## CHARTER GRANTED FOR PAISLEY BANK

Institution Will Be in Operation By the First of January, Next

Governor West and Senators Bourne and Chamberlain have each given to President Bailey, of the Northwest Townsite Co., letters to the Controller of the Currency at Washington, urging him to grant a charter to Mr. Bailey and his associates, who are organizing the Paisley National Bank. It is expected that the bank will be ready for business early in January next.

Under the auspices of the Central Oregon Development League, the Commercial Club at Paisley was recently reorganized, and made all of the arrangements for the Farmer's institute, which was recently held at Paisley. A beautiful silver cup standing two feet high, is being offered by the Club for the best collection of fruits, vegetables and grains raised in the Paisley country, for the exhibit to be made by the Club at the Northwest Land Products Show to open at Portland November 18th to 23d.

Alturas Paidealer: Mr. Stevens, the Goose Lake gardner, showed us some of the finest potatoes we have yet seen. They were raised on new ground, without irrigation, and on land a few years ago was regarded as worthless. The potatoes are now on exhibition in the window of the Pit River Hardware company.

## NORTH END MAKES EXCELLENT CHEESE

Good Feed Makes Possibility of Industry Very Profitable

Pleasant Valley settlers are greatly encouraged by the returns that they are receiving from their dairy industry in connection with the cheese factory that has been started at Fremont, says the Bend Bulletin. Many of them are going in to the industry upon a much larger scale than they had contemplated as they now find that the per cent of butter fat is very high from the bunch and other grasses and that the quality of the cheese, whether it is on account of skilled handling of the milk or the climatic and other conditions, is away above the ordinary run of cheese that one purchases in the stores. A 320-acre homestead, ten dairy cows bred up to a high standard and a market for the milk will mean, it seems, independence to the settlers there in a short time, to say nothing of the large amount of beef stock that they can run on the open range in addition to their home pasture.

Figures compiled, a few days before Tuesday's election at Washington, D. C., fixed the number of women who would vote a 630,000, and male voters at 15,815,000. The statement said that 23,290,000 men were eligible to vote, but that no more than 69 per cent were expected at the polls. Women in six states voted at Tuesday's election.

## MUCH ACTIVITY IN HIGH GRADE

Work Moving with Alacrity on Several Properties in the Camp

(Correspondence)  
High Grade, Cal., Nov. 4.—The work of sinking the shaft on the Lucky Dutehman lease now owned by the Spearmin company is being carried on under the able management of Messrs Schrott & Mack, the local representatives of the Spearmin company of which A. L. Arnold of Denver is the general manager. The shaft is now down to a depth of forty feet and good ore is being broken over the entire width of the shaft. Supplies are being brought in and the work will be pushed as rapidly as possible and developments of a sensational nature may be expected in the near future.

The shaft on the Modoc mine is down past the one hundred foot level and the values of the ore are increasing with depth. Supplies are being shipped into camp for the Modoc company and active preparations are being made to drift and crosscut from the one hundred foot level and also to continue the sinking of the shaft throughout the winter months. A heavy production of good ore is predicted from this mine for next summer.

Messrs. Sheppard and Cook are busily engaged in erecting a shaft house over the shaft on their lease. They expect to have this building completed by the end of the week at which time the work of sinking the shaft will be resumed as rapidly as possible during the winter. This lease is on the school section between the Modoc mine and the Town of High Grade and is one of the most promising leases in the district and Leesees Sheppard and Cook are considered very fortunate in having secured this ground under the most favorable leasing terms.

The Twin Leasing company is pushing the work of drifting on their lease in the Sunshine tunnel. They are opening up new ground and have a good streak of ore in the present workings. It is reported that Mr. Hagar, the manager of the company, who has been away for several weeks on account of illness, is expected to return to camp soon and again assume the active management of the lease.

Work on the Bruner lease in the Sunshine is being carried on as rapidly as possible and preparations are being made to continue the work throughout the coming winter and to that end it is reported that materials and supplies will be shipped into camp within the next few days. A test shipment of ore from this lease was recently made and although the returns have not as yet been made public it is understood that the result was very encouraging.

Manager Fred Bell of the Gold Shore Mining company is expected to return to camp within the next few days to resume active operations on the Gold Shore property. This company is supposed to have the extension of the Sunshine vein on the east and it is reported that good ore will very probably be encountered on that property in the near future.

## Horse Rustlers Indicted

In regard to the horse rustlers who were recently captured in Lake county by Sheriff Snider, the Silver Lake Leader says:

W. C. Currier, A. B. Schroder and John Hayes returned from Prineville last Sunday evening, where they had been as witnesses in the horse stealing cases. The grand jury found true bills against Punk and Bill Anderson. Their trial was set for December 23, and the court placed their bonds at \$5,000 each, which, at last reports, they had been unable to furnish. Shorty Allen has been held as a witness.

Following is the program of the Tourist Chautauque Circle which meets with Mrs. Guy Foster, Monday afternoon, Nov. 11: Current events; "Popular Government in Germany and Northern Europe," Ogg, chapter XI, Mrs. F. P. Cronmiller. "Popular Government in the Romance Countries," Ogg, chapter XII, Mrs. Guy Foster.

## FORT ROCK GROWS LARGE POTATOES

M. S. Buchanan Takes Display to Portland for Land Show

The Portland Journal pays the following tribute to the Fort Rock country as a potato producing section:

Large potatoes, grown in the heart of what has for a century been regarded as the Great Oregon desert, without any water for irrigation purposes, form a display placed with the Chamber of Commerce today by M. S. Buchanan. The potatoes are from Christmas Lake Valley, which is a broad, fertile basin to the north of Silver Lake, where a few years ago it was the common belief that even jack rabbits could not thrive. Buchanan is one of the multitude of homesteaders who have gone into that remote section, moved to do so by the prospects of the railroad companies penetrating that region.

