and rooms for the help on the ground floor. The dining room is large, well lighted and of attractive appearance, while the lobby contains a large, old-fashioned fire place and has a fine view of the lake.

An easy stairway leads from the lobby to the second floor where are located 23 fine large guest rooms, a number of which are en suite and equipped with private baths. There are no inside rooms, practically all affording a fine view of the lake and surrounding mountains.

An experienced Los Angeles hotel man has leased the hotel and it is expected to open the hotel to the public on Thanksgiving Day. A heating plant is now being installed, and while no delay is anticipated yet it is possible that the opening will be delayed somewhat. It is proposed to make the opening a memorable event, and no doubt the capacity of the building will be taxed on that occasion.

SCHOOL TROUBLES BOTHER PAISLEY

Directors Are Bothered By Financial Question In Conduct of School

According to a Salem dispatch the Paisley school is overcrowded, and there is an insufficient number of teachers. The directors put the matter up to the voters in a request for an addition to the building. The voters turned it down. Now what are the directors to do about it?

That is the question that is put up to the attorney general. He advised the directors they could use for the employment of teachers or securing more room 15 per cent of the 5 mills school levy, but if more than that is needed the money can be had only by the vote of the electors. He advised them that they could hire as many teachers as they saw fit.
