

**"Here is the Answer" in WEBSTER'S NEW INTERNATIONAL**

**THE MERRIAM WEBSTER**  
Every day in your talk and reading, at home, on the street car, in the office, shop and school you likely question the meaning of some new word. A friend asks: "What makes most garden?" You seek the location of *Los Angeles* or the pronunciation of *chateau*. What is *white coat*? This New Creation answers all kinds of questions in language, history, biography, fiction, foreign words, trades, arts and sciences, with brief authority.

**400,000 Words.**  
**6000 Illustrations.**  
**Cost \$400,000.**  
**2700 Pages.**

The only dictionary with the new divided pages, "color-actuated" as "A Stroke of Genius."

**India Paper Edition:**  
On thin, opaque, strong, India paper. What a satisfaction to own the Merriam Webster in a form so light and so convenient to use! One half the thickness and weight of Regular Edition.

**Regular Edition:**  
On strong book paper. Wk. 14 1/2 lbs. Size 10 1/2 x 7 1/2 x 5 1/2 inches.

Write for specimen pages, illustrations, etc. Mention this publication and receive FREE a set of pocket maps.

**G. & C. MERRIAM CO.,**  
Springfield, Mass.

**DOING THEIR DUTY**

Scores of Lakeview Readers are Learning the Duty of the Kidneys. To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick. Backache and many kidney ills follow. Help the kidneys do their work. Doan's Kidney Pills have cured thousands of severe cases. Proof in the following: Mrs. William Charley, Grape St., Medford, Ore., says: "The public statement I gave in praise of Doan's Kidney Pills in 1907 still holds good. I occasionally take this remedy and find that it keeps my kidneys in proper working order. A fall was the cause of kidney complaint in my case. The kidney secretions were unnatural and sometimes I had such acute pains in my back that I could hardly bend over. I did not sleep well and despite the use of plasters, liniments and remedies of various kinds, I continued to suffer. While in that condition, Doan's Kidney Pills were brought to my attention and procuring a supply, I commenced their use. In about two weeks I felt better and the contents of two boxes made me well. I have recommended Doan's Kidney Pills to many other people."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

**THE MOTHERS FAVORITE**

A cough medicine for children should be harmless. It should be pleasant to take. It should be effectual. Chamberlain's Cough Remedy is all of this and is the mothers' favorite everywhere. For sale by all good dealers.

**Paisley Pick-ups**  
(Chewaucan Press)

The Library Benefit dance given by the Library Association for the benefit of the Paisley Library in Harper Hall last Friday evening resulted in a net profit of about \$40 for the library cause.

J. E. Harper, C. S. Benfield and Ed. R. Buchwalter are all busily engaged this week in installing a picture machine room in the Pastime Theatre. The room is being built close to the ceiling at the rear of the hall and will be lined with both, asbestos and tin, throughout making it entirely fire proof.

C. E. Robinson resigned his position in V. Conn's store and has moved to his ranch on Summer lake where he will lead the simple life for a season or two. Here's to his success as a rancher. He still holds office as U. S. Commissioner, for this section.

Mr. Glen Loucks and Mrs. Loucks and Carl McGhee all of Madras, Oregon arrived in Paisley last week and spent several days in looking around town. Mr. Loucks has a desert claim south of here. It is the intention of the entire party to return later in the season. Mr. McGhee filed on a desert claim while here.

Everybody is having one grand old time with their wells these days as water is lower than known for several years. As it is impossible to dig far into the stream when once struck, the wells in town are very shallow. If all would get busy at this time and sink as low as possible it is likely that no more shortages would ever be heard of here.

**Silver Lake Items**  
(Silver Lake Leader)

Ed Bricker fell a depth of 25 feet into a well near Viewpoint last week. When taken out he was unconscious and in a serious condition, but was greatly relieved by the attendance of Dr. Thom, of this place.

S. A. Lester returned home from Lakeview Wednesday.

Carl Ewing and wife and Guy Foster passed through town last Saturday on the way to their claims near Fort Rock. They had two big wagons heavily loaded and it looked as if they intended to make extensive improvements.

That genial old sport, and famous cougar hunter Andrew Foster was in town last Saturday, being the first of the month he busied himself assessing all the ranchers who came to town. He was accompanied by Tom Scribner, an old time resident of Silver Lake who was shaking hands with old friends.

**After Horse Rustlers**

Harney County News: Sheriff Frank Elking of Prineville and a stockman named Morton came in from the west last week and being joined here by Sheriff Richardson of this county they proceeded toward Lakeview on a mysterious mission and have not been heard from since. It is known that the sheriffs east and west have been working for a year or more to get a line on an organized gang of horse thieves whose operations have been carried on systematically from Colorado to the Pacific coast, by an endless chain and it is also understood that Richardson and Elkins are now on the track of some of the noted leaders of the gang, who have been busy in this part of Oregon.

