### "Apple Day"

Monday, November 18, is to be made "Apple Day" for the northwest and everyone is requested to eat at least one apple for health's sake. Fruit growing organizations everywhere are joining in the agitation for "Apple Day" and from all parts of the Pacific Coast word comes that there will undoubtedly be a large consumption of apples on that day. Stickers containing the announcement of Apple Day will soon be issued by Portland interests, and will be given to business houses to put on every piece of mail sent out.

### Noted Potato Section

Klamath Herald: According to D. E. Burrer, who is in the city on business, Fort Rock Valley bids fair to develop into a great potato raising country.

Mr. Burrer, who owns a farm in the valley, says that one of his neighbors experimented this year in raising potatoes with such good results that next year many others will put in crops. The first crop consisted of five tons, and the quality is said to be excellent.

The road work between Chiloquin and Silver Lake is progressing rapidly.

"We have almost completed all of the heavy work," said Mr. Burrer. "We will be entirely through in a week or ten days."

Mr. Max Rothkugel, who holds a position at the present time as Forest Assistant of the District Forest Office, Portland, Oregon, was a business visitor at the local Fremont office during the past week. Mr. Rothkugel expects to leave shortly for the Argentine Republic, South America, where he has accepted a position as Assistant Forester of that country at a salary of \$4000 per annum. Mr. Rothkugel has had considerable experience in Forestry and although his departure from this country is regretted, it is realized that his new position is a much better one with a correspondingly higher salary.

### A Freak Curio

C. E. Trink who is farming the John Flynn place on Cottonwood west of Lakeview, is exhibiting a four legged chicken that was recently hatched at his poultry yard. Aside from the two normal extremities the excess legs protrude from under either wing of the freak bird. It lived about two days, and when molested would move two legs at a time.

Mr. Trink has placed the specimen in a preservative and will keep it for exhibition purposes. The singularity of this curio would make it worthy of space in any of the dime museums.

### Visits Richmohd

T. H. Cloud, of the Frost Kandy Kitchen last week made a hurried business trip to San Francisco to purchase his holiday goods. While away he also visited the growing oil town of Richmond, Calif., where he held two lots. He listed his property for sale while there and the transaction was made before he returned home, with a net profit of 100 per cent on a two year's investment. Mr. Cloud has the agency for lots in Wall's Second Addition to Richmond and feels very enthusiastic over the future of the town for an investment. He says the second addition has as good opportunity as the first, and will further invest in property there.

## ROOSEVELT NOW AT OYSTER BAY

Colonel is Satisfactorily Recovering from Wound, Physicians Say

Colonel Roosevelt who was last week shot by a would-be assassin, left the Mercy hospital, Chicago, Monday of this week for his home at Oyster Bay. The following message under date of Oct. 21, was sent out from aboard his private car at Pittsburg, Pa.:

Although Colonel Roosevelt was weary from his all-day ride from Chicago to Pittsburg, he showed no other ill effects on his arrival here tonight, and the physicians who are accompanying him were confident that he would reach Oyster Bay in almost as good condition as when he left Mercy hospital.

Colonel Roosevelt was taken to Mercy hospital the night he was shot at Milwaukee by John Schrank. His condition is weak, but satisfactory, physicians say.

Colonel Roosevelt spent the day in reading magazines, talking and sleeping. As soon as he was brought to his car in Chicago he went to bed and remained there throughout the day.

The colonel was suffering from nervous exhaustion when he left Chicago and he found the motion of the train most tiresome.

Dr. Alexander Lambert of New York who, with Dr. Scurry L. Terrell of Dallas, Texas, is caring for Colonel Roosevelt, said the wound had bled some during the day, but that the bleeding was merely the result of the draining of the wound and was an indication of the healing process.

Bulletins were issued by the physicians during the day, but they merely reported that the Colonel was resting easy and that his condition was unchanged. Aided by the X-ray examination made yesterday Dr. Lambert was able to determine the exact position of the bullet by an external examination today. He placed a finger on the precise spot.

"The bullet is imbedded in the major pectoral muscle," said Dr. Lambert, "and as the X-ray photograph showed, is close to the fourth rib on the right side. It will be a simple matter to remove the bullet later should Colonel Roosevelt wish it."

There is little doubt in Dr. Lambert's mind that Colonel Roosevelt would be well enough to address the campaign rally planned for Madison Square garden on October 30.

The colonel is traveling to Oyster Bay on the private car Ideal, the car on which President Taft made his two month's tour last year. He is guarded by two private detectives.

Colonel Roosevelt is due in New York at 8:08 a. m. tomorrow. His car will be taken direct to Oyster Bay and before 10 o'clock the colonel will probably be in bed at Sagamore Hill.

myself, have sons older than either of you, and I appreciate the fact that a young man, in a moment of weakness, or folly, can do a very gross wrong, and yet he is not lost to society, as a good citizen, if he has a spark of manhood left in him. I am confident that you possess that innate manhood in you, and that you will make good citizens, and succeed in burying the history of this one wrong in a life of honor and respectable conduct. The parole, as I will explain to you now, will be upon these conditions: The first, (that governs all paroles,) provides that you shall conduct yourself in a law-abiding manner, and you can not violate any law without having this parole revoked; you cannot violate any of the conditions of the parole without having it revoked. And, the sheriff of this county can follow you into any part of the United States and bring you back, and if you go wrong again, all the months or years that have elapsed in which you have been good, will not count upon your sentence, and you will have to serve the whole sentence even then, whenever this parole is revoked; but, as long as you regard the conditions of the parole, you are as free as any other citizen. I shall expect you to report to me, either in person or letter, every thirty days; tell me where you are, what your post-office address is, what your occupation is, and how you are behaving. Whether you are with your family, or somewhere else. I must know as to your whereabouts and your conduct, with the same anxiety that I would one of my own children, and that is one of the conditions of the parole—that you must not fail at any time to report to me, either in person or by letter—a letter from each of you every month will be satisfactory, but give me full details each month as though you had never made any report before.

"Having said this, I think I have said all that I intended to say, except I have considered also the fact that you have already been imprisoned in the county jail something like two months,

This Store DOES NOT KEEP PIANOS, very long at a time, because the call is so great for good pianos that IT SELLS THEM. The first carload of PIANOS brought here to Lakeview is nearly all sold and have wired for more to meet the demand.

Don't fail to get acquainted with these instruments. See them in the Store, in the Homes, in the High School.

The aim of this firm is to satisfy.

## VOTER ATTENTION

One of the greatest questions to be decided by the voters of Lake County at the coming election is the

## High School Fund

Not the old County High School Law, but a law that gives to all parts of the county a square deal.

This law gives to the farmer's boy or girl an equal chance with the city children. The law does not provide for building or expensive apparatus, to be paid for at the expense of the taxpayer, but simply provides free tuition to pupils who have passed from the eighth grade schools.

A light tax of about 1/4 of a mill, which means 25c on \$1000 of property would pay the tuition this year of every High School student in Lake County. This law equalizes taxation and provides for high school work in various parts of the county.

Other states have tried this law and find it just what they want. Seven counties of Oregon are now using this law and their systems are the best in the State.

Now, Mr. Voter,

**For the good of Lake County,  
For the good of civilization,  
For the good of our boys and girls,  
vote for the HIGH SCHOOL FUND. 35-X YES!**
