IMMIGRATION HAS MARKED INCREASE

From The Irish News

It has been officially learned that the immigration to this country from Ireland during the fiscal year ending June 30, 1912, as compared with preceding years. The returns show that 39,222 Irish immigrants landed at our ports during that year, as against 29,112 for last year and 29,855 for the year before.

Statistics compiled by a Catholic institution in New York city, which endeavors to keep data on Irish immigrants in general, show that the largest number found for any one state staid in New York, 11,642 remaining there.

The smallest number was 1 to Porto Rico. To Oregon came 228, with the very same number to Idaho: 540 were bound for Washington, 334 sought Montana and 16 expected to reach Alaska.

When one considers that the total foreign immigration to this country for the year ending June 30, 1912 was 800,000, it will be seen that the Irish immigration is very small in comparison thereto.

SALT DEPOSITS TO BE EXPLOITED

C. M. Sain Says He Has Sufficient Funds to Carry on the Work

A dispatch, under date of October 21, from Salem to the Oregonian says: Declaring that he has the assurance of \$3,000,000 with which to carry on development work of Summer and Abert lake in Lake county, that if no other railroads, the company will construct its own and that the company will do better than live up to the contract with the state in producing salts, potash, and soda from these lakes and will double its production provided in the contract, C. M. Sain has returned from Los Angeles and left to-day for those lakes to take up the work on the state's contract.

The State Land Board leased these lakes for 40 years to Sain and his associates. They guarantee to pay a royalty of at least \$50,000 a year, starting with 1913, the first two payments to be made January 1, 1915. The royalties will be \$1 a ton on all soda and potash taken from the lakes and 50 cents a ton on common table salt, with a minimum of \$50,000 a year to the state.

Mr. Sain says that \$50,000 will be invested this year and 1913. This will include the cost of installing vats, casing plants, buildings, roads and kilns.

"We have guaranteed to produce 20,000 tons next year. We will produce 200,000 tons in each vat at each lake, or 400,000 tons," said Mr. Sain.

"We have had men at work all the year at Summer Lake and next year we will have another force at Abert Lake. If the railroads are not extended in time for our marketing we will build our own railroad either to connect with the Oregon Trunk and Southern Pacific at Bend, or with the Southern Pacific at Silver Lake, if that road builds across the state. We may connect with the Nevada, California & Oregon at Lakeview. There are 40,000,000 tons of salts in these lakes, of which 20,000,000 tons are potash and soda and the rest common table salt.

Out of the great Salt Lake in Utah they produce 150,000 tons of common table salts a year. We will produce more and we have a larger tributary market. The first year we expect to market 100,000 tons."

SHEEPMEN DYING TO WINTER RANGE

From The Irish News

Owing to the increasing cold weather and the slight storms of the past month, both of which predict the passing of the "good old summer time," most of the sheep men are now passing through en route from their summer ranges to winter headquarters. Very few have actually gone onto the "desert" as yet, one reason for this being the scarcity of snow, this latter being an absolute necessity for the purpose of securing drinking water for both man and stock. It is hoped that this deficit will be remedied soon as the sheep are liable to run short of feed if kept on the surrounding edges of the "desert," which have already been quite closely eaten off. The stock are all coming from the summer ranges in excellent condition, and unless something unforeseen happens such as unusual snow storms, continued freezing weather or lack of sufficient snow for drinking water, there is no doubt but what they will be able to pass through the winter season with flying colors. It is our fond wish that the sheep men and their stock will experience no more winters such as that of 1910-1911.

SAN FRANCISCO CORRESPONDENCE

From The Irish News

Hugo Leyva, a former employee of the Arner Brothers Blacksmith shop, Lakeview, passed through San Francisco recently enroute for Watsonville, where he will join his wife.

Doctors E. L. and Frank Harrington, brothers of Mrs. Laura Harry, of Lakeview, have returned from New York city where they were called on urgent business.

Louis Kerrigan, who has many friends in and about Lakeview, that will be pleased to learn of his new position to the position of cashier of the Hibernia bank.

Miss Bertha Loftus, of Lakeview, is now on a visit with her uncle, John Loftus, of Orland, Cal. Incidentally she is attending the University of Orland.

LOCAL SHEEPMEN MAKE BIG SALE

From The Irish News

The partnership of Arthur, Lane and Jones made a deal recently whereby they disposed of 1400 head of lambs to Tafe & company, of San Francisco. The price received was six cents per pound clear, and it was found after weighing the stock in San Francisco that they averaged \$3.08 each. Owing to a mistake in counting the sheep at the corrals it was found that 112 lambs were left after filling the order, and these were sold to Swanston & company, Sacramento, for \$3.00 per head.

Jack Burke and Mike Angland have sold 300 of their wethers at \$3.25. They separated the sheep at the Molkey corrals. Mr. Burke intends to run his portion this winter and will take 1000 head from Con Fitzgerald to run until lambing time. Mr. Angland will go into partnership with his brother, Pat. Good luck, boys.

Lakeview Meat Market
HAYES & GROB, PROPS

Paisley Pick-ups

(Chewanacan Press)

L. P. Klippel is in town on business this week. He is on his way to Lakeview where he will put his son in school.

About two days were spent in reviewing the evidence at Lakeview against O'Connell for keeping a disorderly house but no bill was returned and Con and all those taken to Lakeview have returned to Paisley.