**Entry Allowed**

David E. Burrell has received notification that his homestead entry on 320 acres in the Fort Rock Valley has been allowed, under an order of February 28th, says the Klamath Herald. Burrell has been fighting for the claim for five years.

Burrell first settled on the land in 1908, two years before it was surveyed, and ordered thrown open to entry. His application was denied by the Lakeview land office, the general land office and the department of the interior on different features before Burrell was finally given the homestead.

**Elk Officials Elected**

The following officers were chosen to serve for the ensuing year by Klamath Falls Lodge No. 1247, B.P.O.E. Exalted Ruler—E. B. Hall. Esteemed Loyal Knight—J. J. Parker.

Esteemed Leading Knight—W. W. Baldwin.

Esteemed Lecturing Knight—T. G. McHatton.

Secretary—L. H. Bath.

Treasurer—Leslie Rogers.

Trustee—Harry Ackey.

Tyler—J. E. Bodge.

E. B. Hall, who was chosen exalted ruler, was the first member of the lodge to be elected to this position, following the institution of the lodge in 1911. His second election comes as a result of his tireless efforts for the success of the Elks Rodeo and the Elks lodge.

The new officials will be installed Thursday, April 3. A social program will be rendered at that time.

J. C. Oliver has 10 head of mules and horses for sale, also a few choice milk cows.

**DAIRY WISDOM.**

Give cows six to eight weeks' rest between lactation periods. Discard the cow which has failed at the end of the year to pay market price for all the feed she has consumed.

All cows that are hearty eaters are not profitable producers, and all profitable producers are usually hearty eaters.

The best of cows will not produce milk unless fed liberally on the right kind of feed.

If the udder of the fresh cow is in good condition and shows no trace of garget the calf should be removed after it has nursed once or twice.

Cows giving over a gallon of milk a day should be fed grain. A good grain mixture is corn chop mixed with bran or cottonseed meal. A pound of this mixture should be given each day for every three pounds of milk produced.

**LAXATIVES FOR HORSES.**

Care Must Be Exercised in Feeding Bran—Carrots Beneficial.

While the horse is working hard succulent food is a positive injury in that it tends to remove undigested, as a result of laxity of the bowels, food nutrients that are daily required for formation of muscle supply or vim and vigor—in other words, repair of tissue waste, writes Dr. A. S. Alender in the Rural New Yorker. Where, on the other hand, the horse is idle the succulent food may be and usually is required to overcome the tendency to constipation and its accompanying train of evils.

In the former case the feeding of much bran daily might be detrimental, and in the latter case it would be useful and profitable. The hardworking horse keeps its bowels in condition by exercise and utilizes all of the food nutrients supplied him so long as his digestive organs are kept in good condition. If he be fed a bran mash daily he may continually suffer from what may be called subacute indigestion and fail to derive the proper amount of nourishment from the sound oats given him in addition to the bran. When Sunday arrives, however, his wonted exercise is stopped and he is unable to throw off the surplus food nutrients not needed by work. If he has been daily fed dry bran he will now be liable to suffer from acute indigestion if given a bran mash.

This being the case, the feeding of a bran mash to a horse that has been taking dry bran throughout the week is a dangerous practice. Where the hard

The Percheron breed of draft horse is the most popular as well as the most numerous in this country. At the same time the supply of pure bred draft horses in this country is all too small. According to Wayne Dismore, secretary of the Percheron Society of America, there is but one pure bred draft animal to every 197 horses found on the farms of this country and only one good draft sire for every 74 horses. The imported Percheron stallion Impregnation, shown here, was grand champion of his breed at the International Live Stock shows of 1911 and 1912. He is owned by I. Crouch & Son, Lafayette, Ind.

working horse not fed upon bran, but getting large quantities of oats during the week, is given a bran mash on Saturday night the effect will be good, and the practice is to be commended. Occasional bran mashes are also excellent for idle horses when fed upon corn, and a small quantity of bran will make the crushed oats fed to colts more effective. We say these things for the reason that bran causes opening of the bowels by irritating the bowels. It does not give a great amount of nutrients, although its analysis would lead one to suppose that it was even more nutritious than oats. It is indigestible and passes through the intestines in many cases wholly undigested. It acts as a laxative for the reason that it is a foreign body and is thrown off as useless by the irritated intestines. Carrots act in a somewhat different manner. They do not prove laxative on account of any irritating effect, but on account of real succulence, and have the special power of acting nicely upon the pores of the skin. They may be fed to a horse in poor condition when bran would only aggravate the impoverishment. Roots are relished by horses and are digestible.

**Dairy Filth a Crime.**

A dirty, filthy cow stable is inexcusable. It is a bad habit that must be abolished. Every farmer should take pride enough in his business and in his own self respect to abandon the habit of housing the cows in a dirty stable. His regard for his family and the good name of his children should induce him to reform in this line. But the real menace is the danger of the product from such a stable. It is a crime for any man to defile a food product, whatever the law may say.—Farm Press.
