#### THE SPECIAL SESSION

up at the special session. There is session is likely to stretch into months. the special session.

Reductions of tariff are certain to be made. The farming interests are anxious for they have always felt that they did not get as much consideration as they should have had. The cry for chesper cost of living may strike right at the root of the farmer's prosperity, and, of course, the legislators desire to be cautious with respect to this, The South with its cotton, sugar, tobacco, oranges, rice and other distinctive products, is clamoring for protection: the West wants cattle, lumber and wool taken care of; the East asks for consideration for manufactured goods: in short the old problem of compromi-ing in a way to satisfy everyone is still present and it is a problem which will tax the ingenuity of Congress to the utmost.

Dear Sir:

Do you recognize any of the following symptoms?

They are usually present during the spring months and are not very pleasant to say the least.

When you become out of sorts-lacking in energy, ambition, can't push ahead and don't seem to care whether you do or not-it means that the indoor life of the past winter has hardened the system with impurities.

# SPRING FASHION SHOW of H. S. & M. SUITS

Every season men are more interested in good style. Young men especially have helped to cultivate this critical spirit.

TEvery season, too, more men are reallizing that they get better style, better materials, better tailoring in ready-made clothes than the average to-measure tailor can possibly offer.

Every suit in the Spring line of Hart Schaffner & Marx Good Clothes is an exhibit of the above fact.

Ilt isn't always an easy thing to prove this in type, but the clothes will do it in a few minutes.

all the skill, experience and science in buggy building that half a century can produce. You are protecting yourself against the mistakes of younger builders.

You will always be proud of the Studebaker nameplate, for there isn't a buggy on the road that is its equal for style, luxury and good looks.

Florible bent-reach gear, graceful lines, solid cor-ner, plugless body, double-ironed shafts, are a few of the special Studebaker features.

The new close-fitting shifting rail is enough in itself to make you buy a Studebaker buggy.