Wm. Currier left for Prineville, Saturday. He and several of the other stockmen of northern Lake County are interested in the trial and arrest of the Robison gang who are now being pursued through Washington. Many ranchers of this section found horses with their brands, in the bunch recently returned from Washington, and which was sold there by the Robisons.

County Surveyor, S. A. Muesen is at work upon the survey of the city. This survey was ordered by the City Council at a recent meeting for the purpose of re-establishing the corners of the original town, as many of them have been entirely obliterated. All streets and alleys will be laid out so that the residents can put any new improvements upon their property and be certain that they are not enhancing the value of their neighbors land.

SILVER LAKE ITEMS

(Silver Lake Leader)

Bill Currier and Gus Schroder went to Prineville on Tuesday to be witnesses in the horse stealing cases.

The O. & E. surveyors—17 in number—have camped at F. E. Anderson's since last Tuesday. Saturday they had run the line one mile east of View-point post office. This week they will clear Christmas Lake Valley and move camp to Buffalo.

The Lakeview Examiner, like the Leader, seems to think the sheriff of Crook had cold feet when he telegraphed to Sheriff Sneider to go to the extreme northern part of the county, 150 miles from Prineville, to arrest Robison and Allen. Warner showed that there was no cold blood in his composition.

C. M. Sain, representing the company which has leased the alkali lands around Summer and Abert lakes, was in town Wednesday on his way to the lakes to begin the erection of evaporating vats, etc. He claims he has \$5,000, with which to build a railroad to the contemplated works if the railroad people would not build so as to give them transportation. He says they will produce 200,000 tons a year.

CHARLES DUGGAN WILL TAKE BRIDE

From The Irish News

One of the most pleasant happenings that we have been called upon to record is the marriage which will take place Monday, November 4th, between Miss Margaret O'Sullivan and Charles Duggan. The ceremony will be performed at the Catholic Church here by Reverend Father Kern, S. J.

Miss O'Sullivan is a sister to Michael and Jeremiah O'Sullivan, neither of whom need be introduced to our readers. She is a native of County Limerick, Ireland and came to this county several years ago, making her home in New York City. About two weeks ago she arrived in Lakeview and the affair above recorded will be the happy culmination of her trip, it having been planned a long time since by the happy couple who were childhood friends.

Mr. Duggan has been a resident of Lake county about six years, being interested in the sheep business, and during this time he has made many friends among the boys as well as the people in general by his many sterling qualities. For sometime past he has been located at the Barry ranch in Guano Valley, where he and his wife-to-be expect to make their future home.

It is expected that a large number of relatives, friends and acquaintances will be present at the ceremony, all of whom, like the "News," extend wishes of continued happiness and prosperity in life.

Following is the program of the Tourist Chautauqua Circle, which meets with Mrs. Thos. S. Farrell, Monday afternoon, Nov. 4, 1912: Current events; "Armand Fallieres, the French president, Government by Parliament," (the Chautauquan "European Rulers, II") Mrs. T. S. Farrell. "Mid-Century Economic Changes on the Continent" Ogg, Miss Pearl Hall "Political Reform in England to 1832" Ogg, Mrs. George Johnson. "The Growth of English Democracy from 1832 to the present day" Ogg, Mrs. D. C. Schminck.

While in Paisley drop in at O'Connell & Kelgen's and get a glass of real refreshing Ranier beer, the kind that is recommended for family use.

SOME BEEF STEERS

C. B. Crisler and Harry Stiltz, of the Klamath Falls Meat Company, have two steers which will tip the scales together at more than 4,600 pounds, says the Klamath Northwestern.

One of these steers is about five years old and when last weighed his weight was 2,360 pounds. That was several months ago, and Mr. Stiltz declares he will weigh over 2,400 pounds now. The other will weigh over 2,200 pounds, and while not so large a steer is just as fine an animal as the first one.

Mr. Stiltz says these are two of the finest steers he has ever seen. He expects the animals to bring him nearly \$400 and says he will not dispose of the largest one for a cent less than \$200. He is holding this animal at eight cents a pound, on foot, and if he weighs an even 2,400 pounds this will mean \$192, but Mr. Stiltz says he will go over this weight enough to make his price reach \$200.

CHRONIC DYSPEPSIA

The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia: "I have been a chronic dyspeptic for years, and of all the medicines I have taken, Chamberlain's Tablets have done me more good than anything else," says W. G. Mattison, No. 7 Sherman St., Hornelleville, N. Y. For sale by all dealers.

THEY MAKE YOU FEEL GOOD

The pleasant purgative effect produced by Chamberlain's Tablets and the healthy condition of body and mind which they create makes one feel joyful. For sale by all dealers.

"Made in Oregon"

Governor West has proclaimed November 21, "Made in Oregon" day in this state and by his decree has made it a holiday when all stores will display the home products in their windows, and when the Oregon Manufacturers Association will meet in Portland and strengthen its organization.

The object of the association, stated in simple terms, is simply "to induce Oregon people to patronize themselves more." It is felt that retailers give undue preference to Eastern-made goods when this state has lumber, clothing, steel and woolen mills turning out an equal product, if not superior, to the imported commodity.

A MARVELOUS ESCAPE

"My little boy had a marvelous escape," writes P. F. Bastians, of Prince Albert, Caps of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger. Sold by all dealers.
