EARLIEST EASTER IN MANY YEARS

First Sunday Following Full Moon After Spring Equinox

Easter Sunday for 1913 will happen on March 23. A writer in the St. Louis Post Dispatch says:

Eastern bonnets will blossom earlier this year than they have since 1856 and earlier than they will burst into bloom for another century. The earliest date on which Easter can fall is March 22 and that hasn't happened since 1813. This year it will be on March 23, the same date upon which it fell in 1856 and 1845. Tables computed by mathematicians have not been carried far enough to show just how long it will be before Easter again falls on so early a date, but it will not occur until sometime after the year 2000.

The rule for fixing the date of Easter originally was that it was the first Sunday after the first full moon following the spring equinox. The equinox falls on March 21. According to a ruling of the council at Nice, if March 21 is Saturday and there is a full moon on that day, the following day will be Easter. This year March 21 will be Friday and there will be a full moon Saturday.

MANY BILLS ARE SIGNED BY WEST

Some Legislation of State-wide Importance Accomplished

Both branches of the legislature adjourned last Wednesday to take a five-day lay off then to reconvene and act upon the measures vetoed by the Governor. During the first few days after returning to Salem West signed 88 bills which will become laws in ninety days after the close of the session.

Among these bills are a number of much importance. Included in the list that will go on the Oregon statutes and become laws are the following:

H. B. 27, which fixed a graduated scale of compensation to be paid to every employee injured in hazardous industry, and in case the injury is fatal it provides for a compensation to be paid surviving spouse and children. It creates a workmen's compensation and special fund for the purposes of the act.

Another bill of large importance included in this list is S. B. 72, by Senators Smith of Coos and Thompson, which provides for agricultural, horticultural, dairying and industrial ex-

PUBLIC LIBRARY IS PROSPERING

Annual Report Shows Advanced Conditions Over Last Year

The Lakeview Public Library Association held its annual meeting Saturday, March 1, when the following officers were elected for the ensuing term:

President, Mrs. Jonas Norin; Vice-president, Mrs. C. H. McKendree; Secretary, Mrs. A. L. Thornton; Treasurer, Mrs. W. H. Shirk; Trustees: Mrs. W. P. Heryford, Mrs. Wm. Harvey, Mrs. E. E. Rinehart, Mrs. T. E. Bernard, Mrs. Harry Bailey, Mrs. T. V. Hall and Mrs. C. A. Watson.

The report of ex-secretary Mrs. Rinehart for the year ending March 1, 1913, showed the following flourishing conditions of the institution:

Amount on hand March 1, 1912 \$235.76
Receipts for the year ending March 1, 1913 769.75
Disbursements for year ending March 1, 1913 887.51
Balance on hand March 1, 1913 118.00

Money spent for books, papers and magazines: Encyclopedias, at cost, \$108; magazines and papers, \$64.90.

Number of volumes in library 1123. This is against 817 volumes that were in the library March 1, 1912. Magazines on the table, 22; daily papers, 5; local papers, 16.

There were 5,500 volumes issued during the year of 1912.

The above glowing report shows that the popularity of the Public Library is growing rapidly. The ladies of the town are deserving of much praise for the circumstances of the institution, as upon them devolves all the credit for its establishment and success.

The new nickel of Indian head and buffalo design was put in circulation last Saturday in Washington. Before the new coins were being circulated the Treasury Department had received orders for 2,000,000 of them.

Houston of Missouri.
Secretary of Commerce—Representative William C. Redfield of New York.
Secretary of Labor—Representative William W. Wilson of Pennsylvania.
