If you hear a bombardment from a series of firearms consisting of 22's, shotguns, etc., these bright nights don't think the Insurrectos have come to town. It's only the local sports shooting jack rabbits in the western and southern outskirts of town.

Alturas Plasterdealer: Snow is reported 7 feet deep at High Grade, but development work on half a dozen properties is going right along. A large force of men, in the aggregate, are employed and the prospects are very flattering. Indeed, in all properties values increase with depth and miners are greatly encouraged.

Raymond Poincaré who for the past twelve months has been premier of the French cabinet was last week elected president of the Republic of France by the national assembly, in succession to President Fallier, whose seven year term expired February 18. O. E. Wood, former operator of the local N.-C.-O. telegraph station and who has been working as agent of the Wells Fargo Express for A. L. This is to inform you that a cordial invitation is extended to you personally to be present at the Methodist Church Sunday, Jan. 26. Both morning and evening your presence will be greatly appreciated. And you will be glad you came. A little girl said the other day, "my mamma used to go to Church but she never goes any more," and as she said it there was a note of sadness in her tone. How many boys and girls are feeling this neglect on the part of parents? You owe it to the young of the town to be a regular attendant of some church. The Methodists extend to you the opportunity in this line. Come with us and we will do you good.

This section for the past week has been getting a series of diversified weather. The latter part of last week witnessed some of the hardest snow storms that the country has had for several years. One of the local characters that is greatly missed this winter is M. D. Hopkins, who is hibernating on the ranch west of town. This weather no doubt reminds him of the winters of long ago, such a one as that, for instance, when the late Joe Lane hired out to feed cattle on a ranch a few miles north of Lakeview. He started in with something over a hundred head, and along towards what should have been spring, when the last head had died, he sent in word that if they wanted him to feed cattle they would have to send some more out.

#### Money in Rabbits

A news dispatch from Gooding, Idaho to the Portland Telegram says: "With two feet of snow on the ground, rabbit hunting is the principal occupation at present, and rabbits are being shipped out by the carload to the cities where they command as high as 75 cents apiece. Hunters get 50 cents a dozen for them here, and can make good wages at that. A big rabbit drive will be held next Saturday, when thousands will be killed to protect the crops in the Spring." "We have both snow and the rabbits here and probably it would be worth while to investigate their commercial value as a Lake county product."
