

# FREE FRUIT LAND AT PAISLEY

**Don't Be Afraid of U. S. Government Carey Act Irrigation Projects in Oregon--**

The day of irresponsible irrigation companies in this state is past. When the Northwest Townsite Company of Philadelphia took over the Paisley Project in Lake County, it gave the largest bond ever given in the state—fifty thousand dollars—guaranteeing completion of the project. Every three months it makes an itemized statement of expenses to the Desert Land Board. All of its advertising books, maps, contracts, subscription agreements and literature is submitted to the Desert Land Board for inspection before being issued.

THE LAND IS LEVEL, FREE FROM ROCK, AND IS A RICH VOLCANIC ASH SOIL. The climate is perfect for fruit, which now grows to perfection at Paisley.

## Apples, Peaches, Plums, Pears, Prunes

Construction work upon the dam and reservoir has now been in progress for three months, with Thomas Hawthorn, State Inspector, on the ground. He was formerly with the U. S. Government Reclamation Service on the Umatilla Project.

Send for 32-page illustrated book. Go to Paisley by automobile stage from Bend and see the land. Our agent at Paisley, Hugh K. Gilmore, will show you the land. It is free to those who pay the cost of putting water on it.

Northwest Townsite Co. are among the largest taxpayers in Oregon, owning townsite subdivisions at Prineville, Madras, Redmond, Bend, Burns, Vale and also the 840-acre Conn ranch at Paisley, including a 50-barrel-a-day capacity flour mill, and general store.

Our bank references are:  
 First National Bank, Philadelphia, Pa.  
 Girard National Bank, Philadelphia, Pa.  
 Commercial Trust Co., Philadelphia, Pa.  
 Interstate Finance Corporation, Philadelphia, Pa.  
 Merchants' Trust Co., Camden, N. J.  
 Security Savings & Trust Co., Portland, Ore.  
 Address all communications to our Portland office, 601 Yeon building.  
 Write now. The average cost of water will be \$46 dollars an acre. We will give you a square deal.

## BUMPER CROPS ARE GROWN THIS YEAR

**Much Produce Must Be Shipped to Outside Marketing Points**

The harvesting and threshing of one of the most tremendous crops of grain, fruit and vegetables this section of the state has ever produced has been completed, or nearly so, and satisfaction is expressed by all of the farming community with the returns for their work.

Farming is becoming a science. The time is rapidly passing when mere planting of seed and reaping of the crop was the only method of farming used. Study of soils, ascertaining the adaptability of vegetation to certain soils as well as analysis and classification of soil are coming into practice and farmers are beginning to realize, and many of them know, that extra labor caused by these methods, is among the most important things that they will have to do, to insure good crops and to keep abreast with the farming industry. The time is near at hand when the Goose Lake Valley will be exporting her products instead of importing, as sometimes has been done in the past, and it will thus become a recognized factor in the commercial world. This year her productions in potatoes and apples exceed local demand, and will have to be shipped to outside markets. Which in itself is evidence sufficient to rate this section among those of commercial producers.

### Error in Ballot Copy

Through an error made in the certification of the official ballot to the County Clerks of the state a transposition occurred in the copy sheet. The error made the title read as an amendment to article VI of the state constitution, rather than article IV. County Clerk Payne was advised of the error before they were put on the press, but in three counties, Curry, Wheeler and Gilliam, they were printed before the error was detected. In those cases the secretary of state has advised them to make the correction with pen and ink, and thus avoid the loss of time and expense in having them reprinted.

One of the many sales reported for the month of October was the transfer from Mike O'Sullivan to Frank Bloom, Incamp, the Merrill buyer, of 801 head of mixed yearlings and two-year olds. The price received was \$3.25 per head all around.

Automatic Electric Block-Safety Signal System

### "RECORD"

The record of the SOUTHERN PACIFIC for the past four years is that not one single passenger lost life through a collision or derailment of its trains.

This means that during that time 175,000,000 passengers were safely carried to their destinations on its lines.

This is a record unequalled by any railroad in the world.

**\$6,000,000.00**

have been expended within the past five years in installing Automatic Block-Safety Signals. Every mile of the lines of the SOUTHERN-UNION PACIFIC Systems to Omaha, San Francisco, Los Angeles and Portland are now protected.