There are not to exceed 8.5 inches of precipitation in a year in that part of the country, according to Buchanan. Some of this, of course, falls in the winter, when crops are not growing, but the expert husbandman has learned how to conserve this winter moisture in a spongy, well cultivated soil, for Spring and Summer use. This season has been exceptionally favorable throughout the Northwest, and more than 8.5 of the moisture was probably had in the desert country. It is to draw such exhibits from farm and garden, as Buchanan has brought that the Land Products Show is to be held. All parts of the Northwest have been urged to bring in such exhibits as this, to prove new truths about the districts. The great Central Oregon country, which is just being opened to railway transportation, will be one of the best represented regions at the products show when it opens, November 18.

Born in Lakeview, Oregon, Thursday, October 31, to Mr. and Mrs. Jess Martin, an eight-pound baby boy.

## WILSON AND MARSHALL

Continued from first page  
For Secretary of State: Olett, republican, 259; Ryan, democrat, 144; Kennedy, progressive, 103; White, prohibition, 14.

For Justice of the Supreme Court: Eakin, republican, 268; Slater, democrat, 161; Weaver, socialist, 46; Wright, prohibition, 22.

For Dairy and Food Commissioner: Mickie, republican-progressive, 279; Lea, democrat, 171; Brazee, socialist, 47; Dunbar, prohibition, 23.

District officers, for Railroad Commissioner: Campbell, republican-democrat, 340; Service, progressive, 124; Voget, prohibition, 2.

For Prosecuting Attorney for Klamath and Lake counties: John Irwin, republican-democrat, 333; Drake, independent, 217.

No word has been received from Klamath County, but it is believed that Irwin will carry this county by a good majority.

For Senator, Seventeenth District: Thompson, republican, 334; Young, democrat 191; Shipp, prohibition 30.

For Representative Twenty-first District: Smith republican-democrat 242; Forbes republican 194; Stearns prohibition 33; Gregg, prohibition 30.

For County Clerk: Payne, democrat 427; Utley, republican 186.

For County Treasurer: Hawkins, democrat, 328; Ahlstrom, republican, 265.

For Assessor: Foster, democrat, 24; Barnes, republican, 189. It is reported that Foster lost the Summer Lake precinct by one vote, but carried Silver Lake strong enough to practically assure his election.

For School Superintendent: J. Q. Willits, republican, 237; Oliver, democrat, 231. It is also said that in the Superintendent's race that Oliver was given the lead over Willits by about 25 votes by Silver Lake and Summer Lake. That leaves three precincts yet to hear from and the result is but a matter of conjecture.

For County Commissioner: Rehart republican, 239; Wakefield, democrat, 206.

## SONOMA VALLEY DRIED FRUIT

Pears	" " " "	\$2 50
Apricots	" " " "	\$2 75
Evaporated Apples	in 50 pound boxes @ 10c pound	
Prunes	by the sack of about 100 lbs @ 7c pound	

This fruit was dried and packed by  
**S. J. STUDLEY & SONS - SONOMA, CALIF.**  
P.S.—The reason this fruit is so cheap, there are no middle men.

## STOP! LOOK AND LISTEN

Of course you would like to have a Piano  
We are glad to say that the

## Eilers Music House Of LAKEVIEW, OREGON

has sold more Pianos in this city and vicinity than any other two firms in the same length of time.  
The reason why is

**QUALITY—LOW PRICE—  
AND EASY TERMS**

Hence these three important points must be correct. We have a few of our best Pianos left out of our last shipment, and would like to have you call and inspect them whether you feel able to purchase or not.

Your Organ will be taken in exchange at a fair price on your Piano purchase.

**EILERS MUSIC HOUSE**  
CORNER CANYON AND DEWEY STREETS  
C. O. ROE - - - MANAGER

For County High School Fund: Yes, 256; no, 48. It can be seen by the above county returns how the election will go in nearly all offices excepting these for School Superintendent, Prosecuting Attorney, County Treasurer and County Commissioner.

The Cogswell Creek precinct vote on the liquor question resulted in 61 for and 41 against. Local Option was said to be defeated at Adel by 11 votes. The Examiner next week will publish the complete official returns of the county and the votes by precinct.

## Independence That Pays

IRRIGATION can be made profitable wherever the rainfall is uncertain. Even in Oregon where the total rainfall is 30 to 40 inches there are many profitable irrigating plants, because the rain does not always fall at the time when it is most necessary to the successful growing of crops. A nearby stream or fast-flowing well, a pump of sufficient capacity, and a dependable

## I H C Oil and Gas Engine

make every farmer who has them independent of rainfall conditions, and practically sure of the best growing conditions for his crops.

I H C engines are recommended for irrigating work because of their reliability. They are always ready for the work demanded of them. They are easily moved from place to place; need little attention after starting; are simple, easily understood and managed; and may be used for farm pumping, sawing, running the feed grinder, grindstone or emery wheel, cream separator, churn, washing machine, etc., besides running the irrigating plant. The I H C line includes water and air-cooled engines—stationary 1 to 50-H. P.; portable 1 to 25-H. P.; skidded 1 to 10-H. P.; tractors, 12, 15, 20, 25, and 45-H. P.; sawing, spraying, grinding outfits, etc. See the I H C local dealer for catalogues and full information, or write
