The writer is in receipt of a sample copy of "The Menace" a publication that is printed in Aurora, Mo. Alturas New Era: About ten of the friends of Thos. Sherlock, took a little joy ride last Sunday, and went up to Davis Creek to make the gentleman a visit. They were very royally received, and a magnificent bachelor dinner was waiting. On the way there, and while going down the steep Tom's Creek hill, the four spirited horses took a little exercise. They ran about a half mile down the steep, hill and along a barbed wire fence. It looked a little squeamish for a while, but all came out all right.

Sunday, February 2, was Groundhog day, and if that pesky little animal emerged from his hibernating quarters on that day, as the wise weather prophets say he does, the bright sun drove him back to the hole he vacated where he will remain for the next six weeks. If the ground hog can see his shadow on February 2 we will have six weeks more winter—so sayeth the prophet, and if you wish to take for granted the sagacious weather man's prognostications the winter will last just that long.

To the gratification of all concerned the change in the train service between here and Alturas did not take place February 1 as was rumored. According to reports from the officials it seems that the rumor in some instances was somewhat unfounded, although the advice was that Postmaster Ahlstrom received surely official. By the work that is now being done on the line below Lakeview it does not look as though any change is likely to occur.

E. D. Holland and son, of Modesto, Cal., were in Lakeview a few days since with the avowed purpose of going to Fort Rock.
